## **BRIEF REPORT ON FLOODS IN MALDA**

Floods of destructive character are of regular occurrence in Malda. Between 1850 and 1870, there occurred several inundations, causing great distress in the district especially in the low lands lying along the rivers. After 1870, years of recorded high flood were 1875, 1885, 1906; floods also affected the district in the years 1918, 1922, 1935 and 1948. In the recent past, severe inundation was experienced in the years 1987, 1988, 1991, 1995, 1998, 2017 and 2019.

These floods resulted not so much from rain in the district but due to overflow of water in the rivers caused by rainfall in the upper catchments areas. Most of the rivers and streams in Malda, the most important of which is the Ganga take their rise in the Himalayan mountains and are therefore, susceptible to sudden inflow of huge water caused by the melting of snow or by excessive rainfall in the mountains.

Heavy rainfall in 1995 caused severe water logging and flash floods in Malda Town due to inadequate drainage. In 1996, part of Malda district experienced a record 40 days of continuous inundation from heavy rain in upper catchments areas of river Ganga. The loss of lives and damages of properties caused by the flood was quite high. The flood inundated almost the entire area of the district and caused dislocation of traffic and unanticipated damage of Govt. as well as private properties.

In 1999 again, flood water inundated northern parts of the district. Some blocks in the southern parts of the district were severely affected. The National Highway, along with some important arterial roads was submerged causing disruption of communication.

Flood situation in 2003 was not so grim in comparison to that of 1999, but the menace of erosion played havoc. The advancement of the Ganges and Fulahar went apace for the past few years playing mockery with whatever attempts put to effect to check the onslaught of erosion. The spurs and embankments erected to curb the rate of erosion failed. Placement of porcupines and bolder-pitching on river embankments to some extent could withstand a little in the face of great threat.

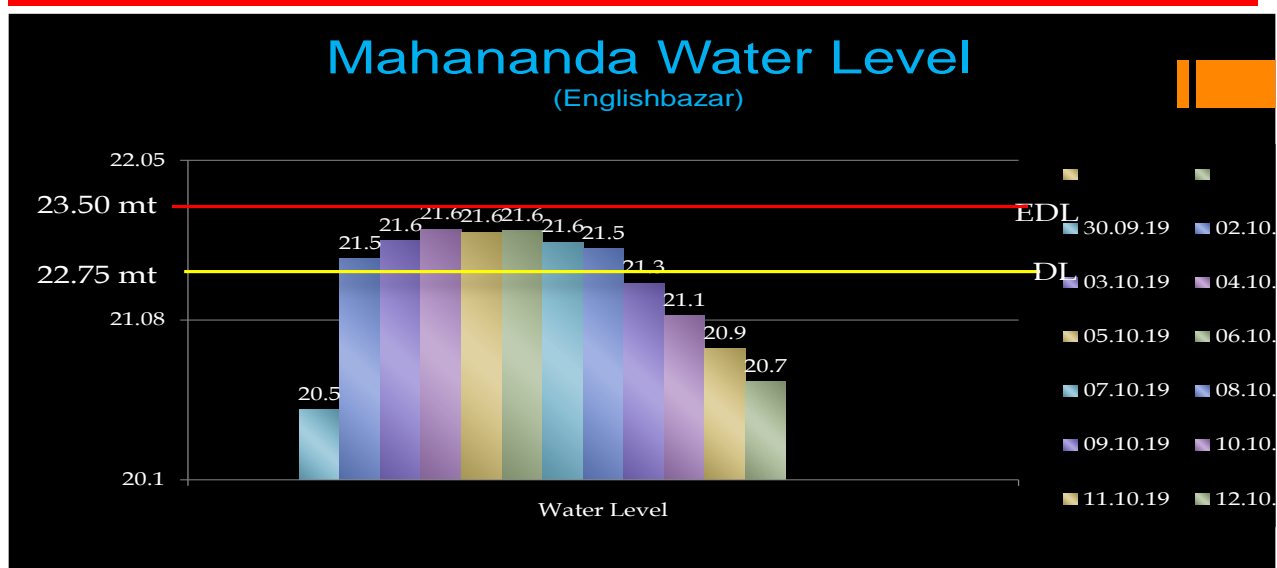

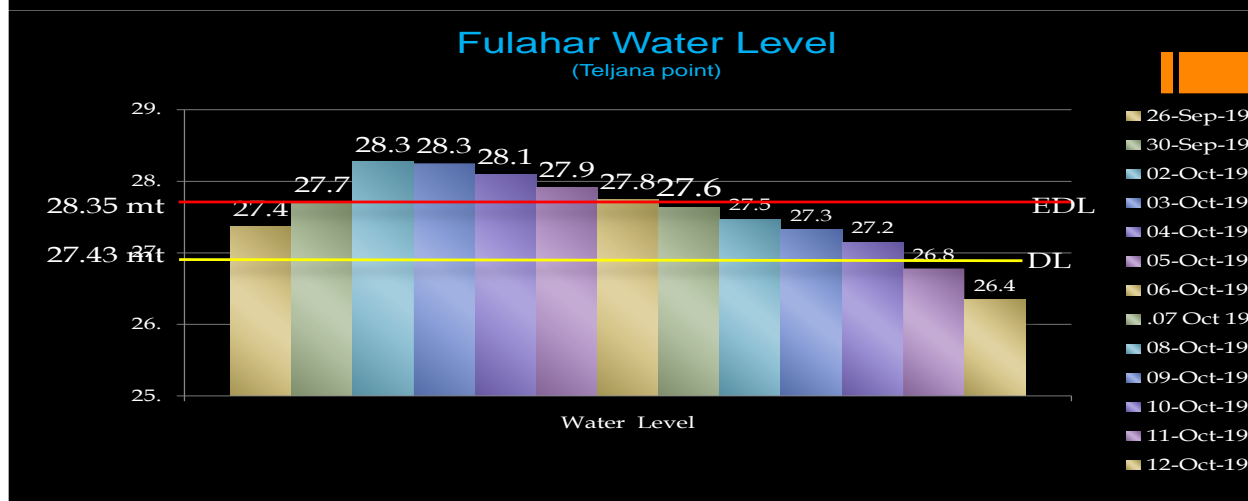

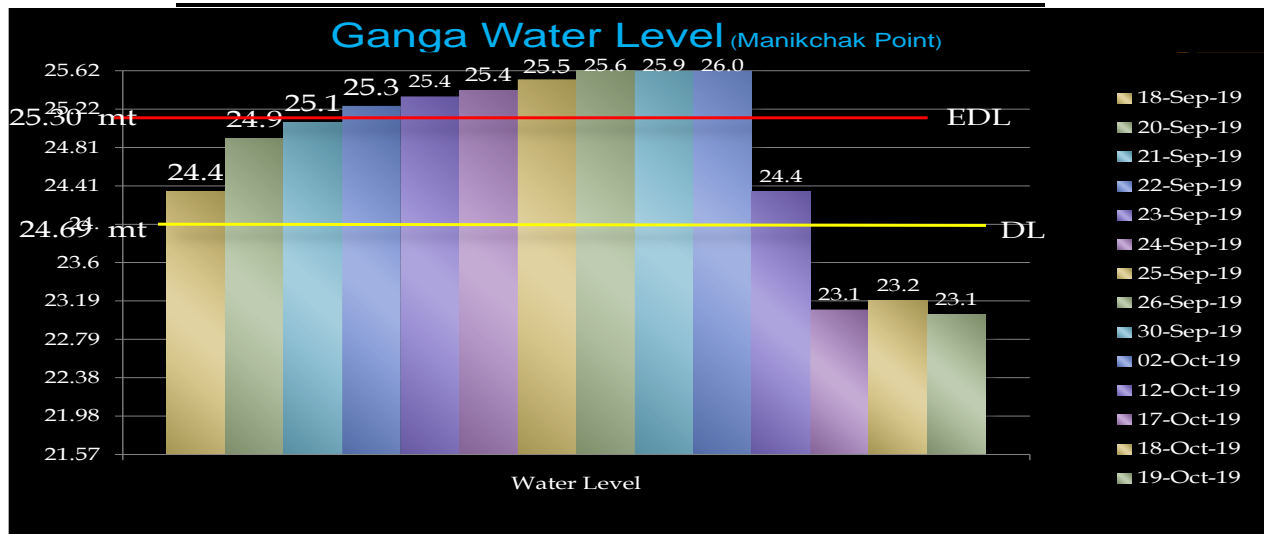

In 2006, heavy & incessant rainfall again created a flood like situation in almost all the blocks in the district. In 2007, vast part of Harishchandrapur-II & Ratua-I blocks were inundated due to sudden erosion of Bhaluka embankment at Harishchandrapur-II block.

The district experienced devastating flood in 2017, through the breach of bundh over Fulahar at Dhabol in Bihar and sudden flush of flood water combined with incessant rain for three to four days from 12<sup>th</sup> August, 2017 engulfed the district. Chanchal sub division and Gazole, Bamongola, Habibpur, Old Malda and Englishbazar blocks were the worst affected. The span of flood was more than 20 days causing havoc to the lives and property of the district. The District Administration with the help of various line deptt rose to occasion to restore normalcy.

Last year again, following incessant rainfall along with sudden increase in the water level of Fulahar, an embankment of the river at Surjapur area under Ratua-1 block breached, which flooded the villages of Ratua-I, Chanchal-2, Gazole and Ratua-2 block. The flash flood inundated acres of agriculture fields under these blocks within hours. This was accompanied by unprecedented increment of water level at Ganga, inundating huge areas under Kaliachak-2, Kaliachak-3 and Manikchak blocks.

The administrative machinery along with different departments of the district rose to the occasion in relief and rescue work on war footing. Many voluntary organisations rendered commendable service in flood affected areas.

## LAST COMPARATIVE FIGURES OF WATER LEVEL

### **AREAS VULNERABLE IN RESPECT OF FLOOD**

<i>Sl No</i>	<i>Name of Blocks</i>	<i>Name of the G.P.</i>	<i>G.P wise vulnerable villages</i>	<i>Adjoining rivers</i>
1.	H.C.Pur-II	Doulatnagar	Doulatnagar, Mihahat & Khidirpur	Mahananda & Fulahar
		Bhaluka	Hattichapa & Par Bhaluka.	
		Islampur	Basta, Imamnagar, Khopakathi, Islampur, Chandpur, Bhajana, Uttar Bhakuria & Dakhin Bhakuria	
2.	Ratua-I	Debipur	Debipur, Terashia, Balupur & Durgapur.	Fulhar , Koshi & Kalindri
		Mahanandatola	Bankutola, Janjalitola, Bajitpur, Dharmatola, Badantola, Jagabandhutola, Sambalpur & Sudamtola.	
		Bilaimari	Ramayanpur, Ruhimari, Gangaramtola, Nakkati, Nayabilaimari, Dewanwala, Khasmahal & Ajjitola.	
		Kahala	Kalutola, Asutola, Suryapur, Kamalpur, Kahala, Haragobindapur & Narattampur.	
		Baharal	Nimtalli, Sahapur Uttar, Sahapur Dakshin & Baharal.	
3.	Manikchak	Gopalpur	Kamaltipur, Sahabattola(part), Balutola, Nasutola(part), Kalitola, Iswartola(part) & Elahitola(part).	Ganga & Fulhar
		Dharampur	Wahedmara, Barabagan(part) & Sonapur.	
		Manikchak	Ramnagar, Jotpatta, Rabidaspara, Sibantola, 2No.Bridge para, Darbari tola, Narayanpur, Narayanpur Id gaha para, Manikchak ghat Bandh Para, Jalalpur (part), New sonapur, Mankud, Domhat, Chamatola. Madantola & Palpara.	
		Dakshin Chandipur	Mahendratola, Raghunath tola, Bhabani tola, Bipin tola, Durgaram tola, Payari tola, Panchu tola, Ratan tola, Duyani char, Bhojan tola, Jaipaltola, Sukdev tola, Bhim tola, Nayan tola, Lutihara, Debu tola, Krishnatola, Bhabanathatola, Ganesh tola, Nabadiptola, Amintola & Pulintola bandh.	
		Hiranandapur	Gadai, Nanditola, Mathurtola, Bagdukra, Benutola colony, Kaluton tola, Rajkumar tola, Bagedantola, Piyaritola, Debutola, Anantalaltola, Giridharotola, Gourangatola, Domontola, Lutihara, Baikunthatola & Chabiltola.	
		Nazirpur	Laksikol(part), Laskarpur(part), Haripur(part) & Jitmanpur(part).	
4.	Kaliachak-II	Bangitola	Jote kostuty, Mahadevpur, Bintola, Sadipur, Gosaihat & Chowdhutytola.	Ganga
		Uttar Panchanandapur-I	Dolboxtola, Ramlaltola(part), Loharditola, Sultantola, Laskaritola, Paglaghat Bus stand, Jinerditola & Nasarattola.	
		Uttar Panchanandapur-II	Dhelfora, Jitnagar & Jugaltola.	
		Hamidpur	Shibutola, Etwaritola, Shripur colony, Piaritola (east & west) Tofi, Mathabhanga, Jatintola, Chumkitola, Chechrutola, Khatiakhana char & 8 No. Spar bandh.	
		Rajnagar	Nayagram Model & Bromottar.	
5.	Kaliachak-III	Birnagar-II	Dinutola, Asgarhajitola	Ganga
		Laxmipur	Ajimtola, Atartola, Hajrattola, Bhangatol, Jagantpur, Mouza	
		Krishnapur	Mondai, Charsujapur, Surenmandalpara & Kalitola	
		Bakhrabad	Deonapur	
		Kumbhira	Noornagar & Sabdalpur	
		P/Sovapur	Parlalpur, Shibpur, Par anupnagar, Golapman & Dalpra	

\*\*\*\*\*

## **District Level Flood Contingency Plan**

1. Holding meeting of District Block, Gram Panchayat and Gram Samsad level Disaster Management committees and updating of Contingency plan.
2. Functioning of control rooms in Collectorate as well as in the office of every GP, Blocks, Line Department specially police, irrigation, Agriculture, Animal Resource, PHE, PWD, Mahananda Embankment Division and Health Department.
3. Joint Inspection of vulnerable embankment with irrigation officials, Repair of sluice gates flood protective embankments breaches and rain cuts. Installation of heavy-duty pumps for pumping out of stagnant water.
4. Identification of vulnerable areas, vulnerable groups and people and mapping thereof repair and maintenance of Flood Shelters.
5. Communication of river gauge readings of various rivers issued by flood forecasting cell, Malda and Central Water Commission, Patna to respective SDOs, BDOs and GPs.
6. Dissemination of rainfall, weather and flood reports received from government and IMD.
7. Installation of temporary Police RT sets at different vulnerable points in addition to eight irrigation RT sets.
8. Arrangements for storage of adequate relief materials in every block relief Go-down stock of Sub-Division Officer, Chanchal is also to be enriched.
9. Rolling stock of Kerosene Oil to be maintained at MR Dealer, Big dealer and Agent level, rolling stock of rice at the rice millers' level and adequate stock in FCI Godown.
10. Formation of rapid response teams in all level from out of ten DMT members and Civil Defence volunteers. Formation of medical RRT at each BPHC level to cope with medical exigency.
11. Boats, speedboats and other accessories to be kept ready. Preparation of list of boat owners and make it available with BDO and Gram Panchayat.
12. Keeping liaison with Army Officials tagged with the district.
13. Conduct of mock drill as many as possible.

### **Activities During Flood:**

1. Control room will function round the clock, RT Set, Telephone and Fax will be done in working Condition.
2. People will be made alert with study of gravity of situation and evacuation will be taken up to the people of high-risk zone.
3. Boats and other conveyance will be deployed in strategic point.
4. Shelter Management with drinking water facility and sanitation arrangement will be ensured.
5. Necessary steps are being taken up for sinking and re-sinking of tube-wells and setting up of latrine is being ensured through total sanitation programme in the identified flood shelter.
6. Health system development scheme have been taken up for better health service to the vulnerable people. NGOs to be mobilised to this work also.
7. Co-ordination meeting with different line department for taking follow up Rescue, Relief and Rehabilitation Programme and to analysis the problem and action taking decision.
8. Post disaster arrangement will be done providing financial assistance for rebuilding of damage houses, restoration of rural assets and alternative crop cultivation bank of other financial institution will be mobilised for this purpose.

**Floods:** This district is highly flood prone. Major rivers are Ganga, Mahananda, Fulahar, Kalindri and Tangon. All of them are in eastward motion. As a result, this district faces initial thrust of flood water entering from catchment areas i.e. Bihar and Jharkhand. Out of fifteen blocks Harischandrapur-II, Ratua-I, Manikchak, Kaliachak-II and Kaliachak-III block are most vulnerable to flood and erosion. A large no of people is put to hardship to such flood and erosion. Here is a list of Do's and Don'ts regarding safety precautions for floods.

#### **What To Do During a Flood?**

- Elevate your home from the base while constructing to avoid entry of floodwater or construct walls to stop it.
- Install "check valves" in sewer pipes to prevent floodwater from entering the drains of your home.
- Seal the basement walls to let water enter.
- If your home is in very low land, then shift to a safer place and keep all furniture at an elevated level.
- Keep all your documents in a safe water-proof bag.
- Keep updated with flood safety tips given by the Government.
- Know the safest route of escape to the nearest shelter.
- Install the electricity supplying switches and plugs above a certain level from the floor, which is most unlikely to get reached by the floodwater.
- Keep all your electronic devices charged.

#### **What Not to Do During a Flood?**

- Do not go in the flood-prone zone or leave your home if there is any flood forecast.
- Take all valuables with you and do not keep any valuables at home as you have to evacuate the place.
- Do not ignore advice, messages, or instructions given by Government and local Municipal bodies.
- Do not litter plastics, garbage, or any blockage making materials in the drains.

**Cyclone:** Cyclone is a weather phenomenon that always has had a tremendous impact on humanity since time immemorial. Furthermore, the cyclone can certainly be dangerous for humanity as they can bring widespread destruction to humanity. Most noteworthy, it is a weather system that we would just have to live with and cope with. What action can be done as precautionary measures during the cyclone are as under: -

Do's	Don'ts
Check the house, secure loose tiles, carry out repair works for doors and windows	Do not ignore warnings and go out for sight-seeing near the sea.
Remove dead wood or dying trees that are lying close to the house, anchor removable objects like timber-lumber piles, loose tin sheds, loose bricks, garbage cans, sign-boards etc which can fly in strong winds.	Do not allow children to play or near accumulated waters.
Demolish condemned buildings	Do not drive into water of unknown depth and current.
Keep some extra batteries for transistors	Do not eat food, which is affected by accumulated water.
Keep some dry non-perishable food always ready for emergency use.	Do not try to walk or drive through accumulated water.
Stay indoors and take shelter in the strongest part of your house.	Do not walk across bridges as they may collapse.
Listen to the radio and follow instructions	Never swim through fast flowing water.
Find some kind of shelter if you are caught in the open.	Do not walk through flowing waters-currents can be deceptive and shallow, fast-moving water can knock you off your feet.
Disconnect all electrical mains and appliances and turn off gas.	Do not swim through fast flowing waters you may get swept away or struck by an object in the water.
Store or secure loose boards, corrugated iron, rubbish tins or anything else that could become dangerous.	Do not reconnect your power supply until a qualified engineer has checked it.
Tape up large windows to prevent from shattering.	Do not smoke or use candles, lanterns or open flames
Believe in the official information and ignore rumors	Do not worry about your property too much. It is your life that is more important.
When a cyclone alert is on for your area, continue normal working but listen to the radio warnings	Do not return until advised after evacuation.
	Do not dry out building with mechanical dehumidifiers, as this may absorb all moisture quickly and cause additional damage.
Leave early before your way to high ground or shelter gets flooded.	Do not scrub or brush mud and other deposit from materials. This may cause further damage.
If your house is securely built on high ground take shelter in the safer part of the house.	
Board up glass windows or put storm shutters in place.	Do not open any books or albums that were completely submerged. (Wet paper is very weak and will tear).
Provide strong suitable support for outside doors	Do not keep objects in dark hot stagnant air with high humidity, as these conditions encourage mold.
If you do not have wooden boards handy, paste paper strips on glasses to prevent splinters.	Do not try to separate bundles of saturated paper.

**Drought:** The term ‘Drought’ in simple words is the absence of water for a long period of time, at a place where it is considered abnormal as compared to its usual conditions. The distribution of water on the earth’s surface is not even. Some places have lots of freshwater e.g. rivers, lakes, lagoons, ponds etc. and they are continuously replenished by rainfall and water from underground. If a region that has had lots of [rainfall](#), goes for a couple of weeks without rains, and people, animals and plants begin to experience a bit of dryness, it can be called a drought. Drought can be defined as a relatively long time where there is not enough water than there usually is, as a result of dry weather, to support human, animal and plant life. Droughts become an issue only when it begins to affect water supply for irrigation, municipal, industrial, energy, and ecosystem function. What action can be done as precautionary measures during the drought are as under:-

Do's	Don't
Carry out early warning and drought monitoring on the basis of long, medium and short-term forecast.	Do not work in extreme heat anywhere
Arrange reasonable buffer-stock of food grain and fodder.	Do not waste water anywhere.
Ensure supply of good drinking water in rural area for human and livestock in drought affected areas.	Do not leave children or cattle alone outdoors
Assess fodder requirement in drought affected areas and locate pockets where shortages are likely to occur and arrange supplies from outside.	Do not depend on only agriculture-based occupations.
Encourage fodder cultivation, wherever feasible.	Do not encourage deforestation and cutting of trees.
Rejuvenate traditional rainwater systems viz River, Nadis, Tanks, Khari's etc.	Do not follow single cropping pattern
Encourage rainwater harvesting for both the drinking and cropping	Do not grow water-intensive crops like paddy, sugar, etc which consume a lot of water.
Strengthen watershed management and irrigation system.	Do not delay in providing agricultural input support like seeds and fertilizers to the farmers.
Promote cultivation of potatoes, groundnut, oilseeds and maize.	Do not forget to involve community and self-help groups in drought management.
Ensure management of human and livestock population to reduce pressure on fragile arid ecosystem.	Do not take up new initiatives for execution without the approval of the appropriate authority.
Encourage social forestry/joint Forest Management.	Do not discriminate in providing relief to the affected people.
Ensure timely availability of credit, postponement of revenue collection and repayment of short-term agriculture loan.	Do not allow inclusion of the names of ineligible persons in the list for gratuitous assistance.
Give boost to appropriate land-use planning (inter-cropping system)	Do not procure fodder on any other price than fixed by the State Government.
Consume food as per your basic requirement	Do not allow more than 500 cattle in each cattle camp.

**Earthquake:** - When the earth's surface shakes, the phenomenon is referred to as an earthquake. Precisely, the sudden trembling of the earth's surface is the cause of an earthquake. Earthquakes are regarded as one of the deadliest natural disasters. Huge damage and loss of property are caused by earthquakes. There are various types of earthquakes. Some of them are severe in nature. The most dangerous thing about an earthquake is that it is quite unpredictable. It can cause several damages without any previous indication. The intensity of an earthquake is measured by the Richter's scale. Generally, earthquakes occur due to the movement of tectonic plates under the earth's surface. What action can be done as precautionary measures during the earthquake are as under:-

Do's	Don't
Repair deep plaster cracks in ceilings and foundations	Do not rent apartments in high rise multistoried buildings, without any earthquake proof.
Get expert advice if there are signs of structural defects.	Do not rent houses adjacent to weakly constructed vulnerable old houses or any other weak structure, which can fail on your house during earthquake.
Anchor overhead lighting fixtures to the ceiling	Do not rush to the doors or exits.
Consult structural engineers for earthquake safely before constructing buying or renting a house	Do not use the elevators
Follow Bureau of Indian Standards (BIS) codes relevant to your area for building standards	Do not go close to broken windows, mirrors, chimneys and furniture.
Fasten shelves securely to walls.	Avoid places where there are loose electric wires and do not touch any metal object in contact with them.
Place large or heavy objects on lower shelves	Do not re-enter badly damaged buildings and don't go near damaged structures.
Store breakable items such as bottled foods, glass and bone China in low, closed cabinets with latches.	Be aware that some earthquakes are actually foreshocks and a large earthquake might occur. Do not move to unsafe places.
Brace overhead light and fan fixtures	Do not come near the building, trees, streetlights and utility wires.
Repair defective electrical wiring and leaky gas connections. These are potential fire risks. Secure a water heater, LPG cylinder etc by strapping it to the wall studs and bolting it to the floor.	Do not enter the building until the shaking stops. The greatest danger exists directly outside buildings at exits and alongside walls. Most earthquake-related casualties result from collapsing walls, flying glass and falling objects.
Store weed killers, pesticides and flammable products securely in closed cabinets with latches and on bottom shelves.	Do not use roads, bridges or ramps that might have damaged by the earthquake.
Identify safe places indoors and outdoors	Do not light a match, move about or kick up dust open your mouth.

**Fire (Building: Offices and Residences):** Fire is one of the most destructive manmade disasters of all time. In Bangladesh, fire accidents are occurring frequently and one of the primary reasons of these accidents is unconsciousness of people. So, fire accidents not only take peoples' valuable lives but also hamper our economy to a great extent. Fire disasters mainly happen because of unconsciousness of people. Experts say many of the fires could have easily been avoided if the people take the right precautions. What action can be done as precautionary measures during the fire are as under:-

Do's	Don't
Install smoke alarms	Do not lose calm
Place smoke alarms on every level in the building	Do not paint over smoke/heat detectors.
Test and clean smoke alarms once a month and replace batteries at least once a year	Do not let trash, such as old newspapers and magazines etc accumulate.
Replace smoke alarms once every 10 years	Do not smoke near flammable liquids
Review escape routes with your family	Do not smoke in bed or when drowsy or medicated.
Make sure windows are not nailed or permanently shut.	Do not overload extension cords or outlets, if you need to plug in two or three appliances.
Consider escape ladders if your building has more than one level and ensure that burglar bars and other anti-theft mechanisms that block outside window entry are easily opened from the inside.	Do not leave electrical appliance or equipment continued to be energized when they are not in use, especially after office/working hours.
Clean out storage areas. Never use gasoline, benzene, naphtha or similar flammable liquids indoors	Do not put liquid or thing that is flammable or combustible near an electrical switchboard or an enclosure containing electrical components.
Store flammable liquids in approved containers in well-ventilated storage areas.	Do not touch bare electrical wiring.
Be careful when using alternative heating sources	Do not enter a damaged building, if you detect heat or smoke.
Place heaters at least three feet away from flammable materials. Make sure the floor and nearby walls are properly insulated.	Do not try to open a safe or strong box as it could hold intense heat for several hours.
Keep matches and lighters up high away from children and if possible, in a locked cabinet.	Do not use cardboard boxes, wooden crates or other receptacles that are made of combustible material as makeshift rubbish bins at your place.
Have the electrical wiring in your building checked by an electrician.	Do not accumulate unwanted items at your place.
Inspect extension cords for frayed or exposed wires or loose plugs.	Do not use corridors, walkways or passageways that form part of the emergency escape route at your place.
Make sure outlets have cover plates and no exposed wiring.	Do not remove ceiling boards or use ceiling voids for storage.
Escape through a window, if door is hot, if you cannot escape, hang a white or light-colored sheet outside the window, alerting fire fighters to your presence	Do not use fragile containers to store flammable liquids.
Open the door slowly and ensure fire and/or smoke is not blocking your escape route.	Do not use or operate dirty or greasy equipment/machinery.
Crawl hugging to ground to save from inhaling smoke while escaping through building on fire	Do not leave heavy machinery operating or running unattended.

**Heat Wave:** - A Heat Wave is a period of abnormally high temperatures, more than the normal maximum temperature that occurs during the summer season in the North-Western parts of India. Heat Waves typically occur between March and June, and in some rare cases even extend till July. People affected by heat waves can suffer from shock, become dehydrated and develop serious heat illnesses. Heat waves can also worsen chronic cardiovascular and respiratory diseases. What action can be done as precautionary measures during the Heat Wave are as under:-

Do's	Don't
Drink 2 to 3 litres of water per day or sufficient water as often as possible, and if not thirsty	Do not go out in the hot sun especially between 12 noon to 3 pm.
Wear lightweight light-colored, loose, porous natural fiber clothes	Do not undertake strenuous activities, avoid work outside during 12 noon to 3 pm
While traveling, carry water with you.	Do not consume alcoholic, caffeinated or carbonated drinks which dehydrate the body.
If you work outside keep hat and clothing damp.	Do not eat high-protein foods which increase metabolic heat.
Use umbrella, sunscreen as sun burn limits your ability to cope up with heat.	Do not leave children or pets in parked vehicles.
If you suffer chronic illness or feel ill, see a doctor	Do not come directly in touch with sunlight.
Use ORS, homemade indigenous drinks like lassi, torani (rice water), lemon sharbat (lemon water), butter milk etc which help to rehydrate the body and protect us from sunstroke.

7	Dulal Sarkar	Driver	9679062606

**Plan of CDPO for Running ICDS Centre in Crisis Period:**

1. Sufficient food stuff will be stock for the month of July 2019 to October 2019 for the crisis time.
2. An early awareness programme will be held by this end very soon.
3. All the AWWs are informed to make a list of the children who are inhabitant of low land area. This is also informed them to provide hot cooked food at the shelter of the flood affected beneficiaries in the time of flood.

### Plan of ARD Department for Cattle Fodder & other things:

1. Considering emergency situation in Ratua-I block the following teams are formed by the Officers, staffs, Pranibandhus and Pranimitras of Ratua-I block to perform ARD related activities like organization of Animal Health Camps , Vaccination Camps etc.

Team No	Name	Designation	Area of work	Remarks
Team-1	Dr. Subrata Samanta (Supervisor)  Ashis Kr Saha Momtazuddin Ahmed PraniBandhus & Pranimitras of concerned GP.	VO, BAHC, Ratua-I LDA LDA	Mahanandatola GP, Bilaimari GP, Debipur GP, Baharal GP, Kahala GP & Ratua GP.	
Team-2	Dr. Shekhar Paul (Supervisor)  Sanjib Samanta  Biplab Ch. Halder PraniBandhus & Pranimitras of concerned GP.	VO, ABAHC, Samsi  Vety. Pharmacist LDA	Samsi GP, Bhado GP, Chandmoni- IGP & Chandmoni-II GP.	

2. Block level Control Room was opened immediately at the Office of the BLDO after occurrence of Situation.
3. Sufficient no. of teams is formed for organizing Health Camps and Vaccination work.
4. Requisition for required amount of cattle feed will be sent to DD, ARD & PO, Malda with the request to supply it to the BDO, Ratua-I block as early as possible.
5. The BDO, Ratua-I is requested to arrange boats and vehicle for quick organization of Animal Health Camps as per demand.
6. The BDO, Ratua-I is requested to sort out the vest land for proper disposal of Carcasses.
7. Animal Health Camp & Vaccination will be done routinely and boosting dose (i.e. revaccination) will be done from time to time.
8. For Post disaster period an indent will be placed to the District Headquarter for wide cultivation of Fodder through supplying of large number of different fodder seeds & minikits to the farmers if land is available.
9. A demand will be also placed to the District Headquarter for preparing of small schemes like poultry, Piggery, Goatery & dairy for economic rehabilitation of affected livestock farmers, so that we can provide it immediately to the affected farmers.
10. The information transmission system should be as follows:

# **CONTINGENCY PLAN OF HABIBPUR DEVELOPMENT BLOCK**

**INTRODUCTION – Habibpur Dev. Block (Community Development block)** is an administrative division in Malda Sadar subdivision of Malda District in the Indian state of West Bengal. Habibpur community development block is located at 25°01'06"N 88°21'32"E 25.0184177°N 88.3589172°E. Habibpur block is characterized by a scorching and oppressive summer, ample rainfall and moisture in air throughout the year. Habibpur community development block has an area of 397.10 sq.km.

As per 2011 census, Habibpur block has a total population of 2,10,383, out of which 1,06,704 were male and 1,03,676 were females. Habibpur police station serves this block. Headquarters of this block is at Habibpur. Kachupukur, Kendua, Boxinagar and Aiho are urban areas in Habibpur block. There are eleven (11) Gram Panchayats under Habibpur Dev. Block. Mangalpura, Aktail, Baidyapur, Jajoil, Kanturka, Habibpur, Bulbulchandi, Aiho, Rishipur, Sreerampur and Dhumpur are the Gram Panchayats under Habibpur Panchayat samiti. The Habibpur Block Predominantly a tribal block mostly in habitat by tribal's mainly Santali with presence of high concentration of scheduled castes population also.

Habibpur development block lies under the confluence of river Tangon & Mahananda. Besides that the river Purnabhava passes through the Indo – Bangladesh Border across the border of three Gram Panchayats namely Baidyapur, Jajoil & Dhumpur. Huge water flows throughout the late rainy season in the river Mahananda and possesses a severe threat to the border villages of Rishipur GP. Particularly the back flow of water through the different forsaken channel of different rivers complicates the situation. Besides that, the lower regions in the Mangalpura and Bulbulchandi GP get inundated. Aiho, Rishipur, Mangalpura, Baidyapur Gram Panchayats are the most vulnerable GPs of Habibpur block as they fall directly under the wrath of river tangon and purnabhava during flood.

## **Aim :**

The overall aim of this plan is to facilitate actions by different stakeholders to prevent / mitigate disaster, climate risk, to enhance preparedness and to develop capacities for effective disaster management in the district. It further seeks to identify and clarify the roles and responsibilities of the internal and external stakeholders throughout the entire cycle of disaster management i.e. pre-disaster, during disaster and post disaster management phases.

## **CONTINGENCY PLAN OF KALIACHAK-II DEVELOPMENT BLOCK**

Among 15 Blocks in Malda, Kaliachak-II Development Block is one of the vulnerable Blocks in the shadow of mainly Flood and Erosion.

The Block has an area 209.17 sq.k.m. and comprises of nine Gram Panchayats. The total population of this Block is 208089 (as per 2011 Census Report). The livelihood of the majority of population depends on Agriculture, Horticulture and Cultivation of Polu.

The Block is Prone to Flood. The main rivers are the Ganges, the Pagla, the Bhagirathi. Among nine Gram Panchayats the most vulnerable Gram Panchayats are ,Bangitola , Uttar Panchanandapur - I ,Uttar Panchanandapur - II , Rajnagar&Hamidpur.

The Block shows the sign of severe problems due to Erosion caused by the Ganges. As Flood, Erosion prevail, a large number of population faces tremendous hardship.

To mitigate the emergent situation because of Flood, Erosion or other Natural Calamities, like Pre - monsoon Cyclone, Drought (rarely occurred) and Accidental Fire (if any); DISASTER MANAGEMENT PLAN, 2021 - 2022 has been prepared on the basis of various relevant points.

## **CONTINGENCY PLAN OF KALIACHAK-III DEVELOPMENT BLOCK**

### **INTRODUCTION**

Kaliachak-III Dev. Block is an Administrative Division of Malda Sadar Sub-Division of Malda District. The block area is 127.37 sq .Kaliachak III CD Block is bounded by [Kaliachak II](#) CD Block, [Kaliachak I](#) CD Block and [English Bazar](#) CD Block on the north, [ShibganjUpazila](#) in Chapai Nawabganj District, Bangladesh, on the east and south, and [Farakka](#) CD Block, in Murshidabad District, across the [Ganges](#), on the west.<sup>1</sup>

Among 15 Blocks in Malda, Kaliachak-III Dev. Block is one of the vulnerable blocks in the shadow of mainly Flood and erosion.

The Block has an area of 127.37 sqkms and comprises of 14 Gram Panchayats. As per [2011 Census of India](#), Kaliachak III CD Block had a total population of 359,071, of which 329,147 were rural and 29,924 were urban. There were 184,213 (51%) males and 174,858 (49%) females. Population below 6 years was 64,163. [Scheduled Castes](#) numbered 105,698 (29.44%) and [Scheduled Tribes](#) numbered 25,310 (7.05%) The livelihood of the majority of population depends on Agriculture and Cultivation The decadal growth of population in Kaliachak III CD Block in 2001-2011 was 15.74%.

The Block is prone to Flood and Erosion. The main rivers are the Ganges & the pagla. Among the 14 Gram Panchayats the most vulnerable Gram Panchayats are Birnagar-I, Par Deonapur/ Sovapur GP, Birnagar-II, Lakhmipur, Krishnapur, Bakhrabad, Kumbhira.

The Block shows the sign of severe problems due to Erosion caused by the Ganges. As Flood, Erosion prevail, a large number of population faces tremendous hardship.

To migrate the emergent situation because of flood, Erosion or other Natural Calamities, like Pre-monsoon Cyclone, Drought (rarely occurred) ; DISASTER MANAGEMENT PLAN, 2022-2023 has been prepared on the basis of various relevant points.

### **Literacy**

As per the 2011 census, the total number of literates in Kaliachak III CD Block was 159,712 (54.16% of the population over 6 years) out of which males numbered 90,816 (59.75% of the male population over 6 years) and females numbered 68,896 (48.07% of the female population over 6 years). The [gender disparity](#) (the difference between female and male literacy rates) was 11.68%.<sup>[13]</sup>

**Hazard, vulnerability, Capacity & Risk Assessment (HVCRA):-**  
**Assessment of Area prone to River Erosion & flood.**

**Fire Services Department:** This department takes an important role in disasters caused by accidental fire, earthquake etc.

**Non-Government Organisation:** Non Government Organisations take major role in helping the administration in providing the joint rescue operation, relief distribution and to provide awareness campaign in the cluster areas of the society.

## Hazard, Vulnerability, Capacity & Risk Assessment (HVCRA)

In 2016 Khaskhole areas of Milki G.P and Mohanpur areas of Sovanagar G.P was partly water logged.

In 2017, 48 villages of 08 G. Ps of this Block were fully water logged and 19185 people of 5318 families were affected due to over flow of river Kalindri, Mahananda and heavy rainfall. Almost 207 nos. of houses were damaged, 1731ha crop areas waterlogged with huge loss of property, natural resources and livelihood.

In 2018 Naugharia areas of Fulbaria G.P, Khaskhole areas of Milki G.P and Mohanpur areas of Sovanagar G.P was partly water logged.

Hailstorms and accidental fire incidents occurred time to time.

### **Socio-economic Profile of Englishbazar Block:**

**1) Total Geographical Area (Hec):** 24632.59

**2) Boundary: North** – Old Malda Block & Ratua –II Block

**South** – Kaliachak - I Block & Kaliachak - II Block

**East** – English Bazar Municipality & Bangladesh

**West** – Manikchak Block

**3) Regular rainfall:** 1453 mm

**4) Net Area under cultivation (Hec.) :** 21417.86

**5) Net Cropped Area (Hec) :** 8955

**6) Net Irrigated Area (Hec) :** 6275

**7) Area under pasture orchard etc. (Hec) :** 8941

**8) Forest land (Acres) :** Nil

**9) Gram Panchayat:** 11 Nos.

**10) No. of Village :** 270 nos.

**11) No. of Mouzas :** 135 Nos.

**12) Population as per Census 2011:** 2,74,103

**13) No. of Rescue Centre:** 169

**14) No. of H.S School:** 04

**15) No. of High School:** 33

**16) No. of Jr. High School:** 01

17) No. of Primary School:	139
18) No. of High Madrasah:	02
19) No. of College:	04
20) No. of Rural Library:	09
21) No. of Block Pry. Health Centre:	01 (Milki BPHC)
22) No. of PHC:	02 (Mahadipur & Chandipur)
23) No. of Sub Centre:	33
24) No. of MSK:	06
25) No. of SSK:	25
26) No. of Post Office:	22
27) Name of the Important Rivers:	The Ganges, Kalindri and Mahananda

### **Vulnerable Gram Panchayat & Embankment / Sluice**

**Name of the Vulnerable Gram Panchayats:** 1) Sovanagar, 2) Milki, 3) Binodpur, 4) Narhatta, 5) Fulbaria, 6) Kazigram, 7) Jadupur-II, 8) Kotwali, 9) Partly Amrity, 10) Partly Mahadipur, 11) Partly Jadupur-I

**Vulnerable Points on Embankments / Sluice:**

- 1) Sagardighi in Kazigram G.P
- 2) Bramjan Points in Narhatta GP
- 3) Kadubons in Narhatta GP
- 4) Itakhola Sluice in Narhatta GP
- 5) Bongapoint in Narhatta GP near Nagrai point
- 6) Laxmighat point near Masjid
- 7) Babu Mia point
- 8) Khaskole Sluice gate & Sadipur point in Binodpur GP
- 9) Hatkhola, Atgama point in Milki GP
- 10) Gosainpur Point & Sadipur Point in Binodpur GP
- 11) Jote Prithi point in Kazigram GP
- 12) Domohini points in Kazigram GP
- 13) Kanchantar to Kumarpur road point in Jadupur-II GP
- 14) Bidhannagar barrage point
- 15) Bhabanipur to Kalindri in Sovanagar GP
- 16) Kalindridare point in Sovanagar GP
- 17) Nahadiradra point in Sovanagar GP
- 18) Chandipur in Sovanagar GP
- 19) Satichora point in Kotwali GP
- 20) Nutun Nagharia in Fulbaria GP
- 21) Kamaltipur & Mohanpur under Sovanagar GP

22) Khasipara & Kawakhand under Milki GP  
Khaskhole, Khasipara & Kawakhand (**Milki GP**)

**Name of Vulnerable and very Vulnerable Villages (G.P wise):**

Mohanpur & Kamaltipur (**Sovanagar GP**)  
Nagharia, Natun Nagharia (**Fulbaria G.P**)  
Itakhola, Tekra (**Narhatta G.P**)  
Satichura Colony, Bridge Colony (**Kotwali G.P**)

### **Assessment of area Prone to River Erosion:**

- Khaskhole, Khasipara & Kawakhand (**Milki GP**)
- Mohanpur & Kamaltipur (**Sovanagar GP**)
- Nagharia, Natun Nagharia (**Fulbaria G.P**)
- Itakhola, Tekra (**Narhatta G.P**)

**Gram Panchayat level:**

# CONTINGENCY PLAN OF OLD MALDA MUNICIPALITY.

## INTRODUCTION.

The main disastrous impact in Old Malda Municipality is flood. Besides flood hailstorms, thunderstorms, earthquake, road accident, train accident, fire accident occurred time to time. Many People cattle and crop got damaged in divesting flood earlier in this Municipality. Normal life was totally disrupted.

Natural disasters take place without notice and destroy the natural resources. It brings loss of lives and play hare with the public life. All parts of Old Malda Municipality were affected by Disastrous flood in the month of August 2017 River over & lowing of Mahananda, Kalindri and Behula also happened in October 2020. As a result, were water – logged for few days during that time.

To prevent post disaster situations and hazards, preparedness is necessary, so this Municipality takes initiatives to manage mitigate the disastrous impact of the natural calamities and takes a plan as Municipal level Disaster Management plan.

Hope, this plan will helpful to manage and mitigate the impacts of naturals calamities, man-made disasters and reduce human misery.

## Hazard vulnerability, capacity & Risk Assessment (HVCRA)

Name of the Municipality	Name of the Vulnerable Wards	Name of the Vulnerable village	Relief camps and shetters Tagged
Old Malda Municipality	I,II,III,VI,VII,VIII,IX,XI,XVIII,XIX	Nawabganj, Banshut, Mokatipur Colony, Chalisapara, Ramchandrapur, Haldarpara, Nichu para, Bachamari,Baul Math, Schoolpara, Lebubagan, Mahananda Colony.	1) Balia Nawabganj Kalighat pry school. 2) Balia Nawabganj Municipal pry school. 3) Satya Narayan pry School. 4) Old Malda New pry School. 5) Lolabag New Pry School. 6) Old Malda Kalachand High School. 7) Ahaladmoni Girls High School. 8) Bachamari Mag.pry School. 9) Bachamari G.K. Pry School. 10)Osmania High School. 11)G.K. High School. 12)Parasamundai pry School. 13)Gour College. 14)Gour Chandra Ghosh Girls High School.

### **Institutional Arrangement for Disaster Management (DM)**

Chairman, Old Malda Municipality will look after the eater relief work and report to the district reliefs. The Subject is purely temporary in nature and subject to change considering the need of the hour that may likely to arise.

### **❖ Vulnerable Wards & Embankment / Sluice**

**Name of the Vulnerable Wards:**

1) Ward No 1, 2) Ward No 2, 3) Ward No 8, 4) Ward No 9, 5) Ward No 12, 6) Ward No 13, 8) Ward No 20, 9) Ward No 21

**Vulnerable Points on Embankments / Sluice:**

1) Maheshpur Baganpara, Maheshpur Gaduamore Jagadishpur, Maheshpur Santalpara In Ward No 1

2) Firm Area, In Ward No 2

3) Kamarpara Ghat, Dhopapra, Baluchar Nichipara In Ward 8

4) North Baluchar, Old F.C.I Office Para, Northbabuchar Muchipara, Nichipara In Ward No 9

5) Hatath Coloney, Arabinda Coloney In Ward No 12

6) Babupara, Hatath Coloney, In Ward No 13

7) Maheshmati In Ward No 17 & 18

8) Vivekananda Pally In Ward No 19

9) Khotabari, S.M Pally, In Ward No 20

10) Gayeshpur, In Ward No 21

11) Mahanandapally In Ward No 22

### **Assessment of area Prone to River Erosion:**

- Bandh Road in ward no 1
- Kamarpara ghat, in ward no 2
- Baluchar Bandh Area, in ward no 8
- Burning ghat area , north baluchar, in ward no 9
- Baluchar Bandh Road Area in ward no 12
- Sadar ghat, Bandh Area in ward no 13
- Goshai Ghat, Basak Para Ghat in ward no 14
- Chuniapatty, Bandh Area in ward no 20
- Sukanta pally, in ward no 21

1	Mukunda Sarkar	Sukanta Pally
2	Dhiren Sarkar	Near Nimai Sarai
3	Adhir Sarkar	Near North Point School
4	Ram Sarkar	Sukanta Pally

## **❖ Reconstruction, Rehabilitation and Recovery Measures**

Reconstruction work takes place after every disaster. For example, if flood takes by breaching any embankment, the repairing work of that particular embankment is essential. Irrigation and Waterways Department takes a vital role for reconstruction of embankments in West Bengal. Repairing of roads takes place by the PWD Department. Repairing of Tube well is concern of PHE department. Electricity Department takes a vital role for smooth supplying of electricity to the disaster affected areas.

There are various Government Rehabilitation Schemes available such as House Building Grant, Economic Rehabilitation Grant etc. for the disaster affected peoples.

## **CONTINGENCY PLAN OF POLICE, MALDA**

### **Setting up of Control Rooms:**

A Police Control Room with adequate strength will function round the clock at police line for co-operation with other agencies and regular collection of flood warning message and communicate the same to ICs & OCs and others for taking immediate action / overcome any eventuality.

### **Police Team:**

A team with the strength of 1-10 with one Vehicle will be kept in readiness in each shift at (1) Mothabari PS, 2) Ratua P.S. and 3) Manikchak P.S.

Apart from, all ICs and OCs of PSs have been alerted and instructed to keep close liaison with BDOs, BSF and other agencies to tackle any emergent situation.

### **Flood Rescue Centre /Camp :**

#### **Names of Govt. Flood Shelters ( Permanent in nature ):-**

- 1) Harischandrapur Block-II Office Compound under Harischandrapur PS
- 2) Mahanandatola village, Ratua Block-I under Ratua PS
- 3) Kankribandh under Mathurapur G.P. under Manikchak PS
- 4) Dakshin Chandipur G.P. under Bhutni PS
- 5) Kaliachak Block-III office Compound under Baishnabnagar PS
- 6) Kumbhira under Baishnabnagar PS
- 7) Rajnagar under Mothabari PS

ICs and OCs have been directed to draw up list of flood rescue centre/ camp, distribution centre in consultation with local BDOs for taking measures to avoid any untoward incident and smooth supply of relief materials.

### **Mode of Journey:**

ICs and OCs are instructed to collect the names of owners of country boats, mechanized boats which are available at BDO office and GP office. They will also contact with Truck & Mini truck owners Association for early transportation of relief material to the flood affected people.

### **Identification of Helipad Ground and Co-ordination with Air Force:**

The BDOs in consultation with the ICs & OCs of PSs will draw up a list of probable helipads. While selecting such helipads, condition of road and other relevant issues are required to be kept in consideration after necessary inspection by the Air Force Officials for finalizing such list. The following places may be earmarked for preparation of helipads and Air dropping points.

a) **Helipad**

Sl.No.	Name of Helipads	Police Station
1	Police Lines Ground, Malda	Englishbazar
2	Malda College Ground,	
3	Malda Air Strip, Malda	
4	Harischandrapur High School Ground	Harischandrapur
5	Bhaluka Irrign. Bungalow Ground	
6	Kharba High School Ground	Chanchal
7	Samsi College Ground	Ratua
8	Ratua Football Ground	
9	Pukuria High School	Pukhuria
10	Manikchak Sikha Niketan	Manikchak
11	Nazirpur Football Ground	
12	Kaliachak High School Ground	Kaliachak
13	PWD Stockyard, Mothabari	Mothabari
14	Baishnabnagar Football Ground	Baishnabnagar
15	Gazole High School Ground	Gazole
16	Raniganj High School Ground	
17	Bamongola High School Ground	Bamongola
18	Pakua High School Ground	
19	BSF Ground at Narayanpur	Malda
20	Girija Sundari High School Ground	Habibpur
21	Habibpur High School Play Ground	
22	Bhutni PS adjacent ground	Bhutni

**b) Air Dropping Points :-**

Air dropping of food grains and relief materials will be done at the places (School grounds/High lands), which are generally not inundated during flood. ICs & OCs of PSs in consultation of respective BDOs will draw up a list of such places, if situation of Air dropping arises and inform DM/SP Malda for prompt action.

**Vulnerable Points:**

ICs & OCs of PSs are instructed to prepare a list of vulnerable points.

The following places may be treated as vulnerable points /places (depending upon the history of flood).

## **CONTINGENCY PLAN OF HEALTH & FAMILY WELFARE** **SAMITY, MALDA**

Floods as a natural disaster have a high potential of precipitating the incidences of mass casualties. There is the risk of drowning and physical trauma along with the threat of diseases associated with contamination of water and the creation of mosquito breeding sites. Direct health effects of a flood may include: drowning; injuries like cuts, sprains, fractures, electric shocks; diarrhoea, vector-and rodent-borne diseases like malaria; skin and eye infections; and psychological stress.

The indirect health consequences of floods are usually due to damage caused to health care infrastructure and loss of essential drugs, damage to water and sanitation infrastructure, damage to crops and disruption of food supplies, destruction of property causing lack of shelter that may lead to increased exposure to disease-vectors.

Malda district is the gateway of North Bengal. The district waves by the rivers of The Ganges, Mahananda, Fulhar, Kalindri, Behula etc. and the banks of the riverside areas are flood-prone. After 1998, there was no history of heavy flood in the district. Flood occurred during 2019 in four (4) blocks (Ratua-I, Manikchak, Kaliachak-III & English Bazar) of Malda District. About 4 lakh peoples affected due to Flood various rivers. There are no reports of major floods in 2021. In 2021 Two or more (i.e. Manikchak, Ratua-I, Kaliachak-II & Kaliachak-III) blocks has been affected due to river erosion. Due to Ganga River erosion Bhimagram Sub-center has been drowned at Birnagar-I GP under Kaliachak-III block. Since last 10 years, the following blocks including the health facilities were affected due to heavy rains and water logged as below:

### **Areas and health facilities affected during flood**

Sl. No	Name of the Block	No of GP/Muni. affected	Total Population	SC area affected	Villages affected	Affected Population
1	Harishchandrapur-I	7	58,643	20	35	40,000

- The staffs will follow the SOPs during emergency. It will follow the search, rescue, first aid and treatment guidelines. All injured/affected persons (patients) will be identified and they will be managed according to the available resources. The patients will be classified according to the severity of the case and TRIAGE method will be followed in the sites. The staffs will try to identify the deceased and assist the others in the removal, shifting.
- All district level officers such as Dy. CMOH-I, II & III, ZLO, DTO, ACMOHs of the sub divisions will supervise the respective blocks.
- The health department will be stored sufficient quantities of drugs, equipments and vaccines for utilize during the calamity. Indent will be placed to the Dy. CMOH-I for necessary action.
- The BMOHs advised to discuss with the block level administration and the PRI to finalise the alternative place to run the health facilities.
- The district administration is requested to advice the block administration to keep a close liaison with the health department officials in the block level.

#### **Adverse effects of Flood**

Adverse effects of floods on health can be prevented by medical preparedness and prompt response through strong communications. Medical preparedness for floods constitutes the following components:

#### **Generate Awareness**

The District Health & Family Welfare Samiti will take proactive steps to create awareness to the type of illnesses and other health problems that can result in the aftermath of floods, to all the medical teams and the community at large. Hygiene and sanitation practices such as hand washing with soap and use of the toilet for defecation, use of boiled water or adding chlorine to water and safe food cooking by disease-free persons will be promoted.

#### **Trained Medical and Rapid Response Teams (RRT)**

The District Health & Family Welfare Samiti will ensure the creation of trained Medical and Rapid Response Teams for First Aid and resuscitation measures for drowning cases. Medical staff knows how to take out water from the respiratory tract and how to carry out cardio-pulmonary resuscitation.

#### **Stock of sufficient medicine and logistics**

Medical kits will be prepared for the management of flood casualties. Intravenous (IV) fluid (NS and RL), ventilators, oxygen, dressing materials, tetanus toxoid (TT), antibiotics, vaccines, anti-snake venom (AVS) and anti-diarrhoeal drugs will be the most commonly required medical resources. Sufficient medicine stored at District Reserved Stores (DRS) and blocks.

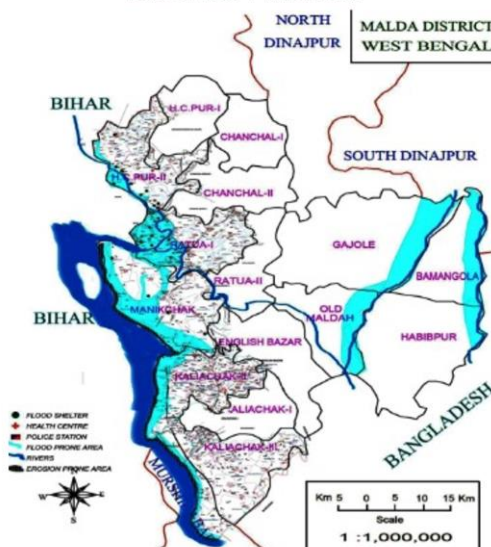

#### **Patient Evacuation Plan**

The District Health & Family Welfare Samiti will make available emergency medical equipment and drugs for resuscitation. Paramedical staff trained for resuscitation, triage and to maintain vital parameters like pulse, blood pressure (BP), respiration and intravenous (IV) drip during evacuation. Ambulances need to be deployed to aid in the evacuation of flood casualties collected at high points and it maintained Standard Operating Procedures (SOPs) for treatment.

Management and control of the adverse consequences of floods require coordinated and effective response systems at all levels- district, block, local and community. Many of the components of response initiatives will remain the same for other types of disasters. These systems need to be developed considering the multi-hazard scenario of the region to optimally utilise available resources.

Liaison will maintain with District administration to take up appropriate actions and co-ordinate with the concerned line departments accordingly. The District Health & Family Welfare Samiti has taken the following activities:

## Requirement of Material - Transport (15 Days) (to serve area & population likely to be affected by flood)

Motor Vehicles – Govt. 1 + 2 hired for high risk blocks (6) and 1 for other (8) (14 blocks)

No. 20 Required: Rs. 6,00,000

Hiring charge (Incl. POL) – @ Rs. 2,000/- per day/vehicle.

Boats-3 for each block (5 blocks)

No. 15 Required: Rs. 3,50,000

Hiring charge – @ Rs 1,500/- per day/boat

Others-

POL for Dist. RRT Vehicles @ Rs. 2000/day

Required (lumpsum): Rs. 1,00,000

Other expenses:

(Loading/unloading, IEC)- @Rs 3,000/block+8000 (Dist.)

Required: Rs. 50,000

Other type of Disaster (Lumpsum) - 3.0 lakh

**Total amount required as contingency cost (15 days) : 14 Lakh INR**

# CONTINGENCY PLAN OF HORTICULTURE, MALDA

## Department of F.P.I. & Horticulture, Malda District

### Post Flood /Draught/Hail Storm Measures for Malda District

1. A. **Distribution of Winter Vegetable Hybrid Seed Minikit**  
**Composition of Minikit:**
  - (a) F 1 Vegetables Hybrid seeds of Cauliflower, Tomato, Bittergourd, Radish and Cowpea
  - (b) Quantity: Cauliflower: 05 g  
Tomato: 10 g  
Bittergourd 10 g  
Radish 10 g  
Cowpea: 1 Kg

- B. **Distribution of Winter Vegetable OP Seed Minikit**  
**Composition of Minikit:**
  - (a) Vegetables OP seeds of Amaranthus and Palak
  - (b) Quantity: Amaranthus: 25 g  
Palak: 25 g

**Cost per Minikit: Rs. 1200/- per kit/farmer for 5000 Nos of farmers i.e Total Rs. 60,00,000/- (Rupees Sixty lakh) only**

2. **Distribution of Fruit plants minikit**  
**Composition of Minikit:**
  - (a) **Planting Materials** of Mango (Vineer Grafting), Guava (Air Layering), Litchi (Air Layering), Lime (Air Layering)
  - (b) Quantity: Mango: 10 nos.  
Guava: 10 nos.  
Litchi: 10 nos.  
Lime: 10 nos.

**Cost per Minikit: Rs. 1000/- per kit/farmer for 5,000 Nos of farmers i.e Total Rs. 50,00,000/- (Rupees Fifty lakh) only.**

3. **Distribution of Plant Nutrients as Minikits for Horticultural crops**  
**Composition of Minikit:**
  - (a) Vermicompost, Trichoderma viridie, Pseudomonas fluorescens, Azotobacter, PSB, N:P:K 19:19:19
  - (b) Quantity: Vermicompost: 50 Kg  
Trichoderma viridie: 1 Kg.  
Pseudomonas fluorescens: 1 Kg  
Azotobacter: 1 Kg  
PSB: 1 Kg  
N:P:K 19:19:19 1 Kg

**Cost per Minikit: Rs. 1200/- per kit/farmer for 5,000 Nos of farmers i.e Total Rs 60,00,000/- (Rupees Sixty lakh) only.**

Therefore, for District contingent plan of Disaster management / Crop loss due to natural calamity for the year 2023-24 total fund requirement may be Rs 1,70,00,000/- (Rupees One Crore and Seventy Lakh) only.

# **CONTINGENCY PLAN MECHANISM OF EXECUTIVE ENGINEER, MALDA IRRIGATION DIVISION**

## **Trigger Mechanism of Executive Engineer, Malda Irrigation Division**

Materials ready for flood fighting at beginning

Polythene bag: - 25,000 Nos

Nylon crate: - 2000 Nos

Sand: - 7000 cft.

## 2) Arrangement for early warning message:

Flood fore casting cell is proposed to be functioning on & from **1<sup>st</sup> June 2023** in the office premises of Executive Engineer, Malda Irrigation Division.

River gauge & rainfall in catchment is collected daily for flood fore casting.

**(a) River Ganga:** River gauge from Allahabad to Farakka is collected through Central Water Commission, one Gauge at Manikchakghat is maintained by I& WD (Malda Irrigation Division).

**(b) Tributary of Ganga in upper catchment:** River gauge and rain fall of catchment area of Sone, Gandak, BurhiGandak, Koshi is also collected through CWC.

**(c) River Mahananda:** River gauge is collected from upper catchment i.e. Siliguri, Dengraghat&Jhawa through CWC one gauge at English Bazar, Malda is maintained by I& WD (Malda Irrigation Division)

**(d) Fulahar:** One gauge at Teljana (Harishchandrapur, Malda) is maintained by I& WD (Malda Irrigation Division)

**(e) Rain gauge-** Rainfall data collected from **English Bazar** rain gauge station, Mokdumpur, Malda.

### Levels of gauge on different rivers

	River	Gauge Station	Danger level	Extreme Danger level
1	Ganga	Manikchak ghat	24.69m	25.30m
2	Fulahar	Teljana	27.43m	28.35m
3	Mahananda	EnglishBazar	21.00m	21.75m

All the 39nos sluices are kept on close vigil & made operational before monsoon.

A number of works under Core State Plan& RIDF are taken up in the vulnerable location (List Attached) and Attempt is being made to upkeep the flood protection embankment with the available fund.

### List of Proposed and ongoing works-

SL no	Name of proposed work	Status
1	Bank protection work in the left bank of river Ganga at sakurullahpur for a total length of 600 m starting from 100 m. downstream of shiv mandir in GP:- Bangitola, Block:- Kaliachak-II, PS:- Mothabari, District Malda.	Under tender process (RIDF-XXVIII)
2	Protection work along the left bank of river Ganga at Balutola near 5th. Retired Embankment for a length of 800 M in P.S.& Block-Manikchak, Dist-Malda.	Under tender process (CSP)
4	Bank protection work to the left bank of river Ganga near Sukhsena Ghat for a length of 700 M in P.S.-Bhutni, Block-Manikchak, Dist-Malda.	
5	Protection work along the right bank of river Tangon at Dobakhokshan, left bank of river Mahananda at Saharole and right bank of river Kalindri at Kanchontola for a length of 1250m in P.S-Gazole and Manikchak, Dist- Malda.	
6	Construction of a ring bundh including Inspection path by connecting existing Bhutnidiara Circuit Embankment to the left bank of river Ganga from Paschim Ratanpur to Srimantatola for a length of 2400m in P.s Bhutni & Ratua- block-Manikchak & Ratua-I, Dist-Malda.	Estimate submitted without land purchase cost, land purchase is under process
	<b>Ongoing works</b>	<b>Status</b>

1	Bank protection work to the left bank of river Ganga from Parlalpur ferry ghat to Golapmandalpara for a length of 2100M in G.P –Pardeonapur-Sovapur, block-Kaliachak-III, P.S -Baisnabnagar , Dist.- Malda”.	42% physical progress
2	Bank protection work in the left bank of river Ganga at JoteKosturi for a length of 500M (In the upstream of Balukhara Kalimandir) in G.P-Bangitola, Block-Kaliachak-II, P.S-Mothabari, dist-Malda.	46% physical progress
3	Bank protection work to the left bank of river Ganga at Saheba more, Mannutola & Srimantatola for a length of 675m in Block Manikchak, P.S- Bhutni, Dist- Malda under Malda Irrigation Division.	61% physical progress
4	Protection to the left bank of river Ganga for a length of 600m at Koshighat, P.S- Bhutni, block-Manikchak, dist-Malda under Malda Irrigation Division.	64% physical progress
5	Bank protection to the left bank of river Fulhar for a length of 240m & restoration of damaged portion of Marginal embankment near Mathurapur Bhutni Bridge at Sankoritola in block Manikchak.	65.5% physical progress
6	Protection work to the right bank of river Tangon at Bairdangi, Baruipur, Baherpur adjacent of PHE water supply scheme for a length of 1900M in P.S & Block- Gazole, Habibpur & Bamongola, Dist- Malda.	100% physical progress
7	Protection work to the right bank of river Punarbhaba near Primary School at Barshipara and at Kupadha adjacent of Nababnagar K.K.J.K Vidyapit for a length of 1250M in Block & P.S Bamongola, Dist-Malda.	100% physical progress
8	Protection & strengthening of Panchayet embankment for a length of 800 M & construction of Ring Bundh for a length of 400 M at Boro-Kalutontola to the left bank of river Ganga under GP-Uttar Chandipur, P.S.-Bhutni, Block-Manikchak, Dist-Malda.	81% physical progress. Agency prayed for honourable termination due to changed site condition after flood season 2022.

**CONTINGENCY PLAN OF WATER RESOURCES DEVELOPMENT DIRECTORATE  
OFFICE OF THE ASSISTANT ENGINEER (A-M) MALDA-I (A-M) SUB- DIVISION  
MADHABNAGAR, MALDA**

**Disaster Management Plan under Malda-I (A-M) Sub-Division, Madhabnagar, Malda**

**Disaster Management Plan under Malda-I (A-M) Sub-Division, Madhabnagar, Malda**

There are 73 nos. of Govt. owned Major River Lift Irrigation Schemes under Malda-I(A-M) Sub-Division among which 58 nos. are Electric Motor Pump set operated and 15 nos are Diesel Engine Pump set operated. During heavy rain water logging condition occurs at different places under Malda district. In this situation, Diesel Engine operated pump sets are supplied from Malda-I(A-M) Sub-Division, Madhabnagar, Malda (Water Resources Investigation and Development Department, Government of West Bengal) to remove water from local roads and surroundings. In earlier days, this process was mentioned to manage disaster on behalf of Water Resources Investigation and Development Department, Government of West Bengal. Still now it is maintained by storing extra Diesel Engines and pump sets under the Sub-Divisional store of Malda-I(A-M) Sub-Division Madhabnagar, Malda. Flexible Roll Pipes, Foot valves and wire ropes etc. are also available at Sub-Divisional store of Malda-I (A-M) Sub-Division Madhabnagar, Malda which are also necessary at water logging condition. Driver, Helper, Labour, required HSD oil etc are not available at our site. This is the Disaster management Plan under Malda-I(A-M) Sub-Division, Madhabnagar, Malda. List of materials is mentioned below.

**LIST OF MATERIALS (Contact Mob. No.-8170070998)**

Sl. No.	Details of Material	Quantity	Remarks
1	Diesel Engine with Pump Set	10 Nos.	
2	Flexible Roll Pipes	2 Roll	
3	Foot Valve (Complete Set)	5 Nos.	
4	Wire Rope	5 Roll	

**Disaster Management Plan under Malda-II (A-M) Sub-Division, Madhabnagar, Malda**

There are 17 nos. of Govt. owned Major River Lift Irrigation Schemes under Malda-II (A-M) Sub-Division among which 12 nos. are Electric Motor-Pump Set operated and 5 nos. are Diesel Engine-Pump Set operated. During heavy rain, water logging condition occurs at different places under Malda District. In this situation, Diesel Engine operated Pump Sets are supplied from Malda-II (A-M) Sub-Division, Madhabnagar, Malda (Water Resources Investigation and Development Department, Government of West Bengal) to remove water from local roads and surroundings. In earlier days, this process was maintained to manage disaster on behalf of Water Resources Investigation and Development Department, Government of West Bengal. Still now it is maintained by storing extra Diesel Engines and Pump Sets under the Sub-Divisional store of Malda-II (A-M) Sub-Division, Madhabnagar, Malda. Flexible Roll Pipes, Combined Tail Pieces, Hose Clamps, Foot Valves and Wire Ropes etc. are also available at Sub-Divisional store of Malda-II (A-M) Sub-Division, Madhabnagar, Malda which are also necessary at water logging condition. This is the Disaster Management Plan under Malda-II (A-M) Sub-Division, Madhabnagar, Malda. List of materials is mentioned below.

**LIST OF MATERIALS** (Contact Mob. No.-8653569276)

Sl. No.	Details of Material	Quantity	Remarks
1	Diesel Engine with Pump Set	2 Nos.	
2	Flexible Roll Pipes	2 Roll	
3	Combined Tail Piece	10 Nos.	
4	Hose Clamp	20 Nos.	
5	Foot Valve (Complete Set)	2 Nos.	
6	Wire Rope	2 Roll	

# CONTINGENCY PLAN OF NATIONAL HIGH WAY DIVISION, MALDA

## **FLOOD CONTINGENT PLAN : SERICULTURE SECTOR.**

### **Flood Contingent Plan for the Year 2023-24 for Sericulture Sector.**

Sericulture is a major occupation in rural areas in Malda district which is mostly confined in Kaliachak-I, Kaliachak-II, Kaliachak-III, Chanchal (I, II), Harishchandrapur (I, II), Manikchak, English Bazar, Gazole & Part of Ratua Block. Sericulture, mainly Mulberry cultivation being practised on high lands. Sericulture concentrated areas of this district are surrounded by River Ganga, Mahananda, Fulohar, Kalindri etc. Keeping apart the year 2016-17, Sericulture has not been seriously affected by flood during past few years. However considering the unprecedented situation a preparatory plan has been prepared.

### **Flood Prone Areas under Sericulture:**

Sl. No.	Name of <b>Sericulture Technical Service Centres (TSCs)</b>	Areas covering
1	Kaliachak-I, Sujapur, Jalalpur	Kaliachak ,Domaichak,Baishabnagar sujapur,Jalalpur
2	Kaliachak II	Mothabari
3	English Bazar	Piasbari, Amrity
4	Manikchak	Manikchak
5	Ratua	Samsi
6	Chanchal	Chanchal I, II
7	Harischandrapur	Harischandrapur I,II
8	Gazole	Gazole,Alal etc

### **Probable effect of Flood: -**

Due to flood or water stagnation for a long period due to continuous rain Sericulture mainly affected by:-

- i) Damage to Mulberry Plantation partially or completely which is perennial in nature, if the plantation inundated for more than 8-10 days.
- ii) Complete Crop Loss if affected during rearing period particularly during Bhaduri Crop.
- iii) Damaged caused to Rearing house.
- iv) Loss of Rearing implements like, Bamboo Made Rearing Tray (Dalla), Bamboo Made Spinning Tray(Chandrakies), Rearing Stands, Rearing Racks, Rearing Net(Cotton & Nylon made) etc.

### **Plan of assistance to the flood affected areas: -**

In case of Sericulture, there is limited scope for preparatory measures before flood or during flood period. After flood i.e., after receding of flood water from the affected areas following measures may be taken :

1. For recovery of damaged mulberry plantation, planting materials required to be supplied which is available in our Govt. Farms. Around **1500 Qtl.** of Mulberry cuttings will be available in our Govt. farms which can cover 150 Acres of plantations. Financial assistance may also be provided dovetailing with existing Departmental Schemes.
2. In case of crop loss during Bhaduri crop, special thrust would be imposed towards having a good harvest from next crop i.e., from Agrahayani crop. Farmers remain highly eager for Agrahayani Crop.

3. Disinfection of affected Rearing Houses/ implements by chlorinated disinfectants under mass disinfection programme of the department at nominal charge by Self help Groups, presently 30 such SHG engaged for the purpose.
4. Required Disease Free layings (DFLs) may be supplied from the Govt. Grainages at subsidized rates.
5. In case of complete damage of Rearing house, assistance for construction of new Rearing house under departmental ISDSI Scheme (Integrates Scheme for the Development of Silk Industry) can be provided through respective Panchayet Samity.
6. For procurement of rearing implements 75% assistance will also be provided to affected farmers under departmental SSDP Scheme (Sustainable Sericulture Development Project) through recommendation of Panchayet Samity.

## **CONTINGENCY PLAN OF IRRIGATION & WATERWAYS** **DIRECTORATE, MAHANANDA EMBANKMENT DIVISION,** **MALDA,**

1. **Introduction:** -A disaster management plan usually made during Hydro-metrological event like floods in the last few years to minimize vulnerability of flood and consequent loss of lives, livelihood, system property and damage to infrastructure and public utilities.
2. **Hazard, Vulnerability, Capacity & Risk Assessment (HVCRA):** Malda is a flood prone district. River Ganga & Fulahar are flowing in the North –South Direction on the Western part of the district. On the other side river Mahananda is flowing near the Head Quarter as well as English Bazar Town of Malda District. Each year high flood passes through this river. The earthen embankment was constructed and maintained by the Mahananda Embankment Division for protection from inundation of vast area of this district. In the year 2017 high flood occurred & vast area was inundated during that year due to breach occurred at Dhabal in Katihar district and consequently several breaches occurred on Mahananda Embankment at different location. Also, another breach occurred of Left Fulahar Embankment at Surjapur, Ratua-I, Malda in the year 2019 and vast area o Ratua-I & II was inundated.
3. **Institutional Arrangement for Disaster Management (DM) :-** Keeping strict vigil on river level as well as embankments throughout monsoon.
4. **Prevention and Mitigation Measures.:** -First necessary effort has been extended to identify the vulnerable spot on the embankment of bank of river like Fulahar and Mahananda and some of them have already been protected by taking early initiative. All the staff including site staff under their jurisdiction is strictly instructed to close vigil the vulnerable site for quick reporting to all concern during any crisis if occurred. We have 184.59 km earthen embankment for protection the vast country side from inundation. There are also 28 Nos sluice to pass surface run-off from country side towards river as well as to prevent high flood river water entry to the countryside to avoid inundation.
5. **Preparedness Measures.** -On set of monsoons a centralized regional flood Control room are opened and maintained by Irrigation and Waterways directorate and functioning round the clock by collection rainfall data from Indian Metrological Department and river gauge data from different river. All the gauges in the river and sluices are maintained in each year for proper functioning. The different levels like “EDL”, “DL” in respect of protected site of different rivers gauge observation are every day informed over phone to the flood cell. As soon as water level reaches **DL and EDL “Yellow” and “Red”** signals are to be imposed and District administration is informed accordingly for taking necessary measures from their end. In case of major damage / flooding due sudden high discharge of incessant rainfall it will be reported to all concern without any delay and required restoration / strengthening emergency measures during flood will be taken up with consent from competent authority.

# **CONTINGENCY PLAN OF CIVIL DEFENCE SECTION,** **MALDA**

## **INTRODUCTION**

**Main Objectives Responsibilities and Activities :** Civil Defence includes any measures, not amounting to actual combat ,for affording protection to any person , properly ,place or thing in India or any part of the territory thereof against any hostile attack , whether from air , land, sea or other places or for depriving any such attack of the whole for part of its effect , whether such measures are taken before , during at or after the time of such attack or any measures taken for the purpose of disaster Management , before, during, at , or after any disaster.

**Aims :**

- (a) To save life.
- (b) To minimize damage to property .
- (c). To maintain continuity of production.

**Scope:** Civil Defence is the defence of the people , by the people and for the people . It is not the defence by the military as some may understand . Civil Defence is the measures adopted by the civilian population, Government , Local self- bodies , voluntary agencies , NGOs etc. during the war to minimize the effect of enemy action on men and its armed force to win the war in battle fields. In fact the scope has touched such a magnitude that Civil Defence is regarded as the fourth arm besides, Army, Navy and Air Force.

The West Bengal Civil Defence Organisation covers the following 12(twelve) services:

- 01 Headquarter Service.
- 02 Communication Service.
- 03 Warden service.
- 04 Casualty Service.
- 05 Firefighting Service
- 06 Training Service.
- 07 Rescue Service
- 08 Depot and Transport Service.
- 09 Supply Service.
- 10 Salvage Service.
- 11 Welfare Service
- 12 Corpse disposal Service.

**Civil Defence Organisation:** The West Bengal Civil Defence organisation is headed by an IPS officer of Director General rank, it has four wings , Civil Defence, West Bengal Civil Emergency Force, Water Wing Civil Defence and Casualty Section. Every District has a Civil Defence corps and the District Magistrate is also Controller of Civil Defence for the district and every Sub-Divisional Officer is the Dy. Controller of Civil Defence for the Sub- division for Kolkata area , there is a separate controller of Civil Defence . For administrative purposes, Kolkata area is subdivided into three sub-areas Kolkata North, Kolkata Central and Kolkata South ,each headed by a Dy. Controller of Civil Defence. West Bengal is one of the limited number of states having a Central Civil Defence Training Institute , located at 199, NSC Bose Road, Kolkata- 700040.

**Water Wings Civil Defence Personnel:-** As per order of Director of Civil Defence of West Bengal, every year Water Wings Civil Defence personnel posted in this District for Flood relief and rescue operational purpose, and they may be posted to the different flood prone block, i.e. Kaliachak-I, Kaliachak- II, Kaliachak- III, Manikchak, Ratua- I, Harischandrapur-I & they are rendering the service the local people and stay in this District July to October CD Volunteers engaged for the above purpose as no boats, OBMs and other accessories kept at Itahargotlu store. We may collect the boats and OBMs from ItaharGotlu, Uttar Dinajpur during emergency period. The Water Wing of Civil Defence assists in rescue and relief operations through use of speed boats, floating aids and trained manpower and volunteers. West Bengal Civil Emergency Force attends to any emergency and disaster with Quick Response Teams, rescue equipment, speed boats and trained manpower and volunteers. The entire state of West Bengal has been declared as Civil Defence area. Each district has a large number of Civil Defence Volunteers who work continuously in the community towards fulfilling the 12 services of Civil Defence. Each district has at least two Civil Defence Rescue vehicles, fully equipped with modern rescue equipment, to respond immediately to any emergency.

**Multy Disciplinary Centres** : West Bengal Civil Defence has two Multy Disciplinary Centres, at Siliguri and Asansol.

**Rescue Centres** : West Bengal Civil Defence has three Rescue Centres at Mohanpur (Paschim Medinipur), Pursura (Hooghly) and Basirhat (North 24 Pgs).

**Training:-** Apart from carrying out training and rehearse/demonstration of Civil Defence measures during peace time, Civil Defence volunteers are also deployed, on a voluntary basis, in various constructive and nation building activities, which include providing assistance to the administration in undertaking social and welfare services and in the prevention/mitigation of natural/manmade disasters as well as in post disaster response and relief operations. As per order of Joint Secretary Department of Civil Defence has decided that all District and Sub- Divisional establishment shall arrange Different types of imparted types of Training for 5 ( five ) days , at least 8 ( eight) batches per year comprising of 30 ( thirty ) volunteers per batch. And also, be taken impart training club and other organization is under go sub-Civil Defence Training like Basic C.D, First Aid, Fire Fighter, Disaster etc. The local people participated in the different types of training.

**Camp: -** As per order of District Magistrate & Controller of Civil Defence Malda, we may arrange yearly 1 (one) Camp in this District at different school for Disaster Camp, and the students attend the said training course.

**Volunteers Service: -** 100(one hundred) Civil Defence regular volunteers (boys & girls) are attending weekly parade every Sunday we are organize different types of training as per order of Civil Defence department and apart from that we are rendering service during flood relief, immersion, election, enforcement checking, crowd control, traffic duty, as and when District Administrative desires at in work.

Following are some of the major activities of West Bengal Civil Defence:

1. Monsoon deployment in flood prone districts.
2. Ganga Sagar Mela deployment.
3. Deployment during major festivals and celebrations.
4. Deployment for emergencies and Disaster.
5. Mock Exercises for emergencies and Disaster.
6. Relief, Rescue and First Aid.
7. Disaster and Emergency monitoring.

## **CONTINGENCY PLAN OF DISTRICT CONTROLLER, FOOD & SUPPLIES, MALDA**

### **Action Plan :-**

1. Each Godown used for storage of procured rice shall have a rolling reserve of 100 MT rice.
2. Each Rice Mill will maintain a rolling reserve of 100 MT Rice.
3. Every MR Distributor shall keep a rolling reserve stock of 50 MT of Rice.
4. Every SK Oil Agent shall maintain a rolling reserve of 5 (five) KL of SK Oil.
5. Each SK Oil Dealer shall maintain a rolling reserve of 200 litres of SK Oil.
6. Sufficient stock of PDS commodities shall be kept in the fair Price shops to meet any eventuality.
7. Every fuel refilling station shall maintain a rolling reserve of MS/H5D equivalent to their two week's sales volume.
8. Every LPG dealer shall maintain a rolling reserve of LPG equivalent to their one week's sales volume which will be issued to affected people, if necessary.

### **Control Room & Contact Person of District Official:**

# CONTINGENCY PLAN OF WBSEDCL (SOUTH), MALDA

## Preface

South Malda Division under Malda Region, WBSEDCL playing important role in power distribution in the entire area of southern part of Malda District. Power supply in the entire area is being done through 14 nos. 33/11 KV Sub-Station namely Englishbazar s/s, Kalindi Power Station, Rabindrabhavan s/s, Narayanpur s/s, Milky s/s, Habibpur s/s, Mothabari s/s, Sujapur s/s, Kaliachak s/s, Baishnabnagar s/s, Manikchak s/s, Mobarakpur s/s, Balia s/s & Golapganj s/s. The Sub-Stations feed power to a widespread area of Englishbazar Block, Old Malda Block, Habibpur Block, all three blocks of Kaliachak and Manikchak block. The Sub-stations receives power at 33 KV level from the 132/33 KV Ghorapir Sub- Station and Khejuria 132/33 KV Sub-station & Gazole 220/132 KV Sub-Station of WBSEDCL. Presently it evacuates around 160 Mega Watt of power at peak hours. It is connected to Khejuria 132 KV sub-station by 5 nos. 33 kV circuits, Ghorapir 132/33 KV sub-station by 11 nos. 33 KV circuit & Gazole GSS by 3 nos 33 kV circuits. Total 85 nos. 11 KV feeder evacuating power from those sub-stations. Keeping in view of the importance of the substation any kind of the Disaster within the premises of 33/11 KV substation as well as outside of sub-stations needs to be dealt with effectively and efficiently to ensure smooth flow of electricity in above mentioned 7 blocks.

## Executive Summary

This report is a Disaster Management Plan for different 33/11 KV substations. The report has dealt with the aim and objective of the Disaster Management plan in the first chapter. It has been followed by detailed floor wise and building wise risk analysis and the resources both in-house and outside the premises which are available at our end to meet any type of emergent situation. The report also analyzed the worst case scenario in case of any Disaster, the response of the employees present at that moment and the roles and responsibilities of the stakeholders. Emphasizing the need of conducting mock exercises the present status of the mock drills and the future plans have also been analyzed.

## Chapter 1 – Introduction

### **(A)** Introduction

"Disaster" means a catastrophe, mishap, calamity or grave occurrence in any area, arising from natural or manmade causes, or by accident or negligence which results in substantial loss of life or human suffering or damage to, and destruction of, property, or damage to, or degradation of, environment, and is of such a nature or magnitude as to be beyond the coping capacity of the community of the affected area. "Disaster management" means a continuous and integrated process of planning, organizing, coordinating and implementing measures which are necessary or expedient for-

- (i) Prevention of danger or threat of any disaster;
- (ii) Mitigation or reduction of risk of any disaster or its severity or consequences;
- (iii) Capacity-building;
- (iv) Preparedness to deal with any disaster;
- (v) Prompt response to any threatening disaster situation or disaster;
- (vi) Assessing the severity or magnitude of effects of any disaster;
- (vii) Evacuation, rescue and relief;

### **(B)** Aim

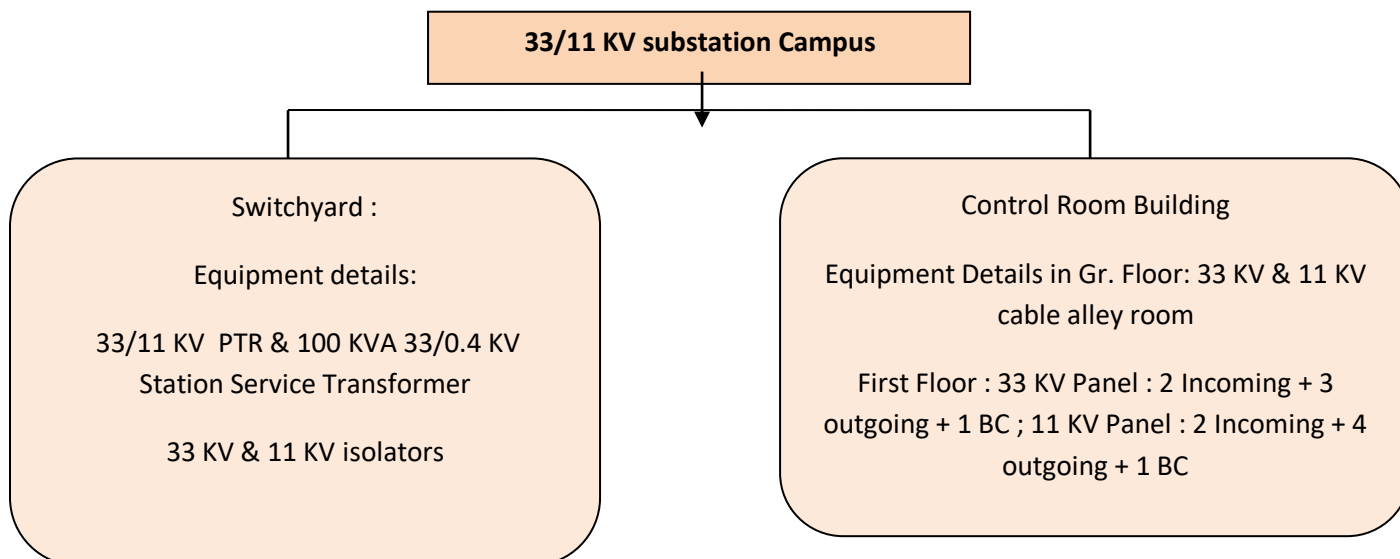

Evolving a process to manage various types of perceived natural and man made disasters.

**(C) Objective**

The objective of the report is to delineate the roles and responsibilities of various stakeholders, clarify command, control and co-ordinate structure for managing disaster and to formulate evacuation plan without causing panic.

**Chapter 2 -Hazard, Risks & Vulnerability Analysis**

The 33/11 KV substation premises can be largely divided into two parts as below: -

The detailed building wise and floor wise risk analysis and the selected assembly areas are as below:

**Switchyard**

SI No	Area	Installations present	Probable Hazards	Assembly Area
1	33kv Switchyard	Equipment details: 33/11 KV PTR & 100 KVA 33/0.4 KV Station Service Transformer 33 KV & 11 KV Isolators; Lightning Arrestors; Insulators	Fire; Earth Quake; Flood; Man Made Disaster	Open area between Switchyard & Main Gate

### Control Room Building

#### 1. Ground Floor

SI No	Area	Occupier of room	Materials stored	Probable Hazards	Assembly Area
1	80 sq. Mtr.	Cable Room	33 KV & 11 KV cable alley room	Fire; Earth Quake; Flood; Man Made Disaster	Open area between Switchyard & Main Gate

#### 2. First Floor

SI No	Area	Occupier of room	Materials stored	Probable Hazards	Assembly Area
1	80 sq. Mtr.	Control Room	33 KV Panel : 2 Incoming + 3 outgoing + 1 BC ; 11 KV Panel : 2 Incoming + 4 outgoing + 1 BC, Tools; spares; Documents; Almirah; Chair ; Table	Fire; Earth Quake; Flood; Man Made Disaster	Open area between Control Room & Main Gate

### 3. Second Floor

SI No	Area	Occupier of room	Materials stored	Probable Hazards	Assembly Area
1	10 sq. mtr.	30 volt Battery Room	30 volt Battery Set 2 nos.	Fire; Earth Quake; Flood; Man Made Disaster	Open area between Control Room & Main Gate
2	30 sq. Mtr.	Control Room	33 KV C&R Panel , RTCC Panel, Batery Charger, ACDB, DCDB	Fire; Earth Quake; Flood; Man Made Disaster	
3	10 sq. Mtr.	Maintenance Room	Maintenance equipment	Fire; Earth Quake; Flood; Man Made Disaster	

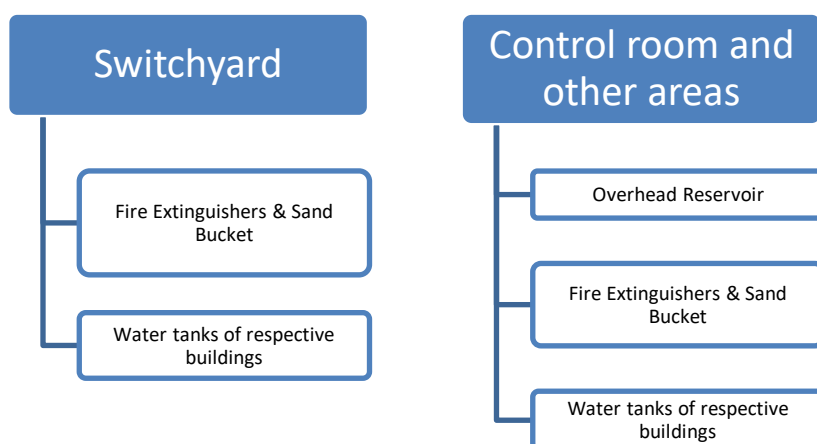

There is no record of flood at the different 33/11 KV Sub-Station, so probable disaster of flooding has not been considered.

#### Resource Mapping

##### (A ) Within Building

#### Fire Fighting Equipments

In respect of Fire hazards in different 33/11 KV sub-station the following Fire Fighting Equipments can be used to deal with the crisis situation.

### **Fire Extinguishers**

All 33/11 KV substation has sufficient number of fire extinguishers of all types ie A; B & C type located in major locations to deal with fire hazards. The Fire extinguishers are being regularly refilled. A details schematic diagram showcasing the location of fire extinguishers is displayed in control room building so that all the employees are aware of their locations and can readily use them in case of emergency. Apart from that, sand buckets are also maintained in the premises of the substation for use in case of fire exigencies. The detailed list of fire extinguishers is as follows:-

SI No	Type of Extinguisher	Number	Location
1	Co <sub>2</sub> ; 3 kg	1	Control Room Battery Charger room
2	Co <sub>2</sub> ; 4.5 kg	1	
3	Dry Chemical Powder; 5 Kg	2	
4	Water Type; 9 Liter	1	
5	Mechanical foam	1	
6	Fire Bucket	4	

### **Water Storage Capacity**

The premises of the substation have water storage of sufficient quantity which may be used for extinguishing and dealing with fire exigencies. The detailed capacity of water storage is as follows:-

SI No	Water Storage	Location	Capacity
1	Overhead Reservoir	Roof of Control room	500 litres

### **Illumination**

To protect the substation premises from manmade disaster and to deal with any form of natural disaster at night illumination plays a major role. Keeping that in view for switchyard high pressure mercury vapour lamps/ metal halide lamps are used and for the control room, and other areas fluorescent & energy saving lamps are used at different 33/11 KV sub-station.

### **Electrical Safety Measures**

The following are used as electrical safety measures:-

- Insulated mats
- Hand gloves
- Safety Shoes
- Discharge rods
- Personal Protective Equipments like Safety belts, Safety helmets, Torch lights and safety ladder.

### **Entry Exit of Buildings**

The control room building has two numbers of entry and exit which can be used simultaneously.

### **Available Manpower**

The details of the available manpower at each 33/11 KV substation are as follows: -

Manpower Details			
<b>Operation Staff: 7 nos.</b>	<b>Maintenance Staff (with vehicle driver): 12 nos.</b>	<b>Part time worker: 2</b>	<b>Security Guard: 4 nos.</b>

A total number of 25 employees (working in different shift) both Departmental & outsourced posted at each 33/11 KV substation have been trained in First aid. First Aid boxes, ready with all needful items, are maintained at Control room, Maintenance room and Security posts to enable immediate first aid treatment. Moreover, the detailed first aid treatment chart is displayed within control room building for further guidance of the employees in case of emergencies.

### **Communication System**

Communication plays an important part in case of any natural and manmade disaster. In view of this, apart from BSNL landline and mobile connections, at each 33/11 KV substation, are maintained as important communication channels.

### **Security & Checking**

In the interest of Safety and security, it is necessary that special precaution should be taken to prevent the entry of unauthorized persons into the premises of Mothabari 33 KV substation. The security personnel having army and paramilitary background regularly checks the entry and exit of persons and vehicles. One Supervisor (security) has also been posted at Mothabari 33 KV substation to oversee the security aspects of the premises. Moreover, proposal for declaring Mothabari 33 KV substation as "Protected Place" has also been forwarded to the authority to strengthen the security of the premises. The detailed shift wise deployment of security personnel in the premises is as follows:

-

	Location	Morning	Evening	Night
<b>Guards</b>	Main Gate	1	1	2
<b>Supervisor</b>	General Shift (rounds)	0		

## **( B) Outside Building**

### **Hospitals**

The nearest hospitals in each 33/11 KV s/s has been displayed in the control room.

### **Fire Stations**

The nearest fire stations and their contact numbers has been displayed in each 33/11 KV Sub-Station control room.

### **Ambulance Service**

The nearest Ambulance Service and their contact numbers has been displayed in each 33/11 KV Sub-Station control room.

### **District Civil Administration Authority**

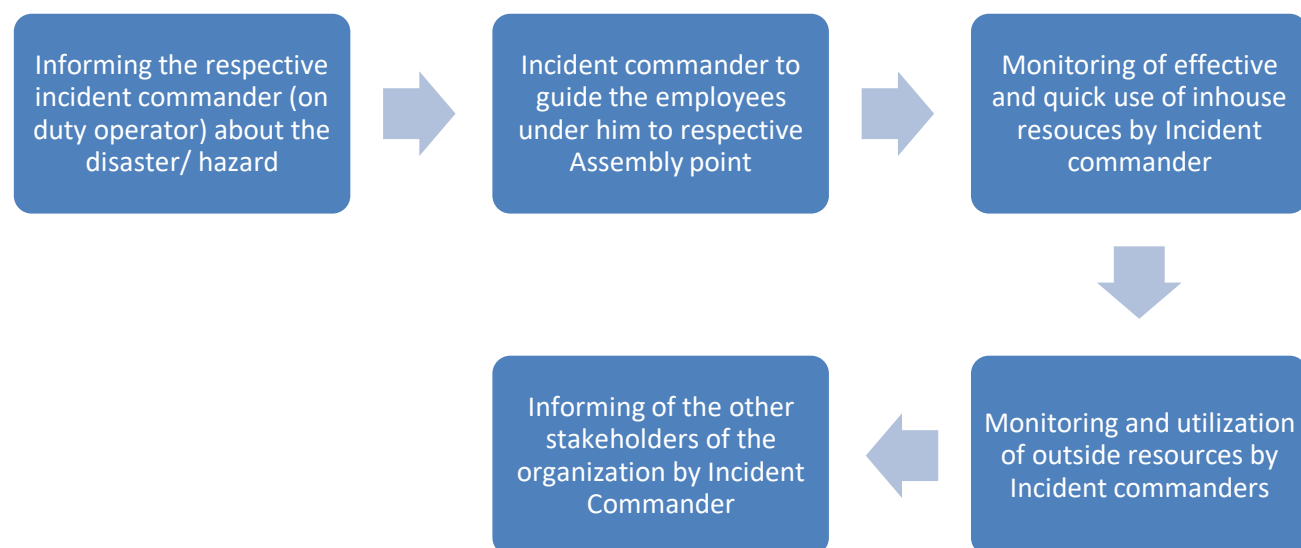

The contact details of the concerned civil administration authority has been displayed in each 33/11 KV sub-Station.

### **Likely Perceived Scenario**

Natural or manmade disaster in large scale can led to massive in the form of total destruction of building and adjacent areas and loss of major installation of the switchyard.

### **Suggested Response**

The response in case of any kind of natural or manmade disaster is as follows:-

## **Roles & Responsibilities**

The area wise roles and responsibility of officers in case of any disaster is as follows:-

SI No	Area of Disaster	Period of Time	Incident Commander
1	Inside Control Room	Day & Night	Operator On Duty
2	Switchyard	Day & Night	
3	Staff Quarter & Allied Area	Day	Supervisor ( Security)

## **Conduct of Mock Exercise**

### **Safety Training**

A safety Training was conducted in all 33/11 KV substation to make everyone conversant with safety regulations and processes. Regular monthly Safety Committee meetings are held at Mothabari 33 KV substation as per norms.

### **Mock Drill- Fire**

Mock drills for fire are being regularly held at Mothabari 33 KV substation. All the operation, Maintenance, security personnel and staff of other department are involved in these trainings so that the Fire Extinguishers can be effectively used in case of any emergency.

### **First Aid Training**

The personnel posted at different 33/11 KV substation have been trained to provide the necessary First Aid to the affected in case of emergency. A total number of 25 employees both departmental & outsourced posted at different 33/11 KV substation have been trained in First Aid.

## **Point of Contact**

Official contact no of different sub-stations are as follows :

SI	Name of 33/11 kV Sub-Station	Cotact No of Sub-Station	Blocks to Which Supplies Power
1	Rabindrabhaban	8900796277	English Bazar
2	Habibpur	8900796276	Habibpur
3	Kalindi	8900796274	English Bazar
4	Manikchak	8900796279	Manikchak
5	Narayanpur	8900796278	Old Malda
6	Kaliachak	8900796283	Kaliachak-I
7	Baishnabnagar	8900796280	Kaliachak-III
8	English Bazar	8900796275	English Bazar
9	Mothabari	8900796282	Kaliachak-II
10	Sujapur	8900796281	Kaliachak-I
11	Mobarakpur	8900796287	Old Malda
12	Milky	8900796284	English Bazar
13	Golapganj	8900796285	Kaliachak-III
14	Balia	8900796286	Old Malda

**Contact no Officials for communication to be done by District Administration in case of Disaster**

SI	Name of Blocks	Official Contact Points		
		Name	Designation	Contact No
1	English Bazar	Anirban Saha	Divisional Manager	8900796254
2	Habibpur	Amjad Ali	Manager(HR&A)	8900796249
3	Manikchak	Snigdha Hembrom	Divisional Engineer(E)	8900796261
4	Old Malda	Mainak Sarkar	Assistant Engineer(E)	8900796260
5	Kaliachak-I	Bikramjit Saha	Assistant Engineer(E)	8900796328
6	Kaliachak-III			
7	Kaliachak-II			
8	Old Malda			

### **Disaster in 11 kV Line, 33 kV Line& LT line**

In case due to disaster, any hazard such as breaking pole, conductor snapping etc. happens, requisite Poles are stacked in outside of Sub-Station & other materials are issued from Divisional Store at Nimaisarai. Also, there are more than 40 agencies working at under South Malda Division as well as different CCCs and each agency had apprx. 12 nos manpower in their firm. In case any hazard, LOI will be issued to agencies considering the work involved and the agencies will take up the restoration work by utilizing the iron materials issued from Divisional Store and the poles from nearby Sub-Stations.

# NORTH MALDA DIVISION

## WEST BENGAL STATE ELECTRICITY DISTRIBUTION COMPANY LIMITED

### Preface

North Malda Division under Malda Region, WBSEDCL playing important role in power distribution in the entire area of Northern part of Malda District. Power supply in the entire area is being done through 13 nos. 33/11 KV Sub-Station namely Chanchal s/s, Harishchandrapur s/s, Chatrak s/s, Ashapur s/s, Bhaluka s/s, Samsi 132/33/11KV s/s, Gazol s/s, Ratua s/s, Shibnagar s/s, Gurnagar s/s, Deotala s/s, Nalagola s/s & Adina 220/33/11KV s/s. The Sub-Stations feed power to a widespread area of Chanchal, Ashapur, Harishchandrapur, Gazol, Shibnagar, Harirampur, Gurnagar Jalalpur & Samsi. The Sub-stations receives power at 33 KV level from the 132/33 KV Harishchandrapur Sub- Station, Samsi 132/33 KV Sub-station, Gangarampur 132/33 KV sub-station & Gazole 220/132 KV Sub-Station of WBSETCL. Presently it evacuates around 135 Mega Watt of power at peak hours. It is connected to Harishchandrapur 132 KV sub-station by 4 nos. 33 kV circuits, Samsi 132/33 KV sub-station by 7 nos. 33 KV circuit & Gazole GSS by 2 nos 33 kV circuits & from Gangarampur GSS by 2 nos of 33KV circuits. Total 83 nos. 11 KV feeder evacuating power from those sub-stations. Keeping in view of the importance of the substation any kind of the Disaster within the premises of 33/11 KV substation as well as outside of sub-stations needs to be dealt with effectively and efficiently to ensure smooth flow of electricity in above mentioned areas.

### Executive Summary

This report is a Disaster Management Plan for different 33/11 KV substations. The report has dealt with the aim and objective of the Disaster Management plan in the first chapter. It has been followed by detailed floor wise and building wise risk analysis and the resources both in-house and outside the premises which are available at our end to meet any type of emergent situation. The report also analyzed the worst case scenario in case of any Disaster, the response of the employees present at that moment and the roles and responsibilities of the stakeholders. Emphasizing the need of conducting mock exercises the present status of the mock drills and the future plans have also been analyzed.

### (D) Introduction

"Disaster" means a catastrophe, mishap, calamity or grave occurrence in any area, arising from natural or manmade causes, or by accident or negligence which results in substantial loss of life or human suffering or damage to, and destruction of, property, or damage to, or degradation of, environment, and is of such a nature or magnitude as to be beyond the coping capacity of the community of the affected area. "Disaster management" means a continuous and integrated process of planning, organizing, coordinating and implementing measures which are necessary or expedient for-

- (i) Prevention of danger or threat of any disaster;
- (ii) Mitigation or reduction of risk of any disaster or its severity or consequences;
- (iii) Capacity-building;
- (iv) Preparedness to deal with any disaster;
- (v) Prompt response to any threatening disaster situation or disaster;
- (vi) Assessing the severity or magnitude of effects of any disaster;
- (vii) Evacuation, rescue and relief;

**(E) Aim**

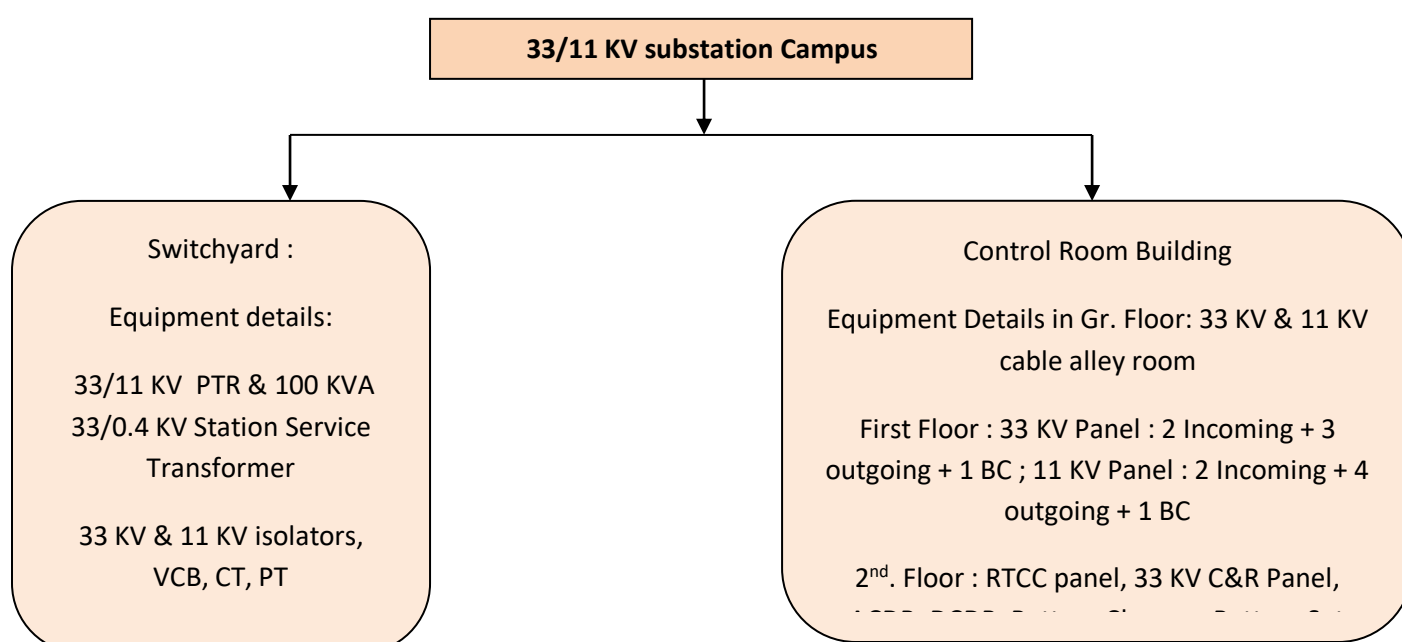

Evolving a process to manage various types of perceived natural and man made disasters.

**(F) Objective**

The objective of the report is to delineate the roles and responsibilities of various stake holders, clarify command, control and co-ordinate structure for managing disaster and to formulate evacuation plan without causing panic.

**Hazard, Risks & Vulnerability Analysis**

The 33/11 KV substation premises can be largely divided into two parts as below: -

*The detailed building wise and floor wise risk analysis and the selected assembly areas are as below: -*

## Switchyard

SI No	Area	Installations present	Probable Hazards	Assembly Area
1	33kv Switchyard	Equipment details: 33/11 KV PTR & 100 KVA 33/0.4 KV Station Service Transformer 33 KV & 11 KV Isolators; Lightning Arrestors; Insulators	Fire; Earth Quake; Flood; Man Made Disaster	Open area between Switchyard & Main Gate

### **4. Ground Floor**

SI No	Area	Occupier of room	Materials stored	Probable Hazards	Assembly Area
1	80 sq. Mtr.	Cable Room	33 KV & 11 KV cable alley room	Fire; Earth Quake; Flood; Man Made Disaster	Open area between Switchyard & Main Gate

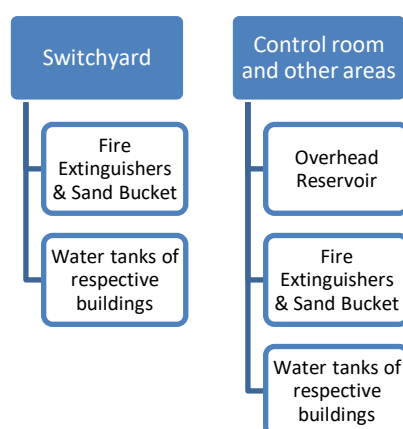

### **5. First Floor**

SI No	Area	Occupier of room	Materials stored	Probable Hazards	Assembly Area
1	80 sq. Mtr.	Control Room	33 KV Panel : 2 Incoming + 3 outgoing + 1 BC ; 11 KV Panel : 2 Incoming + 4 outgoing + 1 BC, Tools; spares; Documents; Almirah; Chair ; Table	Fire; Earth Quake; Flood; Man Made Disaster	Open area between Control Room & Main Gate

### **6. Second Floor**

Sl No	Area	Occupier of room	Materials stored	Probable Hazards	Assembly Area
1	10 sq. mtr.	30 volt Battery Room	30 volt Battery Set 2 nos.	Fire; Earth Quake; Flood; Man Made Disaster	Open area between Control Room & Main Gate
2	30 sq. Mtr.	Control Room	33 KV C&R Panel , RTCC Panel, Batery Charger, ACDB, DCDB	Fire; Earth Quake; Flood; Man Made Disaster	
3	10 sq. Mtr.	Maintenance Room	Maintenance equipment	Fire; Earth Quake; Flood; Man Made Disaster	

There is no record of flood at the different 33/11 KV Sub-Station, so probable disaster of flooding has not been considered.

## **Resource Mapping**

### **(A ) Within Building**

#### **Fire Fighting Equipments**

In respect of Fire hazards in different 33/11 KV sub-station the following Fire Fighting Equipments can be used to deal with the crisis situation.

#### **Fire Extinguishers**

All 33/11 KV substation has sufficient number of fire extinguishers of all types ie A; B & C type located in major locations to deal with fire hazards. The Fire extinguishers are being regularly refilled. A details schematic diagram showcasing the location of fire extinguishers is displayed in control room building so that all the employees are aware of their locations and can readily use them in case of emergency. Apart from that, sand buckets are also maintained in the premises of the substation for use in case of fire exigencies. The detailed list of fire extinguishers is as follows:-

Sl No	Type of Extinguisher	Number	Location
1	Co <sub>2</sub> ; 3 kg	1	Control Room Battery Charger room
2	Co <sub>2</sub> ; 4.5 kg	1	
3	Dry Chemical Powder; 5 Kg	2	
4	Water Type; 9 Liter	1	
5	Mechanical foam	1	
6	Fire Bucket	4	

### **Water Storage Capacity**

The premises of the substation have water storage of sufficient quantity which may be used for extinguishing and dealing with fire exigencies. The detailed capacity of water storage is as follows:-

Sl No	Water Storage	Location	Capacity
1	Overhead Reservoir	Roof of Control room	500 litres

### **Illumination**

To protect the substation premises from manmade disaster and to deal with any form of natural disaster at night illumination plays a major role. Keeping that in view for switchyard high pressure mercury vapour lamps/ metal halide lamps are used and for the control room, and other areas fluorescent & energy saving lamps are used at different 33/11 KV sub-station.

#### Electrical Safety Measures

The following are used as electrical safety measures: -

Insulated mats

Hand gloves

Safety Shoes

Discharge rods

Personal Protective Equipments like Safety belts, Safety helmets, Torch lights and safety ladder, Discharge Rods etc.

Entry Exit of Buildings

The control room building has two numbers of entry and exit which can be used simultaneously.

Available Manpower

The details of the available manpower at each 33/11 KV substation are as follows: -

<b>Manpower Details</b>			
Operation Staff: 7 nos.	Maintenance Staff (with vehicle driver): 12 nos.	Part time worker: 2	Security Guard: 4 nos.

A total number of 25 employees (working in different shift) both Departmental & outsourced posted at each 33/11 KV substation have been trained in First aid. First Aid boxes, ready with all needful items, are maintained at Control room, Maintenance room and Security posts to enable immediate first aid treatment. Moreover, the detailed first aid treatment chart is displayed within control room building for further guidance of the employees in case of emergencies.

## **Communication System**

Communication plays an important part in case of any natural and manmade disaster. In view of this, apart from BSNL landline and mobile connections, at each 33/11 KV substation, are maintained as important communication channels.

## **Security & Checking**

In the interest of Safety and security, it is necessary that special precaution should be taken to prevent the entry of unauthorized persons into the premises of Mothabari 33 KV substation. The security personnel having army and paramilitary background regularly checks the entry and exit of persons and vehicles. One Supervisor (security) has also been posted at Mothabari 33 KV substation to oversee the security aspects of the premises. Moreover, proposal for declaring Mothabari 33 KV substation as “Protected Place” has also been forwarded to the authority to strengthen the security of the premises. The detailed shift wise deployment of security personnel in the premises is as follows: -

	Location	Morning	Evening	Night
<b>Guards</b>	Main Gate	1	1	2
<b>Supervisor</b>	General Shift (rounds)	0		

## **( B ) Outside Building**

### **Hospitals**

The nearest hospitals in each 33/11 KV s/s has been displayed in the control room.

### **Fire Stations**

The nearest fire stations and their contact numbers has been displayed in each 33/11 KV Sub-Station control room.

### **Ambulance Service**

The nearest Ambulance Service and their contact numbers has been displayed in each 33/11 KV Sub-Station control room.

### **District Civil Administration Authority**

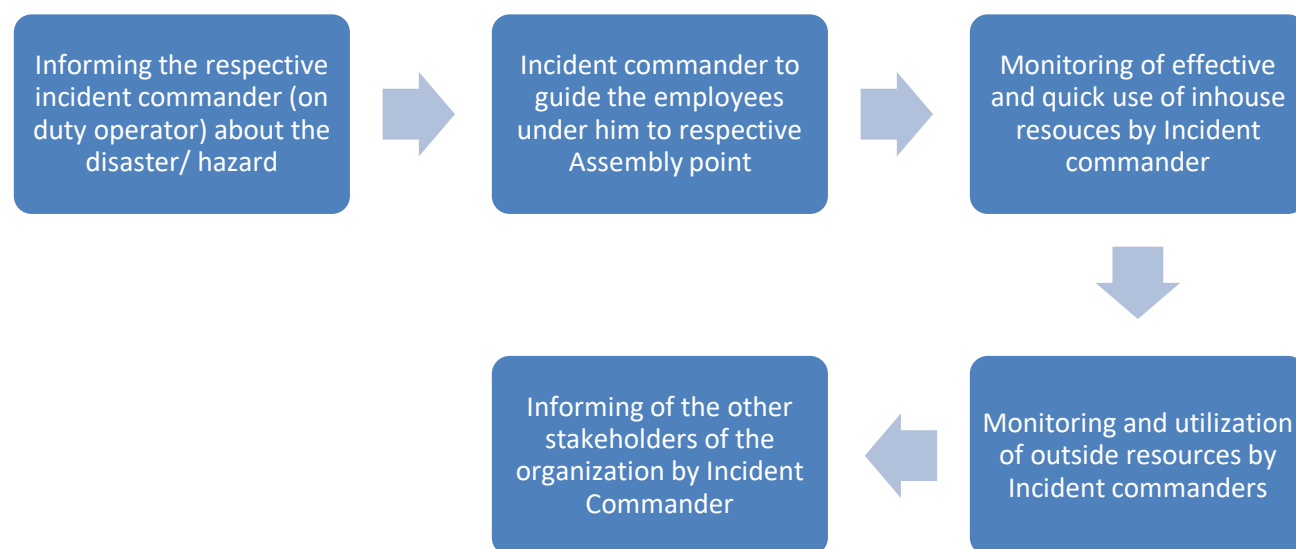

The contact details of the concerned civil administration authority has been displayed in each 33/11 KV sub-Station.

## **Likely Perceived Scenario**

Natural or manmade disaster in large scale can led to massive in the form of total destruction of building and adjacent areas and loss of major installation of the switchyard.

## **Suggested Response**

The response in case of any kind of natural or manmade disaster is as follows:-

## **Roles & Responsibilities**

The area wise roles and responsibility of officers in case of any disaster is as follows:-

SI No	Area of Disaster	Period of Time	Incident Commander
1	Inside Control Room	Day & Night	Operator On Duty
2	Switchyard	Day & Night	
3	Staff Quarter & Allied Area	Day	Supervisor ( Security)

## **Conduct of Mock Exercise**

### **Safety Training**

A safety Training was conducted in all 33/11 KV substation to make everyone conversant with safety regulations and processes. Regular monthly Safety Committee meetings are held at Mothabari 33 KV substation as per norms.

### **Mock Drill- Fire**

Mock drills for fire are being regularly held at Mothabari 33 KV substation. All the operation, Maintenance, security personnel and staff of other department are involved in these trainings so that the Fire Extinguishers can be effectively used in case of any emergency.

### **First Aid Training**

The personnel posted at different 33/11 KV substation have been trained to provide the necessary First Aid to the affected in case of emergency. A total number of 25 employees both departmental & outsourced posted at different 33/11 KV substation have been trained in First Aid.

## **Point of Contact**

Official contact no of different sub-stations are as follows :

SI	Name of 33/11 kV Sub-Station	Contact No of Sub-Station	Blocks to Which Supplies Power
1	Chanchal	8900796305	Chanchal
2	Ashapur	8900796313	Ashapur
3	Harishchandrapur	8900796306	Harishchandrapur
4	Bhaluka	8900796316	Harishchandrapur,Bhaluka
5	Ratua	8900796307	Ratua, Bhaluka
6	Gazole	8900796308	Gazole
7	Shibnagar	8900796309	Shibnagar
8	Gurnagar	8900796310	Gurnagar
9	Deotala	8900796311	Deotala
10	Nalagoala	8900796312	Harirampur
11	Chatrak	8900796314	Tulshihata

**Contact no Officials for communication to be done by District Administration in case of Disaster**

SI	Name of Blocks	Official Contact Points		
		Name	Designation	Contact No
1	Chanchal	Abhishek Dey	Divisional Manager	8900796288
2	Harishchandrapur I	Zafar Iqbal	Manager(HR&A)	8900796289
3	Harishchandrapur II	Suman Sardar	Assistant Engineer(E)	8900796292
4	Tulshihata	Dibyendu Maji	Assistant Engineer(E)	8900796293
5	Ratua			
6	Gazole			
7	Bamongola			
8	Samsi			

## **Disaster in 11 kV Line, 33 kV Line& LT line**

In case due to disaster, any hazard such as breaking pole, conductor snapping etc. happens, requisite Poles are stacked in outside of Sub-Station & other materials are issued from Divisional Store at Chanchal. Also, there are more than 60 agencies working at under North Malda Division as well as different CCCs and each agency had apprx. 12 nos manpower in their firm. In case any hazard, PO will be issued to agencies considering the work involved and the agencies will take up the restoration work by utilizing the iron materials issued from Divisional Store and the poles from nearby Sub-Stations.

Malda Mechanical Division				
Sub Divn. / Details	Name of the team in-charge	Designation	Contact details of team in-charge	Remarks.
Malda Mechanical Division	Animesh Chakraborty	Executive Engineer,	8116375121	
Malda Mechanical Division	Ladup Lepcha	Assistant Engineer-II	8906569890	For Water Pouch & Bottle.
Malda Mechanical Division	Goutam Halder	Junior Engineer	8910994250	

There is 1(one) Mobile Treatment Unit (MTU) capable of delivering 4000 nos. Water Pouches per hour it is stationed under purview of Malda Mechanical Division, PHE Dte. Also there is bottling plant capable of producing 3600 nos drinking water bottle per hour at Dariapur. This plant is also looked after by Malda Mechanical Division, PHE Dte. Also Water can be supplied through tankers in various blocks.

All other restoration of drinking water supply pipe lines are looked after by Malda Division & Malda Arsenic Area Water Supply Division, PHE Dte. jointly.

## **DISASTER MANAGEMENT PLAN OF, ANIMAL RESOURCE DEVELOPMENT, MALDA**

**Disaster:** - “A serious disruption of the functioning of a community or a society involving widespread human, material, economic or environmental losses and impacts, which exceeds the ability of the affected community or society to cope using its own resources.”

The term Disaster Management as used in the NPDM 2009 and the DM Act 2005 document is Comprehensive covering all aspects – disaster risk reduction, disaster risk management, disaster preparedness, disaster response, and post-disaster recovery. This document uses the term with the same meaning as defined in the DM Act 2005:

Types of Disasters faced by livestock owners of W.B.

### **A. Natural Hazards**

Natural Calamities like flood and drought are common in West Bengal and are regular feature. There are districts which are flood prone whereas few districts are drought prone. Cyclone, Tornado in coastal areas and landslides in hilly areas are also not uncommon. Biological i.e. Exposure to germs and toxic substances resulting epidemics (viral, bacterial, parasitic, fungal infections & Insect infestations are very common faced by the livestock owners of the state.

### **B. Human-Induced Disasters**

The NPDM notes that rise in population, rapid urbanization and industrialization, development within high-risk zones, environmental degradation, and climate change aggravates the vulnerability to various kinds of disasters. Due to inadequate disaster preparedness, communities, and animals are at increased risk from many kinds of human-induced hazards arising from accidents (industrial, road, air, rail, on river or sea, building collapse, fires, mine flooding, oil spills, etc.). Chemical, Biological, Radiological, and Nuclear (CBRN) hazards rank very high in among the human-induced risks.

**Therefore, a detailed action plan at State level for level-L2 disasters for tackling such hazards is imperative in the long-term interest of the Animal Resources of the State.**

The work plan or Standard Operating Procedure respect of Animal Resources Development Department to manage disaster or like situation may be divided in three action phases which may be followed every year in a cycle.

### **Pre- Disaster:**

#### **Disaster preparedness-**

- a) Advance planning to keep all departmental staff alert before the onset of the season (in case of flood & drought), early warning (in disease out breaks) and their subsequent deployment in the eventuality to be made through deployment planning and necessary strengthening. Rapid Response Team (RRT) to be prepared at District & Block level well advance.
- b) Identification of Vulnerable areas and estimated livestock population at risk.
- c) Arrangement for shelters, procurement and storage of essential inputs like feed & fodder, medicines, vaccines, disinfectants, drinking water, and water purifier etc. to be made to save the affected livestock.
- d) Arrangement to be made for opening control room at district/Sub- division/ block level and

- Veterinary team to be kept ready to proceed promptly along with medicines along with RRT.
- e) Principal Agriculture Officer of the district and West Bengal Livestock Development Corporation, a company under the ARD Department will be requested to keep reserve stock of paddy straw & Concentrate feed respectively for the anticipated calamity, if any.
  - f) Finalisation of rate for procurement of paddy straw locally by inviting quotation at Block/District level.
  - g) District Administrative authority and Panchayat functionaries at various levels to be contacted in regular manner to have updated information of hazards and guideline to aware the farmers.
  - h) Measures to be taken to identify appropriate transport facility for evacuation of animals from affected areas if required.

#### **Mitigation : Prevention & Risk reduction –**

- a) Vaccination of animal & birds to avoid Biological Hazards specially for animals in endemic zone, to be done against different bacterial & viral diseases as the case may warrant, e.g., Anthrax, H.S., B.Q., R.D., F.C., F.P., etc.

#### **Disaster Response:**

##### **A. Immediate action-**

- a) Control room at District/Sub-division/Block/GP level to be opened immediately & continuous contact with control room at every tier and public information network will be made.
- b) Shifting of animals in consultation with DDMU if required.
- c) Assess the requirement of feed & fodder, drinking water, medicine, vaccine & to be communicated to the District / Directorate Headquarter.
- d) Emergency Veterinary Team (RRT) will be deployed with adequate medicines, vaccine etc. to conduct Animal Health Camps in coordination with other stake holders. In case of shortage of man power officer & staffs, same may be deployed from farm.
- e) Disposal of dead animals & birds: - at the village level, some suitable land may be identified before hand for such action and carcasses to be disposed following appropriate bio-security measures.
- f) Attempt for segregation and quarantine for containment of epidemics.
- g) Assessment of loss of animals & birds following existing norms of assistance from SDRF & NDRF will be made and communicated to District Disaster Management authority as well as Directorate HQ.

##### **B. Delayed action-**

- a) In case of Geophysical (Tsunami, Flood or flood like situation) and climatological hazards, animals in disease prevalent /endemic zones to be vaccinated against different bacterial and viral diseases as the case may be.
- b) Care to be taken to combat various post calamity diseases of livestock which may affect health & production.
- c) Post operative surveillance to be continued aiming complete elimination of agents/environment causing hazard.

#### **Post Disaster Recovery:**

- a) Economic rehabilitation of affected livestock farmers with small units of poultry, piggery, goatery & dairy may be provided immediately after the disaster.
- b) Model livestock scheme may be implemented in consultation with Panchayat functionaries.

**District Level Team for monitoring of  
Disaster Management activities in the District.**

Sl no.	Name	Designation	Contact no.	Team Designation

**Data For Flood Management: -**

1. No. of Block	15
2. No. of Municipality	02
3. No. of Cattle Population as per 18 <sup>th</sup> All India Livestock Census	1039027
4. No. Buffalo Population	38439
5. No. of Goat Population	1376497
6. No. of Pig Population	70979
7. No. Poultry Population	2969050

**Budget of Expenditure**

i) Cost of temporary shelter	Rs. 500000/-
(i) cost of feed	Rs. 1000000/-
ii) Cost of medicine	Rs.1000000/-
iii) Cost of vaccine	Rs.50000/-
iv) Cost of mobilization of manpower	Rs.300000/-

**Source of Medicine, Vaccine &Feed: -**

- i) Medicine and vaccine will be obtained from us Department as per demand if stock permits.
- ii) Source of Cattle Feed: Gazole Feed Plant, Gazole, (a Govt. of West Bengal undertaking) Malda

**Management during Flood: -**

- i) Visit to the spot.
- ii) Rescue of Animals.
- iii) Arrangement of temporary shelter of Livestock by Local Govt.
- iv) Distribution of Paddy straw, Feed, Clean Water, Medicine, Especially Mineral Mixture.
- v) **Staff Engagement: -** There are two Veterinary Officer in addition to the L.D.A. in each G.P. who are responsible officer & staff to combat any natural calamity in regard to animal health coverage under the guidance of the Block Livestock Development Officer.

**Management after Flood: -**

- 1) Monitoring.
- 2) Vaccination through Health Camp.
- 3) Distribution of Input from ARD. Department.
- 4) Permanent Shelter for flood affected Animals from different departmental schemes.
