FOREWORD

The area enclosed by the district of Malda has historically been affected by the changing course of the rivers, even as its rise was due to being a major riverine port in the first place. Disturbances in the course of Ganga resulted in shifting of capital of the entire Bengal from Gaur (Lakhnauti) to Pandua in 1342 and again from there in mid-15th century when river Mahananda started to veer away from this site. The rivers have given this land fertility and also cursed it by frequent flood and erosion. The unique geological features of this district make it particularly vulnerable. Major part of the district except the eastern blocks covers an adjacent tract of flat lowland between 27 m and 21 m contours sloping gradually from north to south, and is classified into two additional physiographic regions viz the Tal and the Diara. Topographic gradients along the Tal region, consisting of the area defined by Chanchal Sub-Division, are barely existent, at an average of a mere 0.05 degree. Therefore, Ganga is the only fast moving river in this region, with a average gradient of 1:14500. The other minor regional rivers of the Tal barely manage to crawl across the tract at extremely low gradients ranging between 1:21000 and 1:25000 for Mahananda, Tangan and Punarbhava and even lower at 1:31200 for Kalindri. Because of this combination of low gradients and the resulting sluggishness in their water flow, all local rivers are prone to inundate the Tal during the monsoon, and the Mahananda with its large upstream catchment has often wreaked flood havoc in the tal tract. The situation faced in august last year was no exception to this. It was caused by some unscrupulous cutting of river embankment in neighbouring state, but the resulting flow of the water was too heavy to be carried away by the flat channels of the rivers and so inundated rapidly the catchment areas and beyond.

Embankments along the course of the rivers in the district have been heavily protected in the last few years. Irrigation department has been maintaining the major embankments and Gram Panchayats have also taken up similar works on a smaller scale, mostly utilizing resources from MGNREGS, thereby generating rural employment and at the same time creating valuable permanent flood protection assets. However, the topographical constraints causing water logging is a more difficult problem to handle. We need to think about overcoming this in innovative ways. Tal are is mostly composed of bog lands formed in many marshy packets around vestigial inland drainages. The streams of this zone have switched over to new courses, leaving many dead or dying channels that retain a trickle of water flow only during monsoons. Consequently, the Tal is strewn with marshes, small and big water bodies and oxbow lakes. Inter-braided streams with multiple channels also occur quite commonly along the rivers of this region displaying an amazing capacity to meander. We needs to rejuvenate these water bodies and marshy mudbanks of steams, channels and even rivers to increase their depth and carrying capacity. This requires considerable planning with respect.

To the contour mapping of the entire area in keeping with the overall north to south slope as was visible during the last flood. As a first step, we have completed the task of geo-referencing all of them with their local names so that seamless knowledge sharing between our machinery and the local people's wisdom can be utilized for optimal planning and execution. MGNREGS team of the district, block and Gram Panchayats has gone into mission mode to ensure permanent assets are created in the nature of increased water retention and carrying capacity and at the same time generating work at the villages.

This activity will help the water-scarce Baring region of Gazole, Bamongola, Habibpur and Old Malda as well, by recharging the groundwater level, and also rejuvenating the natural water bodies formed in the ravine-like geological structures formed by the impervious clayey soil which generates monsoon runoff and little percolation.

However, apart from these long term measures, we have to keep preparing for managing flood with determination every year. We have to take some lessons from last year as to prepare better. Interaction with local people have revealed that the historically flood prone nature of this district had prompted many families to keep small boats at their disposal over several generations. However, over time, these resources have diminished in quantity and quality. Last year several types of boats in large numbers were received and used from many sources, most importantly speed boats of Civil Defence and Disaster Management departments. However, even then the supply was less than demand and planning including ready availability of contact numbers of boat operators and means to take them to desired location has proved to be inadequate. We have to be better prepared. ICDS centers and resources have proved to be life savers in many areas. They may be strengthened even more to deal with similar emergencies.

The challenge faced by the Diara region formed by the Kaliachak-I, II & III, Manikchak and Englishbazar blocks are however, different. Historically this region has borne the brunt of river course shifting and erosion the most and therefore the occupational patterns have changed permanently. The risk of losing land coupled with high cost of cultivation has pushed many people to being migrant workers. Many of them are seasonal migrants who go to work elsewhere during lean season and come back when cultivation (in large part, mango season) takes place. Irrigation department has been fighting a difficult battle to save the vulnerable locations like Parlalpur in Kaliachak-III and Bhutni in Manikchak from consistent erosion pressure. Huge depth of Ganga has caused bed erosion which has proved to be difficult to manage even with large protection measures using boulder pitching and porcupine cage. Local GPs have also pitched in with support from MGNREGS. As the local people say, in Malda erosion starts as flood recedes, thereby making disaster management in this district a unique challenge.

Malda is flood prone District in West Bengal, the Ganga river flows along the western border of Malda, Fulahar, Mahananda and Behula river also flows over the District, which comes huge destruction by flood in Monsoon. To overcome this situation. We have to be vigilant to deal with excess rainfall and flood like situations. At the same time other disasters like thunderstorms fire etc. have to be properly protected against. Our two municipalities are also flood prone. Mahananda levels rose to much above EDL and stayed there for several days last year, posing grave challenges before both the municipalities. We have to clear our drainage system, check for small holes in our embankments where breaching takes place and keep in place proper system of reaching out to marooned families with food, water and other essentials and keep reviewing them from time to time so that we are never taken off guard by the forces of nature. We may not be a match to them, but we should never be caught napping.

(Sri Rajarshri Mitra, IAS.)
District Magistrate & Collector,
Malda.

Map of Important Rivers

A BRIEF HISTORY OF FLOODS IN MALDA

Floods of destructive character are of frequent occurrence in Malda. Between 1850 and 1870, there occurred three several inundation, which caused great distress in all parts of the district especially in the low lands along the rivers. After 1870, the years of high flood were 1875, 1885, 1906, Floods also affected the district in the years 1918, 1922, 1935 and 1948. In the recent past, severe inundation was experienced in the years 1987, 1988, 1991, 1995, 1998, 2017 and 2019.

These floods resulted not so much from rain in the District but due to overflow of water in the rivers caused by rainfall in the upper catchments areas. Most of the rivers and streams in Malda, the most important of which is the Ganges take their rise in the Himalayan mountains and are therefore, susceptible to sudden inflow of huge water caused by the melting of snow or by excessive rainfall in the mountains.

Successive heavy rainfall for three days in 1995 caused serious water logging and flash floods in Malda Town due to inadequate drainage system. In the years 1996, part of Malda district experienced a record 40 days continuous flood due to heavy rains in upper catchments areas of the river Ganges. The loss of lives and damages of properties caused by the flood was also considerable.

In the first phase, erosion of newly constructed 5th embankment started at Gopalpur in Manikchak Block on 04.07.1998. Huge river water flushed into country side affecting huge area of Gopalpur G.P. of Manikchak Block and K.B. Jhoubona G.P. of Kaliachak-II Block. In the 2nd phase, flood water spread into more Block areas between 30.07.1998 & 07.08.1998.

Fresh flood occurred in the third phase due to heavy rainfall in the district and upper catchment areas and flood water affected all the Blocks and the Municipalities. Rise of water level of different rivers namely Ganga, Fulahar and Mahananda caused unprecedented devastation in the district. This flood inundated almost the entire area of the district and caused dislocation of traffic and unanticipated damage of Govt. as well as private properties. This calamity has taken a lot of human and cattle lives. The depth of the flowing flood water varied from 4 feet to 10 feet in various parts of the district.

District administrative machinery along with the line departments of the District was engaged in relief and rescue works on war footing with the help of Army.

The National Highway, the State Highway and other roads of the district were sub-merged in many places resulting in disruption of communication.

Flood of 1999 inundated northern parts of the district. Some blocks in the southern parts of the district had also been severely affected. The National Highway, Gazole-Alal Road, Kotowali-Puhuria more and Manikchak-Ratua road were submerged and damaged in some places causing disruption of communication, particularly with the northern parts of the district. Due to disruption of road communication, relief materials had to be dispatched through Railway Services.

Many voluntary organisations like R.K. Mission, Bharat Sevashram Sangha, Kashi Biswanath Seba Samity, Red Cross Society, Lutheran World Service, Lions Club, Bharat Scouts & Guide, CARE, etc. rendered services in flood affected areas.

Flood situation in the year, 2003 was not so grim in comparison to that of 1999, but the menace of erosion played havoc. The advancement of the Ganges and Fulhar went apace for the past few years playing mockery with whatever attempts put to effect to check the onslaught of erosion. The spurs and embankments erected to curb the rate of erosion had been failed continuously. Placement of porcupines and bolder-pitching on river embankments to some extent could show a little in the face of great threat.

Flood occurred in the second phase due to heavy rainfall in the district and upper catchment areas. Rise in water level of different rivers, namely Ganga, Fulhar and Mahananda caused inundation of several areas of Malda district. Erosion and flood went hand in glove to wreck devastation in the district. Almost 236 Nos. of villages with nearly 1.64 lakh population were severely affected. Approximately 5043 hec. Of cropped area affected.

The administrative machinery along with different departments of the district rose to the occasion in relief and rescue work on war footing. Many voluntary organisations rendered commendable service in flood affected areas. Strict vigil was maintained to oversee the situation through liaison officers and Flood Co-ordination Committee meetings were held daily. Need based sub-allotments of relief materials, sinking of tube wells and deployment of medical teams at the affected areas were made. All out efforts were made to save electric power supply stations.

The district is fortunate enough to have a respite from the menace of flood and Erosion during 2005, 2006, 2007 & 2008 in a row. During 2006 heavy & incessant rainfall from 21.09.2006 to 25.09.2006 has created a flood like situation in almost all blocks under this district. During 2007 a vast part of Harishchandrapur-II & Ratua-I blocks were inundated due to sudden erosion of Bhaluka embankment at Harishchandrapur-II block. This district experienced devastating flood in the last year mainly due to breach of bundh over Fulohar at Dhabol in Bihar and sudden flush of flood water combined with incessant rain for three to four days from 12th August 2017 engulfed almost the whole district. The Chanchal sub division and Gazole, Bamongola, Habibpur, Old Malda and Englishbazar blocks were the worst affected. The span of flood was more than 20 days causing a havoc to the lives and property of our district. The District Administration with the help of various line deptt rose to occasion to restore normalcy. The threat of flood and erosion still hang over the district this year also. With the forecasted arrival of monsoon, the countdown already has started this year also.

নদী-পরিবহণে লাইফ জ্যাকেট আবশ্যিক করল জেলা প্রশাসন

রঞ্জুগোপাল মুখোপাধ্যায় • মালদহ

বিএনএ: চাঁচলের নৌকোভূমি থেকে শিক্ষা নিয়ে মালদহে ফেরি চলাচলে একগুচ্ছ পদক্ষেপ নিতে চলেছে জেলা প্রশাসন। নৌকার যাত্রীদের 'লাইফ জ্যাকেট' পরা বাধ্যতামূলক করতে চলেছে প্রশাসন। ইতিমধ্যে রাতে নদীতে নৌকো চলাচলের উপর সম্পূর্ণ নিষেধাজ্ঞা জারি করা হয়েছে। জেলা প্রশাসন সূত্রে জানা গিয়েছে, তিনজেলা ও অন্য রাজ্যের সঙ্গেও নদীপথে মালদহের যোগাযোগ রয়েছে। জেলায় বর্তমানে ১৬০টি নদীঘাটে খোয়া পারাপার হয়। অর্ধচ মাত্র ১০০টি নদীঘাটে নৌকো চলাচলের অনুমতি রয়েছে। বাকিগুলিতে বৈধভাবে ডাক হয় না। চাঁচলের ঘটনার পর বিষয়টি নিয়ে প্রশাসন কড়া পদক্ষেপ নিতে চলেছে। জেলায় অবৈধঘাট রাখা যাবে না। দ্রুত সেগুলিকে জেলা পরিষদ বা পঞ্চায়েত সমিতির আওতায় আনা হবে। ছোট ঘাটগুলিকে গ্রাম পঞ্চায়েতের আওতায় আনা হবে।

মালদহের জেলাশাসক কৌশিক ভট্টাচার্য বলেন, আমরা খোয়া পারাপারের ব্যাপারে বেশকিছু পদক্ষেপ করছি। নৌকায় ওঠা সবযাত্রীকে লাইফ জ্যাকেট পরাতে হবে। পঞ্চায়েত সমিতি বা জেলা পরিষদের তরফ থেকে ঘাটগুলিতে ওই জ্যাকেট সরবরাহ করার বিষয়টি খতিয়ে দেখা হচ্ছে। সূর্য অস্ত যাওয়ার পর নদীতে যাত্রীবোঝাই নৌকো চলাচলের উপর নিষেধাজ্ঞা জারি করা হয়েছে। বহন ক্ষমতার অতিরিক্ত যাত্রী কোনওভাবেই নৌকায় চাপানো যাবে না। যাত্রীদের সচেতন করার জন্য অনবরত মাইকে বিষয়টি ঘোষণা করা হবে। কৃষি নিয়ে নৌকায় যাত্রী না চাপানোর ব্যাপারে মাঝিদেরও সচেতন করা হবে। যাত্রীদের জন্য টিকিটের ব্যবস্থা করতে হবে। এতে নৌকায় যাত্রী পরিবহণের উপর নিয়ন্ত্রণ রাখা সম্ভব হবে।

এছাড়া নজরদারির জন্য বর্নির্ভর গোষ্ঠীর মহিলাদের ঘাটে মোতায়েন করা হবে। ঘাটের নিলাম থেকে পাওয়া টাকার তাদের সাম্প্রতিক দেওয়া হবে। নিলামে নেওয়া ঘাটের মালিক ও তাঁর অন্তত তিনজন সহকারীকে পরিচয়পত্র দেওয়া হবে। তাদের যে কোনও একজনকে যাত্রী পরিবহণের সময় ঘাটে উপস্থিত থাকতে হবে। এর অন্যথা হলে ঘাটের নিলাম বাতিলের মতো কড়া সিদ্ধান্ত নিতে প্রশাসন বাধ্য হবে। আমরা যাত্রী নিরাপত্তার ব্যাপারে কোনওভাবেই আপস করব না।

উল্লেখ্য, পুজোর আগে চাঁচলের জগন্নাথপুর ঘাট থেকে প্রায় ৪৫ জন যাত্রী ও ছয়টি বাইক ও সাইকেল নিয়ে একটি নৌকো ইটাহাদের হুন্সদপুর ঘাটে আছিল। মাঝে নৌকোটি বিহারের আশাবন্দুর থানার একটি ঘাটে যাত্রী ওঠা-নামা করার। রাত ৮টা নাগাদ হুটাছারমুখী নৌকোটি মহানন্দা নদীতে উল্টে যায়। নয় জনের মৃত্যু হয়।

বাকিরা সাঁতরে পাড়ে উঠতে সক্ষম হয়। এই ঘটনার পরই জেলা প্রশাসন নড়েচড়ে বসে। যাত্রীদের অভিজোগ ফেরিঘাটের উপর নজরদারির কোনও ব্যবস্থা নেই।

মাঝিরা অতিরিক্ত মুনাহার জন্য বেশিমাত্রায় যাত্রী তোলে। এতে কৃষি থেকেই যায়। মাঝেমধ্যেই ছোটঘাট

দুর্ঘটনা ঘটে।

প্রশাসনের এক আধিকারিক বলেন, ইতিমধ্যেই বিভিন্নদের সব ঘাট পরিদর্শন করে তথ্য দেওয়ার জন্য নির্দেশ দেওয়া হয়েছে। ব্রহ্ম প্রশাসনের আধিকারিকদের সরঞ্জামের পরিস্থিতি খতিয়ে দেখে নিশ্চিত রিপোর্ট তৈরি করতে হবে। ঘাটগুলির নিরাপত্তা খতিয়ে দেখার জন্য আমরা ওই রিপোর্ট নিয়ে জেলা স্তরে আলোচনা করব। যাত্রীদের জীবন নিয়ে ঝিনিমিনি খেলা বরদাশ করা হবে না। কেউ এব্যাপারে অবহেলা করলে আইনানুগ ব্যবস্থা নেওয়া হবে।

INTRODUCTION

Malda District is the gateway to North Bengal. This District comprises with 2 Sub-Divisions, 15 Blocks and 2 Municipalities under the administrative control of Malda Division.

GEOGRAPHICAL LOCATION

This District is bounded on the North by North Dinajpur District (West Bengal) and the District of Purina (Bihar). On the East, it is partly bounded by the District of South Dinajpur (West Bengal) and the District of Rajshahi (Bangladesh), on the South by Murshidabad (West Bengal) and the District of Santhal Parganas (Jharkhand).

River system

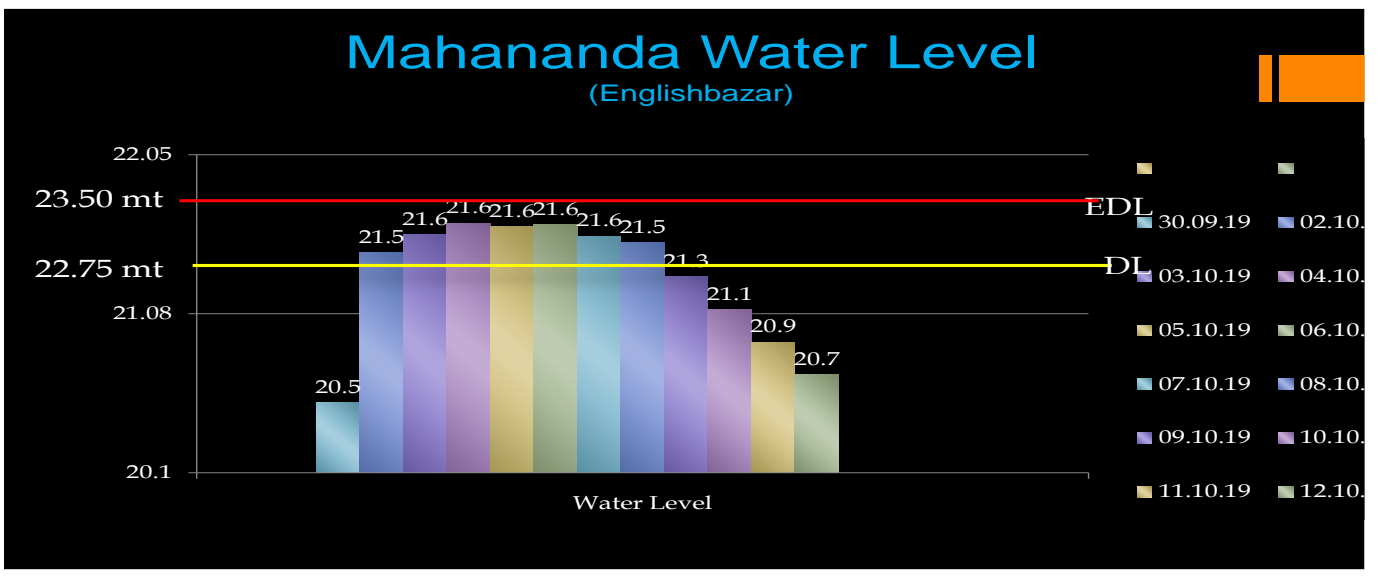

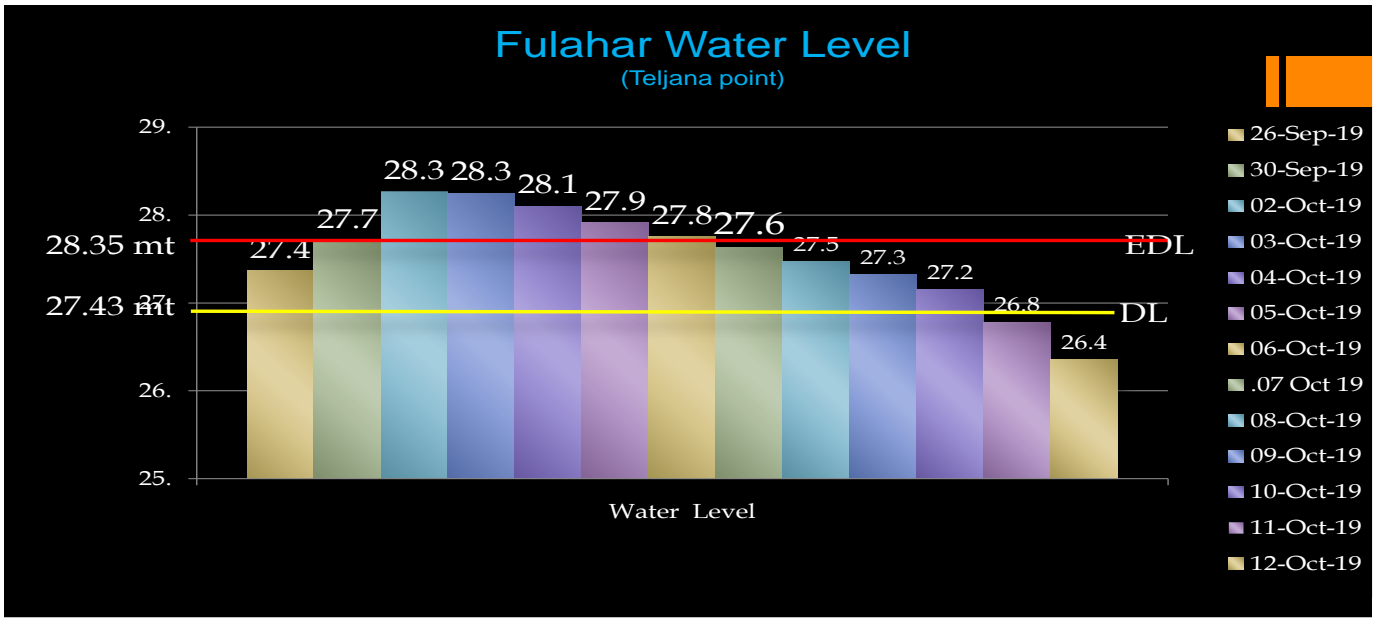

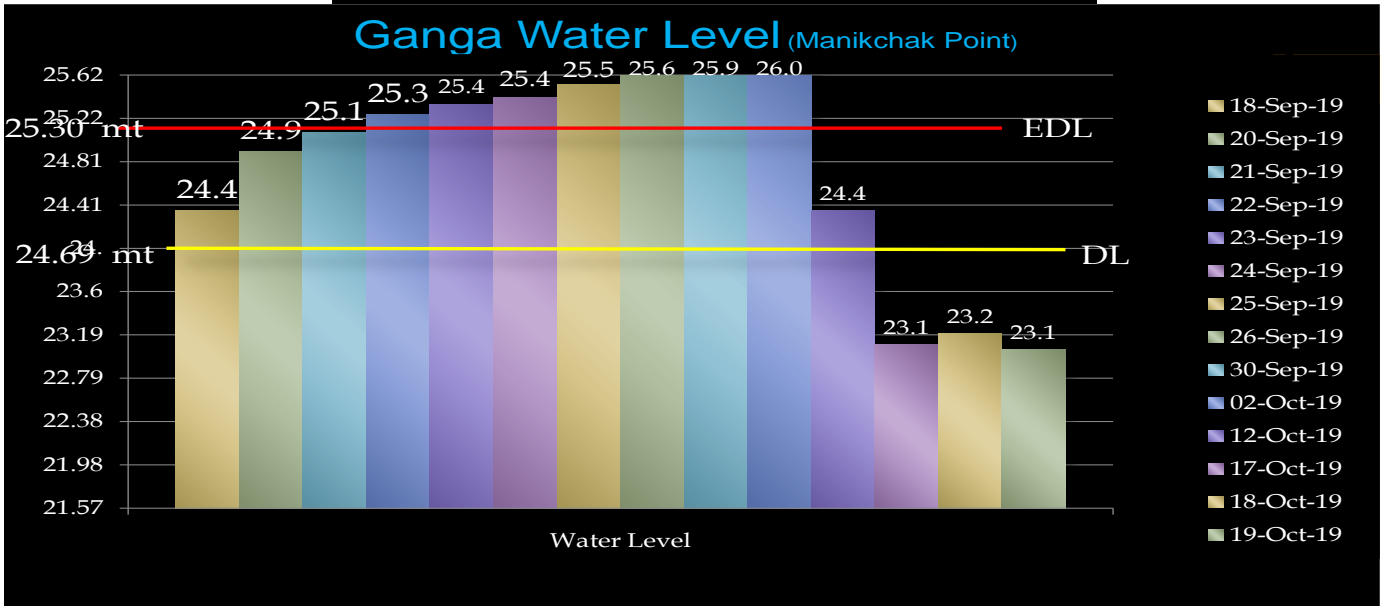

The rivers those traverse this district from north, north-west and north-east to the south are Ganga, Fulahar, Mahananda, Bhagirathi, Tangon, Kalindri, Punarbhaba and Pagla. The main river Ganga with its tributaries Fulahar, Bhagirathi and Kalindri enters this district at Gaduri of Bhutni Char of Manikchak block and flow over the block Manilchak, Kaliachak-II and Kaliachak-III. Flood frequently caused due to erosion and overflow of excessive rainfall of catchment areas.

River	Entry point	Runs through the blocks	Length in district	Tributaries	End point
Ganga	Gaduri of bhutni Char of Manikchak	Manikchak, Kaliachak-II & Kaliachak-III	172 kms	Fulohar, Bhagirathi and Kalindri	Pardeonapur (Kaliachak-III)
Mahananda	Junction of Chanchal-I, Ratua-II & Gazole	Gazole, Habibpur, Oldmalda & Englishbazar	886 kms	Kalindri Pagla	Aiho (Habibpur)
Punarbhaba	North-eastern part of Bamangola	Bamangola	64.4 kms	Haria	Eastern boarder of Bamangola
Tangon	Junction of Bamangola & Gazole	Bamangola, Oldmalda, Habibpur & Gazole	64.6 kms	Chunakhali Khal	Mahananda
Kalindri	Mianghat (Harishchandrapur-II)	H.C pur-II, Englishbazar, Manikchak & Ratua-I	Not available	Fulohar	Mahananda at Bachamari (Old Malda)

CLIMATE

The climate of the district is rather extremely very hot and sultry during summer season, with rains and moisture in the air throughout the year. Basically, there are four seasons in the year. The cold season start about the middle of November and continues till the end of February. The period from March to May is the summer season. The rainy season starts in June with the coming of South-West monsoons and continues till the middle of September. October and the first half of November constitutes the post monsoons season. The normal rainfall is 1485 mm. The maximum precipitation occurs during the period from June to September. The maximum rainfall recorded during the year 2019-20 was 1402 mm.

Some Do's & Don't during Natural Calamity

Do's	Don'ts
Cyclone	
Check the house, secure loose titles, carry out repair works for doors and windows	Do not ignore warnings and to for sight-seeing near the sea.
Remove dead wood or dying trees that are lying close to the house, anchor removable objects like lumber piles, loose tin sheds, loose bricks, arbage cans, sign-boards etc which can fly in strong winds.	Do not allow children to play or near accumulated waters.
Demolish condemned buildings	Do not drive into water of unknown depth and current.
Keep some extra batteries for transistors	Do not eat food, which is affected by accumulated water.
Keep some dry non-perishable food always ready for emergency use.	Do not try to walk or drive through accumulated water.
Stay indoors and take shelter in the strongest part of your house.	Do not walk across bridges as they may collapse.
Listen to the radio and follow instructions	Never swim through fast flowing water.
Find some kind of shelter if you are caught in the open.	Do not walk through flowing waters-currents can be deceptive and shallow, fast moving water can knock you off your feet.
Disconnect all electrical mains and appliances and turn off gas.	Do not swim through fast flowing waters you may get sept away or struck by an object in the water.
Store or secure loose boards, corrugated iron,rubbish tins or anythis else that could become dangerous.	Do not reconnect your power supply until a qualified engineer has checked it.
Tape up large windows to prevent from shattering.	Do not smoke or use candies, lanterns or open flames
Believe in the official information and ignore rumours	Do not worry about your property too much. It is your life that is more important.
When a cyclone alert is on for your area, continue normal working but listen to the radio warnings	Do not return until advised after evacuation.
Stay alert Remember that a cyclone When your area is under cyclone warning get away from low lying beaches or other low lying area close to the coast.	Do not dry out building with mechanical dehumidifiers, as this may absorb all moisture quickly and cause additional damage.
Leave early before your way to high ground or shelter gets flooded.	Do not scrub or brush mud and other deposit from materials. This may cause further damage.
If your house is securely built on high round take shelter in the safer part of the house.	Do not let water-damaed papers alert means that the danger is within 24 hours.
Board up glass windows or put storm shutters in place.	Do not open any books or albums that were completely submerged. (Wet paper is very weak and will tear).
Provide strong suitable support for outside doors	Do not keep objects in dark hot stagnant air with high humidity, as these conditions encourage mold.
If you don not have wooden boards handy, paste paper strips on glasses to prevent splinters.	Do not try to separate buyndles of saturated paper.

Drought

Do's	Don't
Carry out early warning and drought monitoring on the basis of long, Medium and short term forecast.	Do not work in extreme heat anywhere
Arrange reasonable buffer-stock of food grain and fodder.	Do not waste water anywhere.
Ensure supply of good drinking water in rural area for human and livestock in drought affected areas.	Do not leave children or cattle alone outdoors
Assess fodder requirement in drought affected areas and locate pockets where shortages are likely to occur and arrange supplies from outside.	Do not depend on only agriculture based occupations.
Encourage fodder cultivation, wherever feasible.	Do not encourage deforestation and cutting of trees.
Rejuvenate traditional rainwater systems viz River, Nadis, Tankas, Khadins etc.	Do not follow single cropping pattern
Encourage rainwater harvesting for both the drinking and cropping	Do not grow water-intensive crops like paddy, sugar, etc which consume a lot of water.
Strengthen watershed management and irrigation system.	Do not delay in providing agricultural input support like seeds and fertilizers to the farmers.
Promote cultivation of potatoes, groundnut, oilseeds and maize.	Do not forget to involve community and self help groups in drought management.
Ensure management of human and livestock population to reduce pressure on fragile arid ecosystem.	Do not take up new initiatives for execution without the approval of the appropriate authority.
Encourage social forestry/joint Forest Management.	Do not discriminate in providing relief to the affected people.
Ensure timely availability of credit, postponement of revenue collection and repayment of short-term agriculture loan.	Do not allow inclusion of the names of ineligible persons in the list for gratuitous assistance.
Give boost to appropriate land-use planning (inter-cropping system)	Do not procure fodder on any other price than fixed by the State Government.
Consume food as per your basic requirement	Do not allow more than 500 cattle in each cattle camp.

Earthquake

Do's	Don't
Repair deep plaster cracks in ceilings and foundations	Do not rent apartments in high rise multistoried buildings, without any earthquake proof.
Get expert advice if there are signs of structural defects.	Do not rent houses adjacent to weakly constructed vulnerable old houses or any other weak structure, which can fail on your house during earthquake.
Anchor overhead lighting fixtures to the ceiling	Do not rush to the doors or exits.
Consult structural engineers for earthquake safety before constructing buying or renting a house	Do not use the elevators
Follow Bureau of Indian Standards (BIS) codes relevant to your area for building standards	Do not go close to broken windows, mirrors, chimneys and furniture.
Fasten shelves securely to walls.	Avoid places where there are loose electric wires and do not touch any metal object in contact with them.
Place large or heavy objects on lower shelves	Do not re-enter badly damaged buildings and don't go near damaged structures.
Store breakable items such as bottled foods, glass and bone china in low, closed cabinets with latches.	Be aware that some earthquakes are actually foreshocks and a large earthquake might occur. Do not move to unsafe places.
Brace overhead light and fan fixtures	Do not come near the building, trees, streetlights and utility wires.
Repair defective electrical wiring and leaky gas connections. These are potential fire risks. Secure a water heater, LPG cylinder etc by strapping it to the wall studs and bolting it to the floor.	Do not enter the building until the shaking stops. The greatest danger exists directly outside buildings at exits and alongside walls. Most earthquake-related casualties result from collapsing walls, flying glass and falling objects.
Store weed killers, pesticides and flammable products securely in closed cabinets with latches and on bottom shelves.	Do not use roads, bridges, or ramps that might have been damaged by the earthquake.

Identify safe places indoors and outdoors	Do not light a match move about or kick up dust open your mouth.
-------------------------------------------	------------------------------------------------------------------

Fire (Building : Offices and residences)

Do's	Don't
Install smoke alarms	Do not loose calm
Place smoke alarms on every level in the building	Do not paint over smoke/heat detectors.
Test and clean smoke alarms once a month and replace batteries at least once a year	Do not let trash,such as old newspapers and magazines etc accumulate.
Replace smoke alarms onec every 10 years	Do not smoke near flammable liquids
Review escapes routes with your family	Do not smoke in bed or when drowsy or medicated.
Make sure windows are not nailed or permanently shut.	Do not overload extension cords or outiets, if you need to plug in two or three applicaces.
Consider escape ladders if your building has more than ove level and ensure that burglar bars and othr antitheft mechanisms that block outside window entry are easily opened from the inside.	Do not leave electrical appliance or equiprment continued to be energized when they are not in use,especially after office/working hours.
Clean out storage areas. Never use gasoline benzene,naphtha or similar flammable liquids indoors	Do not put liquid or thig that is flammable or combustibile near an electrical switchboard or an enclosure containing electrical components.
Sote flammable liquids in approved containers in well-ventilated storage areas.	Do not touch bare electrical wiring.
Be careful when using alternative heating sources	Do not enter a damaged building, if you detect heat or smoke.
Place heaters at least three feet away from flammable matrials. Make sure the floor and nearby walls are properly insulated.	Do not try to open a safe or strong box as it could hold intense heat for several hours.
Keep matches and lighters up high away from children and if possible in a licked cabinet.	Do not use cardboard boxes wooden crates or othr receptacles that are made of combustibile material as makeshift rubbish bins at your place.
Have the electrical wiring in your building checked by an electrician.	Do not accumulate unwanted items at your place.
Inspect extension cords for frayed or exposed wires or loose plugs.	Do not use corridors walkways or passageways that from part of the emergency escape route at your place.
Make sure outlets have cover plates and no exposed wiring.	Do not remove ceiling boards or use ceiling voids for storage.
Escape through a window, if door is hot, if you cannot escape, hang a white or light-colored sheet outside the window,alerting fire fighters to your presence	Do not use fragile containers to store flammable liquids.
Open the door slowly and ensure fire and/or smoke is not blocking your escape route.	Do not use or operate darty or greasy equipment/machinery.
Crawl hugging to ground to save from inhaling smoke while escaping through building on fire	Do not leave heavy machinery operating or running unattended.

Heat Wave

Do's	Don't
Drink 2 to 3 litres of water per day or sufficient water as often as possible,een if not thirsty	Do not go out in the hot sun especially between 12 noon to 3 pm.
Wear lightweight light-coloured,loose,porous natural fibre clothes	Do not undertake strenuous activities, avoid work outside during 12 noon to 3 pm
While traveling, carry water with you.	Do not consume alocoholic,caffeinated or carbonated drinks which dehydrate the body.
If you work outside keep hat and clothing damp.	Do not eat high-protein foods which increase metabolic heat.
Use umbrella, sunscreen as sub burm limits your ability to cope up with heat.	Do not leave children or pets in parked vehicles.
If you suffer chronic illness or feel ill, sea a doctor	Do not come directly in touch with sunlight.
Use ORS, home made indigenous drinks like lassi,torani (rice water), lemon sharbat (lemon water), butter milk etc which help to rehydrate the body and protect us from sunstroke.

HARISHCHANDRAPUR-I DEVELOPMENT BLOCK

HAZARD, VULNERABILITY, CAPACITY & RISK ASSESSMENT (HVCRA)

The Government of WB recognizes that disasters can either be man-made, natural or even arising out of technological causes. A robust Disaster Management policy must therefore provide, plan and prepare for all types of hazards and disasters that may be reasonably.

Vulnerable Flood prone Area	Generally the following vulnerable areas the unprotected are affected in the event the mitigation	
	Kushida GP	Bijhot, Dakhol, Hossainpur, Rajol, Owari, Rampur, Kapaichandi, Kotol. Vatol, Sekpara etc.
	Boroi GP	Simla, Nandibati, Mahespur, Boroi, Chopal, Bidhanpur, Swarupganj etc.
	Tulshihata GP	Bhabanipur, Islampur, Rampur, Chandipur, Kosturiya, Baznath pur, Bangrua etc.
	Harishchandrapur GP	Harishchandrapur, Tetulbari, Kalipukur, totally flooded by the River water.

VULNERABLE AREAS NAME OF GP EMBANKMENT, ROAD ETC.

Sl. No.	Name of GP	Name of village sansad No.
1	Kushida	Bijhot, Dakhol, Owari, Hossainpur, Nasarpur, Laxmipur, Kapaichandi
2	Boroi	Gohila, Boroi, Pathanpara, Rampur
3	Rashidabad	Saldah, Ramshimol

CONTROL ROOM AND CRISIS MANAGEMENT TEAM WITH CONTACT NO.

Government Departments must ensure adequate assistance to Department of Disaster Management, the district administration and local authorities for activities in this phase. These Departments should ensure their active co-operation in setting up communication centers, drawing up contingency plans, assisting in capacity building, developing plans, gathering data, and identifying and training appropriate personnel, under the overall supervision of WBSDMA. The Department of Civil Defense will prepare their own plan as per Rules of Business in respect of rescue operation, cluster approach to minimize response time, training and disaster preparedness (CBDP & capacity building).

Block Disaster Management Plan

Ratua –I Development Block

Chapter – 1

Introduction:

Natural Disasters continue to strike without notice and are perceived to be on the increase in their magnitude, complexity, frequency and economic impact. These hazards pose threat to people, infrastructures and economic assets and assume disastrous proportions when they occur in areas of dense human habitations.

Ratua-1 Development Block is situated at the right side of River Fulahar, Ganga. Geographical area of Ratua-1 Block is 139.5 sq K.M. consisting of 10 Gram Panchayats covering 101 mouzas, 184 Village and 167 Gram Sansad. The total population as per 2011 census is 2,75,334.

It appears from the previous record that Flood is a common phenomenon and it occurs every year specially in two unprotected Gram Panchayats namely Belaimari and Mahanandatola. In the year 2009, due to breakage of Bhaluka Bandh, in 2010 due to overflow of Fulohar River, 2011 flood and 2017 also occurred devastating flood. Out of ten Gram Panchayats, seven nos. of Gram Panchayats were completely sub marooned in the year 2011 and 2017. In the year of 2017, 29,500 families and 118000 people were affected, 8 persons were died due to snake bite, electric shock and drowning. In the year 2013 & 2016 due to overflow of Fulohar River flood occurred in two Gram Panchayats namely Belaimari and Mahanandatola. Recurringly every year this problem creates a disruption of normal life, loss of property and crops in almost 10 G.Ps.

This plan has been prepared in anticipation of mitigating and preparedness to reduce human misery in disasters like Flood, Cyclone, Water logging, Fire, Lightening, accident or house collapse etc. Action plans at Gram Sansad level and G.P level are prepared for fighting the disasters.

I hope this plan will be useful to the officials of line department and Panchayat functionaries of this Block at the time of crisis during natural calamity. It is requested to all concerned to extend their hands to helpless and distressed people at the time of crisis.

Shri Sarwar Ali, WBCS (exe.)
Block Development Officer
Ratua-I Development Block,

GENERAL INFORMATION

LAND USE (in acres)	
Net areas under Cultivation (Acres)	29312.66
Area under pasture orchard etc. (Acres)	2,722
Cultivable Waste Land (Acres)	382
Home Stead Land (Acres)	2,451
Forest Land (Acres)	Nil
Residual area (if any)	72
Area in which more than one crop is grown (Acres)	10,600
Area of Vested Land	3,879.33

DISASTER MANAGEMENT PLAN
OF
RATUA-II DEVELOPMENT BLOCK
FOR THE YEAR 2020-2021
PUKHURIA, MALDA

Introduction

Natural disasters continue to strike without notice and are perceived to be on the increase in their magnitude, complexity, frequency and economic impact. These hazards pose threat to people, Infrastructures and economic assets and assume disastrous proportions when they occur in areas of dense human habitations.

Ratua-II Block is situated at the right side of River Mahananda. Geographical area of Ratua-II Block is 173.93 Sq. Km. consisting of 8 Gram Panchayats covering 51 mouzas, 112 villages and 103 Gram Sansad. The total population as per 2011 Census is 202048.

It appears from the Previous record that in the year of 2017, due to overflow of Mahananda, Mara Mahananda, Kalindri river and heavy rain & water logging in Kalapahar Khal and Kashadara Khal, 45 mouzas under Pirganj, Maharajpur, Pukhuria, Sripur I & II, Sambalpur and Aridanga Panchayat were fully affected. Almost 13000 nos. of huts was damaged (Fully/Partly) and about 105207 people were affected, 4950 hector Aman crops 300 hectors Aush crop and 2315 hector vegetables were severally damaged of property and crops in almost 8 GPs

This plan have been prepared in anticipation of mitigating and preparedness to reduce human misery in the event disaster like flood, cyclone, water logging, fire, lightening, accident or house collapse etc. Action plans at Gram Sansad level & G.P. level are prepared for fighting the disasters.

I hope that this plan will be useful to the officials of line department and Panchayat functionaries of this Block at the time of crisis during natural calamity or any kind of disasters. It is requested to all concerned to extend their hands to helpless and distressed people at the time of cricis.

Contingency Plan : Kaliachak-II Dev Block

Introduction.

Among 15 Blocks in Malda, Kaliachak - II Development Block is one of the vulnerable Blocks in the shadow of mainly Flood and Erosion.

The Block has an area 209.17 sq.k.m. and comprises of nine Gram Panchayats. The total population of this Block is 208089 (as per 2011 Census Report). The livelihood of the majority of population depends on Agriculture, Horticulture and Cultivation of Polu.

The Block is Prone to Flood. The main rivers are the Ganges , the Pagla, the Bhagirathi. Among nine Gram Panchayats the most vulnerable Gram Panchayats are ,Bangitola , Uttar Panchanandapur - I , Uttar Panchanandapur - II , Rajnagar&Hamidpur.

The Block shows the sign of severe problems due to Erosion caused by the Ganges. As Flood , Erosion prevail, a large number of population faces tremendous hardship.

To mitigate the emergent situation because of Flood , Erosion or other Natural Calamities , like Pre - monsoon Cyclone , Drought (rarely occurred)and Accidental Fire (if any) ; DISASTER MANAGEMENT PLAN, 2020 - 2021 has been prepared on the basis of various relevant points.

Hazard , Vulnerability , Capacity & Risk Assessment (HVCRA)

Name Of The Much Vulnerable G.P. And Villages

Among 317 Villages many villages are vulnerable in the perspective of Flood, and there condition worsened when Flood rules over them. Such villages are listed below.

Sl .No.	Gram Panchayat	Name of the Villages	Remarks
1	Uttar Panchanandapur-I	a) Dalboxtola , b) Ramlaltola (Partly) , c) Loharditola , d) Purba Sultantola , e) Laskoritola , f) Paglaghat Bus Stand , g) Jinerditola , h) Nasarattola	Water - logged in the Year 2011 2013 , and 2015 2016 ,2019
2	Uttar Panchanandapur-II	a) Dhelfora , b) Jitnagar , c) Jugaltola	Water - logged in the Year 2011 ,2019

3	Bangitola	a) Jote Kostury , b) Mahadevpur , c) Bintola , d) Sadipur , e) Gosaihat , f) Chowdhurytola g) Chhatiantola , h) Sakullapur, i)Majiasaran	Water - logged in the Year 2011, 2013, 2014 2015 and 2016 ,2019
4	Hamidpur	a) Shibutola , b) Etwaritola , c) Shripur Colony , d) Piaritola (East & West) , e) Tofi , f) Mathabhanga , g) Jatintola , h) Chumkitola , i) Chethrutola , j) Khatiakhana Char , k) 8 no. Spar Bundh	Water - logged in the Year 2011 , 2013 2015 and 2016 ,2019
5	Rajnagar	a) Nayagram Model , b) Bromottar	Water - logged in the Year 2011, 2013 and 2016 ,2019

Arrangement for accommodation of the Victims of Disasters:

As a part of disaster management permanent and temporary Rescue Shelters were identified previously as there is no useable permanent Rescue Shelters available with this Block. All the Educational Institutions are used as Rescue Shelter and the School Authorities are requested for sparing the campuses.

List of Flood Shelter / Rescue Camps (G.P wise)

Sovanagar GP:

(1) Sovanagar H.S, (2) Sovanagar Model Jr. High Madrasah, (3) SovanagarMgd. Pry., (4) Pirpur New C.S Pry., (5) Mohanpur Pry., (6) Malda C.S Pry., (7) Nasirchak Pry., (8) Kauakhand Pry., (9) Uttar Chandipur Pry., (10) Nathinagar Pry., (11) BhabanipurMgd. Pry., (12) SovanagarMgd. Pry., (13) Chandipur J.B. Pry.

Milki GP:

(1) Milki High (H.S) School (2) Bhartitary H.S (3) Milki H/A Branch Pry. (4) Ananda Mohapur Pry. (5) Khaskole Pry. (6) MilkiMgd. Pry. (7) Naraharipur Pry.(8) Shyampur Colony (9) Amgachi Pry. (10) KhaskoleMgd. Pry. (11) Bhagabanpur Pry. (12) Atgama S.P Pry. (13) Milki H/A Pry. (14) Bhartitary Pry. (15) Fatepur Pry.

Amrity G.P

(1) Raigram H.S (2) MohanpurNivedita Girls' H.S (3) Amrity Pry. (4) BaniagramMgd. Pry. (5) Sekendarpur Pry. (6) RaigramMgd. Pry. (7) Manganpara Pry. (8) Gouripur Pry. (9) Madanpur Pry. (10) Vivekananda Vidyapith (11) BaroghariaMgd. Pry. (12) GokulnagarKamat (13) Vinodpur Pry. (14) Battali Pry.

Binodpur G.P

(1) Sattari H.S (2) Uttar Sattari Pry. (3) DakshinChandipur Pry. (4) Basudebpur Pry. (5) Mathurapur Pry. (6) Krishnanagar Pry. (7) Binodpur J.B.Pry. (8) Niamatpur G.S Pry. (9) BaroGosainpur Pry. CONTINGENCY PLAN OF GAZOLE DEVELOPMENT BLOCK

1 Area of the Block : 513.73 Sq km

2 No. of Mouza : 293 Nos.

3 Population as per Census 2011 :

Population	Male	Female	Others	Total
Rural	174978	168974	7	343959
Population	Male	Female	Others	Total
Rural	108663	83843	3	192509

4 Literacy rate as per Census 2011 :

5 No. of G.P. : 15

6 No. of Rescue Centre : Nil

7 Total No. of Sansad : 220

8 No. of H.S. School : 25

9 No. of High School : 8

10 No. of Jr. High School : 42

11 No. of Pry. School : 220

12 No. of High Madrasa : 2

13 No. of College : 1

14 No. of Rural Library : 7

15 No. of Rural Hospital : 2

16 No of Block Pry. Health Centre : 1

17 No of PrimaryHealth Centre : 3

18 No. of Subcentre : 60

19 No. of Telephone Exchange : 6

20 No. of Important Ferry : 1

21 No. of MSK : 7

2 No. of SSK : 61

23 No. of Post Office : 1

24 No. of Bank Branches : 15

25 Name of the Important Rivers: 1) Mahananda and 2) Tangan

1. Name of the Block: **Gazole Development Block.**

2. No. & Name of the vulnerable Gram Panchayat: 10 Nos.

a) Alal

b) Bairgachhi-I

c) Bairgachhi-II

d) Chaknagar

e) Salaidanga

f) Raniganj-I

g) Gazole-II

h) Karkach

i) Raniganj-II

j) Babupur

3. Vulnerable points on Embankment/Sluice.

a) Embankment of Mahananda near Pabnapara

b) Kuriadaha Kalinagar Band in Alalo Karkach G.P.

c) Munir Bandh near Ahora Bus Stand.

d) Masahldighi to Muriakundu Bundh

e) Hatnagar to Ahil via Nasinghdanga.

f) Ahil to narsinghdanga doba concerned with link Bundh.

g) Culvert on N.H.-34 near Adina

h) Culvert on Gazole Alal-Road near Rasikpur.

g) Culvert on N.H.-34 near Adina

j) Embankment from Bamongola Ghat to Buridaha.

k) Embankment from Gobindapur to Bachahar.

l) Embankment from Kanchamitha to Bachahar.

m) Embankment from Kamaldanga to Arajai Jalsa.

Total	269535	139563	129972

Vulnerable Points on embankment

1	The existing bundh near Domhat to Kamalpur at several points under Manikchak, Dharampur G.P.
2	The Nanditola cut points bundh from Bakducra to Rajkumar tola under Hiranandapur G.P.
3	The bundh at Kankri badhdha points under Mathurapur G.P. Sankartola to Kalitola
4	The entire Bundh cercuit embankment(ring Bundh) of several points covering all the G.Ps. of Bhutni Diara regions.
5	Laskarpur bundh at severals points.
6	The existing bundh near Kesharpur colony of HiranandaPur G.P
7	The bundh near Muniramtola & Durlavtola of Hiranandapur G.P
8	Embankment of the river Ganges near 6 No. retired bundh of Kamaltipur under Gopalpur G.P
9	Embankment near Laskarpur Village under Manikchak G.P.
10	Existing embankment - 360 mtr. North from Manikchak Ghat

Assessment of area prone to river erosion:

Sl. No.	G.P. Name	Area Name
1	Hiranandapur	kesorpur
2	Hiranandapur	Rajkumartola
3	Hiranandapur	Kalutontola
4	Hiranandapur	Godai Chor
5	Dakshin Chandipur	Narayanpur Chor

6	Mathurapur	Sankartola
7	Gopalpur	Switch gate Area

Contingency Plan of Englishbazar Municipality

HISTORICAL BACKUP

English Bazar Municipality of malda district is one of the oldest local bodies in this state. To talk of English bazaar, few words on Malda may not be exaggeration. Malda, best known either as 'Gateway of Door' or 'Land of Mango' is located at 25.00 N 88.15⁰ E. It has an average elevation of 17 metres. Mahananda, the ancient river is the silent bystander of ups & downs of different Empires. It is lying in the East of English bazaar. The weather is usually extremely humid and tropical. English Bazar Municipality came to existence nearly 148 years ago and through the passage of time, the municipality has arrived to its present state.

BASIC INFORMATION

English Bazar municipality Malda is Flanked by Bangladesh and South dinajpur at the East, Santhal paraganas of Jharkhand State in the West, Uttar Dinajpur in the North and Murshidabad in the South. Geographically this district town is situated between the latitude 25⁰22'-8' N. longitude 88⁰20'-19E respectively. National Highway (NH-34) proceeds through this district town and rendered it more important and made it approachable from all the parts of the state and the country as a whole.

The town is administratively divided into 29 Wards. The area is 13.25 Sq.m at present. The population density is 16,308.15 per Sq.m in 2011. As per 2011 Census, English Bazar Municipality had a population of 216,083 and the urban agglomeration had a population of 324,237. The Municipality has a sex ratio of 877 females per 1000 males and 14.9% of the population is under six years old. Effective literacy was 84.69: male literacy was 85.44% and females literacy was 83.86%. Communities that inhabit Malda includes the Bengalis, Gorkha, Marwaris, Biharis, Shershahbadhia and Rajbangsis. Some local forms of Bengali, Maithili, Rajbangsi, hindi and urdu are spoken along with local dialects. Commonly spoken languages include Bengali and Hindi. Regional languagees include Pabnai , Nabagangi, kamtapuri, Shershahabadia, Santali and Khotta. Old Malda has a number of Shikh population who suffered in the 1984 anti Sikh Riots. Density Of population has become one of the major issues in English Bazar Resulting and Estimated rise in population to the tune of about 3 (Three) Lakhs at Present due to insurgence from the eroded areas of Malda.

TOPOGRAPHY

The general topography of the Town is mostly alluvial in nature and ideal for different corps and its climate condition is most conducive for Mango Cultivation. Lands here are ordinarily classified into Tal, Diara and Barind, which are very much suitable for cultivation. Due to erosion of soils by inappeasable nature of the rivers one may find several changes of its courses.

❖ **Vulnerable Wards & Embankment / Sluice**

Name of the Vulnerable Wards: 1) Ward No 1, 2) Ward No 2, 3) Ward No 8, 4) Ward No 9, 5) Ward No 12, 6) Ward No 13, 8) Ward No 20, 9) Ward No 21

Vulnerable Points on Embankments / Sluice:

- 1) Maheshpur Baganpara, Maheshpur Gaduamre Jagadishpur, Maheshpur Santalpara In Ward No 1
- 2) Firm Area, In Ward No 2
- 3) Kamarpara Ghat, Dhopapra, Baluchar Nichipara In Ward 8
- 4) North Baluchar, Old F.C.I Office Para, Northbabuchar Muchipara, Nichipara In Ward No 9
- 5) Hatath Coloney, Arabinda Coloney In Ward No 12
- 6) Babupara, Hatath Coloney, In Ward No 13
- 7) Maheshmati In Ward No 17 & 18
- 8) Vivekananda Pally In Ward No 19
- 9) Khotabari, S.M Pally, In Ward No 20
- 10) Gayeshpur, In Ward No 21
- 11) Mahanandapally In Ward No 22

Contingency Plan of Police, Malda

The following measures are being taken to relief / help the marooned / distressed people and to defuse any public unrest during flood or flood like situation.

Setting up of Control Rooms:

A Police Control Room with adequate strength will function round the clock at police line for co-operation with other agencies and regular collection of flood warning message and communicate the same to ICs & OCs and others for taking immediate action / overcome any eventuality.

Police Team :

A team with the strength of 1-10 with one Vehicle will be kept in readiness in each shift at (1) Mothabari PS, 2) Ratua P.S. and 3) Manikchak P.S. Apart from, all ICs and OCs of PSs have been alerted and instructed to keep close liaison with BDOs, BSF and other agencies to tackle any emergent situation.

Flood Rescue Centre /Camp :

Names of Govt. Flood Shelters (Permanent in nature):-

- 1) Harischandrapur Block-II Office Compound under Harischandrapur PS
- 2) Mahanandatola village, Ratua Block-I under Ratua PS
- 3) Kankribandh under Mathurapur G.P. under Manikchak PS
- 4) Dakshin Chandipur G.P. under Manikchak PS
- 5) Kaliachak Block-III office Compound under Baishnabnagar PS
- 6) Kumbhira under Baishnabnagar PS
- 7) Rajnagar under Mothabari PS

ICs and OCs have been directed to draw up list of flood rescue centre/ camp, distribution centre in consultation with local BDOs for taking measures to avoid any untoward incident and smooth supply of relief materials.

Mode of Journey:

ICs and OCs are instructed to collect the names of owners of country boats, mechanized boats which are available at BDO office and GP office. They will also contact with Truck & Mini truck owners Association for early transportation of relief material to the flood affected people.

Identification of Helipad Ground and Co-ordination with Air Force:

The BDOs in consultation with the ICs & OCs of PSs will draw up a list of probable helipads. While selecting such helipads, condition of road and other relevant issues are required to be kept in consideration after necessary inspection by the Air Force Officials for finalizing such list. The following places may be earmarked for preparation of helipads and Air dropping points.

a) Helipad

Sl.No.	Name of Helipads	Police Station
1	Police Lines Ground, Malda	Englishbazar
2	Malda College Ground,	
3	Malda Air Strip, Malda	
4	Harischandrapur High School Ground	Harischandrapur

Disaster Management Plan, 2020-21

Health & Family Welfare Samity, Malda District

Floods as a natural disaster have a high potential of precipitating the incidences of mass casualties. There is the risk of drowning and physical trauma along with the threat of diseases associated with contamination of water and the creation of mosquito breeding sites. Direct health effects of a flood may include: drowning; injuries like cuts, sprains, fractures, electric shocks; diarrhoea, vector-and rodent-borne diseases like malaria; skin and eye infections; and psychological stress.

The indirect health consequences of floods are usually due to damage caused to health care infrastructure and loss of essential drugs, damage to water and sanitation infrastructure, damage to crops and disruption of food supplies, destruction of property causing lack of shelter that may lead to increased exposure to disease-vectors.

Malda district is the gateway of North Bengal. The district waves by the rivers of The Ganges, Mahananda, Fulhar, Kalindri, Behula etc. and the banks of the riverside areas are flood-prone. After 1998, there was no history of heavy flood in the district. Flood occurred during 2019 in four (4) blocks (Ratua-I, Manikchak, Kaliachak-III & English Bazar) of Malda District. About 4 lakh peoples affected due to Flood various rivers. Since last 5 years, the following blocks including the health facilities were affected due to heavy rains and water logged as below:

Areas and health facilities affected during flood

Sl. No	Name of the Block	No of GP/Muni. affected	Total Popn.	SC area affected	Villages affected	Affected Popn.
1	Harishchandrapur-I	7	58,643	20	35	40,000
2	Harishchandrapur-II	9	182,490	32	69	110,000
3	Chanchal-I	5	67,000	11	21	20,000
4	Chanchal-II	5	66,983	17	32	40,000

14	Kaliachak-II	4	24,795	5	7	10,000
15	Kaliachak-III	7	48,748	20	26	37,000
Malda		87	951,906	221	464	497,000

1. A district level extended Rapid Response Team (RRT) represented with the following personnel: Dr. Bijoy Prasad Mukhopadhyay , Chief Medical Officer of Health (CMOH) as Chairman and Dr. Amitabha Mandal, Dy. CMOH-II as member Convenor. The other members are:

Members:

- ❖ Dr. Mrigankamouli Kar, Dy. CMOH-I, Malda.
- ❖ Dr. M. K. Ghosh, Dy. CMOH-III , Malda.
- ❖ Dr. Amit Dan, MSVP, MMCH, Malda
- ❖ Dr. Tapas Ghosh, Dy. Superintendent, MMCH, Malda.
- ❖ Dr. N.C. Das, ACMOH (Sadar),Malda.
- ❖ Dr. Somnath Bhattacharyya, ACMOH (Chanchal),Malda.
- ❖ Sri Pramit Bhagat, Epidemiologist (IDSP), Malda.
- ❖ Md. Kabiul Akhter Ali, VBD Consultant, Malda.
- ❖ Mr. Sagnik Chakroborty, Dist. Entomologist, Malda.
- ❖ Md. Badruddoja, Dist. Entomologist, Malda.
- ❖ Md. Mamun Hoque, Data Manager, IDSP, Malda
- ❖ Sri Pallab Kr. Biswas, HA (M), CMOH Office , PH Wing, Malda
- ❖ Sri Dipankar Chaki , HA (M), Dy. CMOH-II, Malda
- ❖ Sri Debapriya Laha, DEO, NPCB, CMOH Office , PH Wing, Malda
- ❖ Sri Jyotirmoy Dev, JE Tech. Asst., CMOH Office , PH Wing, Malda.
- ❖ Sri Adhir Mandal, Peon, CMOH Office , PH Wing, Malda
- ❖ Sri Samir Kumar Das, Peon, CMOH Office , PH Wing, Malda
- ❖ Smt. Bristi Mahinta, Head Clerk, CMOH Office , PH Wing, Malda
- ❖ Smt. Benojir Anowar, Fluorosis Consultant, Malda
- ❖ Smt. Sudipta Chakrabarty, DEO, NVBDCP, Malda
- ❖ Smt. Kathakali Dey, Lab Technician (Fluorosis), Malda

2. A round the clock Control Room will be in operation as and when required in the Office of the Public Health (PH) Wing, CMOH Office, Malda. (Telephone: 03512-223651)

Activity	Name of Nodal Officer	Mobile No	Alternate responsible officer (in absence of Nodal Officer)	Mobile No

15	Ratua-II	Dr. Deb Kumar Mandal 8013535099	Sunita Bhakta	9474928499

4. The staffs will follow the SOPs during emergency. It will follow the search, rescue, first aid and treatment guidelines. All injured/affected persons (patients) will be identified and they will be managed according to the available resources. The patients will be classified according to the severity of the case and TRIAGE method will be followed in the sites. The staffs will try to identify the deceased and assist the others in the removal, shifting.
5. All district level officers such as Dy. CMOH-I, II & III, ZLO, DTO, ACMOHs of the sub divisions will supervise the respective blocks.
6. The health department will stored sufficient quantities of drugs, equipments and vaccines for utilize during the calamity. Indent will be placed to the Dy. CMOH-I for necessary action.
7. The BMOHs advised to discuss with the block level administration and the PRI to finalise the alternative place to run the health facilities.
8. The district administration is requested to advice the block administration to keep a close liaison with the health department officials in the block level.

Adverse effects of Flood

Adverse effects of floods on health can be prevented by medical preparedness and prompt response through strong communications. Medical preparedness for floods constitutes the following components:

Generate Awareness

The District Health & Family Welfare Samiti will take proactive steps to create awareness to the type of illnesses and other breath problems that can result in the aftermath of floods, to all the medical teams and the community at large. Hygiene and sanitation practices such as hand washing with soap and use of the toilet for defecation, use of boiled water or adding chlorine to water and safe food cooking by disease-free persons will be promoted.

Trained Medical and Rapid Response Teams (RRT)

The District Health & Family Welfare Samiti will ensure the creation of trained Medical and Rapid Response Teams for First Aid and resuscitation measures for drowning cases. Medical staff knows how to take out water from the respiratory tract and how to carry out cardio-pulmonary resuscitation.

Stock of sufficient medicine and logistics

Medical kits will be prepared for the management of flood casualties. Intravenous (IV) fluid (NS and RL), ventilators, oxygen, dressing materials, tetanus toxoid (TT), antibiotics, vaccines, anti-snake venom (AVS) and anti-diarrhoeal drugs will be the most commonly required medical resources. Sufficient medicine stored at District Reserved Stores (DRS) and blocks.

Patient Evacuation Plan

The District Health & Family Welfare Samiti will make available emergency medical equipment and drugs for resuscitation. Paramedical staff trained for resuscitation, triage and to maintain vital parameters like pulse, blood pressure (BP), respiration and intravenous (IV) drip during evacuation. Ambulances need to be deployed to aid in the evacuation of flood casualties collected at high points and it maintained Standard Operating Procedures (SOPs) for treatment.

Management and control of the adverse consequences of floods require coordinated and effective response systems at all levels- district, block, local and community. Many of the components of response initiatives will remain the same for other types of disasters. These systems need to be developed considering the multi-hazard scenario of the region to optimally utilise available resources.

Liaison will maintain with District administration to take up appropriate actions and co-ordinate with the concerned line departments accordingly. The District Health & Family Welfare Samiti has taken the following activities:

**CONTINGENCY PLAN OF
THE DISTRICT INSPECTOR OF SCHOOLS (PRIMARY EDUCATION), MALDA**

1. Awareness of the students is increasing to keep safe distance from the site of cooking of MDM to avoid any hazards from fire.
2. Students are sensitized regarding the use of alternate exit for sudden disaster.
3. It has been continuing to open the rooms of schools for the distressed people during flood.
4. Students are forbidden to touch the electric wire if it is hanging in the school building and other places.
5. Awareness regarding road safety has been discussed with the students, regarding this matter guideline has also provide to all schools.
6. Occasionally students are participating in "Safe Drive Dage Life Programme.
7. Awareness of students for not to stay under the open the sky during heavy lightening/thunderstorm.
8. Students are advised not to make any journey for picnic/educational tour during foggy night to avoid any accident/disaster.
9. For the safety & security of the students, condition of school building has been reviewing time to time.

Flood Contingent Plan for the Year 2020-21 for Sericulture Sector.

Sericulture is a major occupation in rural areas in Malda district which is mostly confined in Kaliachak-I, Kaliachak-II, Kaliachak-III, Chanchal(I ,II), Harishchandrapur(I,II), Manikchak, English Bazar, Gazole & Part of Ratua Block. Sericulture, mainly Mulberry cultivation being practised on high lands. Sericulture concentrated areas of this district are surrounded by River Ganga, Mahananda, Fulohar, Kalindri etc. Keeping apart the year 2016-17 , Sericulture has not been seriously affected by flood during past few years. However considering the unprecedented situation a preparatory plan has been prepared .

Flood Prone Areas under Sericulture:

Sl. No.	Name of Sericulture Technical Service Centres (TSCs)	Areas covering
1	Kaliachak-I, Sujapur,Jalalpur	Kaliachak ,Domaichak,Baishabnagar sujapur,Jalalpur
2	Kaliachak II	Mothabari
3	English Bazar	Piasbari, Amrity
4	Manikchak	Manikchak
5	Ratua	Samsi
6	Chanchal	Chanchal I, II
7	Harischandrapur	Harischandrapur I,II
8	Gazole	Gazole,Alal etc

Probable effect of Flood:-

Due to flood or water stagnation for a long period due to continuous rain Sericulture mainly affected by:-

- i) Damage to Mulberry Plantation partially or completely which is perennial in nature, if the plantation inundated for more than 8-10 days.
- ii) Complete Crop Loss if affected during rearing period particularly during Bhaduri Crop.
- v) Damaged caused to Rearing house.
- vi) Loss of Rearing implements like, Bamboo Made Rearing Tray(Dalla), Bamboo Made Spinning Tray(Chandrakies), Rearing Stands, Rearing Racks, Rearing Net(Cotton & Nylon made) etc.

Plan of assistance to the flood affected areas:-

In case of Sericulture there is limited scope for preparatory measures before flood or during flood period. After flood i.e., after receding of flood water from the affected areas following measures may be taken :

1. For recovery of damaged mulberry plantation, planting materials required to be supplied which is available in our Govt. Farms. Around 1800 Qntl. of Mulberry cuttings will be available in our Govt. farms which can cover 150 Acres of plantations. Financial assistance may also be provided dovetailing with existing Departmental Schemes.
2. In case of crop loss during Bhaduri crop, special thrust would be imposed towards having a good harvest from next crop i.e., from Agrahayani crop . Farmers remain highly eager for Agrahayani Crop.

Contd. To pg-2

(P/2)

3. Disinfection of affected Rearing Houses/ implements by chlorinated disinfectants under mass disinfection programme of the department at nominal charge by Self help Groups, presently 30 such SHG engaged for the purpose.
4. Required Disease Free layings (DFLs) may be supplied from the Govt. Grainages at subsidized rates.
5. In case of complete damage of Rearing house, assistance for construction of new Rearing house under departmental **ISDSI Scheme (Integrates Scheme for the Development of Silk Industry)** can be provided through respective Panchayet Samity.
6. For procurement of rearing implements 75% assistance will also be provided to affected farmers under departmental **SSDP Scheme (Sustainable Sericulture Development Project)** through recommendation of Panchayet Samity.

Deputy Director of Textiles (Sericulture)
MALDA

District Contingency Plan: 2020-21 of Department of F.P.I. & Horticulture, Malda District

Post Flood/Draught/Hail Storm Measures for Malda District

1. Distribution of Winter Vegetable Hybrid Seed Minikit:
Composition of Minikit:

(a) F1 Vegetables Hybrid Seeds of Tomato Brinjal and Chilli

(b) Quantity: Tomato 10gm Brinjal 10gm Chilli 10gm

Cost per Minikit : Rs.1000/-per kit farmer for 5000 Nos. of farmers i.e.

Total Rs.50,00,000/- (Rupees Fifty lakh)only

2. **Distribution of Fruit plants minikit**: Composition of Minikit:

(a) Planting Materials of Mango, Guava & Lime

(b) Quantity: Mango: 10 nos. Guava: 10 nos. Lime:
10 nos.

Cost per Minikit: Rs.1000/-per kit /farmer for 5,000 Nos of farmers i.e

Total Rs. 50,00,000/- (Rupees fifty lakh) only.

3. **Distribution of plants Nutrients as Minikits for Horticultural crops:**
Composition of Minikit:

(a) Trichoderma viridie, Azotobacter, PSB, N:P:K 19:19:19 & Micro
nutrient

(b) Quantity: Trichoderma: 250 gm Neem oil 10000PPM: 100 ml,
Azotobcto: 500 ml, PSB:500 ml,N:P:K 19:19:193

Kg, Micro nutrient 500 ml,

Cost per Minikit: Rs.1000/-per kit /farmer for 5,000 nos. of farmer i.e

Total Rs.50,00,000/- (Rupees fifty lakh) only.

Therefore for District contingent plan of Disaster management / Crop loss due to natural calamity for the year 2020-21 total fund requirement may be **Rs 1,50,00,000/- (Rupees one crore fifty lakh) only.**

**Office of the Executive Engineer (A-M)
Malda (Agri-Mech) Division
Madhabnagar, Malda**

Disaster Management Plan under Malda-I (A-M) Sub-Division, Madhabnagar, Malda

There are 73 nos. of Govt. owned Major River Lift Irrigation Schemes under Malda-I (A-M) Sub-Division among which 41 nos. are Electric Motor-Pump Set operated and 32 nos. are Diesel Engine-Pump Set operated. During heavy rain, water logging condition occurs at different places under Malda District. In this situation, Diesel Engine operated Pump Sets are supplied from Malda-I (A-M) Sub-Division, Madhabnagar, Malda (Water Resources Investigation and Development Department, Government of West Bengal) to remove water from local roads and surroundings. In earlier days, this process was maintained to manage disaster on behalf of Water Resources Investigation and Development Department, Government of West Bengal. Still now it is maintained by storing extra Diesel Engines and Pump Sets under the Sub-Divisional store of Malda-I (A-M) Sub-Division, Madhabnagar, Malda. Flexible Roll Pipes, Combined Tail Pieces, Hose Clamps, Foot Valves and Wire Ropes etc. are also available at Sub-Divisional store of Malda-I (A-M) Sub-Division, Madhabnagar, Malda which are also necessary at water logging condition. This is the Disaster Management Plan under Malda-I (A-M) Sub-Division, Madhabnagar, Malda. List of materials is mentioned below.

LIST OF MATERIALS (Contact Mob. No.-9433351028)

Sl. No.	Details of Material	Quantity	Remarks
1	Diesel Engine with Pump Set	7 Nos.	
2	Flexible Roll Pipes	10 Roll	
3	Combined Tail Piece	12 Nos.	
4	Hose Clamp	20 Nos.	
5	Foot Valve (Complete Set)	3 Nos.	
6	Wire Rope	3 Roll	

Disaster Management Plan under Malda-II (A-M) Sub-Division, Madhabnagar, Malda

There are 17 nos. of Govt. owned Major River Lift Irrigation Schemes under Malda-II (A-M) Sub-Division among which 6 nos. are Electric Motor-Pump Set operated and 11 nos. are Diesel Engine-Pump Set operated. During heavy rain, water logging condition occurs at different places under Malda District. In this situation, Diesel Engine operated Pump Sets are supplied from Malda-II (A-M) Sub-Division, Madhabnagar, Malda (Water Resources Investigation and Development Department, Government of West Bengal) to remove water from local roads and surroundings. In earlier days, this process was maintained to manage disaster on behalf of Water Resources Investigation and Development Department, Government of West Bengal. Still now it is maintained by storing extra Diesel Engines and Pump Sets under the Sub-Divisional store of Malda-II (A-M) Sub-Division, Madhabnagar, Malda. Flexible Roll Pipes, Combined Tail Pieces, Hose Clamps, Foot Valves and Wire Ropes etc. are also available at Sub-Divisional store of Malda-II (A-M) Sub-Division, Madhabnagar, Malda which are also necessary at water logging condition. This is the Disaster Management Plan under Malda-II (A-M) Sub-Division, Madhabnagar, Malda. List of materials is mentioned below.

LIST OF MATERIALS (Contact Mob. No.-8170070998)

Sl. No.	Details of Material	Quantity	Remarks
1	Diesel Engine with Pump Set	2 Nos.	
2	Flexible Roll Pipes	10 Roll	
3	Combined Tail Piece	10 Nos.	
4	Hose Clamp	30 Nos.	
5	Foot Valve (Complete Set)	2 Nos.	
6	Wire Rope	2 Roll	

CONTINGENCY PLAN OF MAHANANDA EMBANKMENT DIVISION, MALDA

FLOOD PREPAREDNESS

Pre-monsoon and pre flood plan :- First necessary effort has been extended to identify the vulnerable spot on the embankment of bank of river like Fulahar and Mahananda and some of them have already been protected by taking early initiative. All the staff including site staff under their jurisdiction is strictly instructed to close vigil the vulnerable site for quick reporting to all concern during any crisis occurred.

On set of monsoon a centralised district flood cell controlled by Malda Irrigation Division. Irrigating and waterways directorate is opened and functioning round the clock by collection rainfall date from India metrological department and river gauge data from different river. All the gauges in the river and sluices are maintained. The different levels like “EDL”, DL” in respect of protected site or different rivers gauge observation are every day informed over phone to the flood cell. As soon as water level reaches DL and EDL Yellow and Red signals are to be imposed and District administration is informed accordingly for taking necessary measures for their end.

In case of major damage/flooding due sudden high discharge of incessant rainfall it will be reported to all concern without any delay and required restoration/strengthening emergency measures during flood will be taken up with consent form competent authority.

The contact details are given below :-

Sl. No	Name with Designation	Address	Contact No
01	Badiruddin Sheikh Executive Engineer	Mahananda Embankment Division, Green Park, Malda	8617665150
02	Aparna Bhakat, Sub-Divisional Officer	Mahananda Embankment Sub-Division No-I, Bhaluka, Malda	9474635611
03	Biswajit Barman, Sub-Divisional Officer	Mahananda Embankment Sub-Division-II, HCpur, Malda	8016012303
04	Debapriya Chakraborty, Sub-Divisional Officer	Mahananda Embankment, Sub-Division No-III, Greenpark, Malda	7001922598

Materials ready for flood fighting at beginning

1. Nylon Crates - 1036
2. Empty polythene bag -28000
3. Fine sand -792.00 cm

List of work will be taken/ongoing work on the vulnerable places before monsoon 2019-20

Sl. No	Name of Work	Estimated cost (lakh)	Remarks
1	Raising and strengthening of Lykol Embankment from Ch. 0.10 Km to Ch 1.20 Km and Ch. 1.60 Km to Ch 4.00 Km for a length of 3.50 km including improvement of inspection path from cjh.0.10 Km to Ch. 1.20 Km and Ch.1.60 km to Ch. 5.30 km in Block Ratua-II, PS Pukhuria, Dist Malda.	153.26	Ongoing
2	Special repair to the 3-vent Rangapur sluice over Mangaldanra channel in Block Harischandrapur-I and 8-vent Bhogadanra sluice over Mahananda Embankment, 2 vent Chator sluice over Mahananda Embankment, 2 vent bokadanra sluice over Sambalpur Circuit Embankment and 4-vent hume pipe culvert over kashdanra canal near Ch, 8 of sambalpur Circuit Embankment in block Ratua-II, PS-Pukhuria & Harischandrapur, District, Malda	106.98	Ongoing
3	Reconstruction of 3 vented sluice structure at Ch. 1.50 Km of lykol embankment in village-Balurghat, Block ratua-II, PS-Pukuria, District Malda	178.42	Under tender
4	Restoration work on country side slope of left Fulahar Embankment including its ancillary work in between Ch. 21.50 Km to 22.50 Km for a total length of 600.00Mts. and in between Ch. 24.00 Km to Ch. 25.00 km for a length of 100.00 Mtr in Block harischandrapur-II, PS-Harischandrapur, Dist-Malda	178.42	Under tender process
5	Restoration of Left Fulahar Embankment near Ch. 32.00 for a length of 300 Mts at Sujapurm near Ch. 30.60 Km for a length of 400 Mtr at debipr in block Ratua-I PS-Ratua and from Ch. 19.40 Km to Ch. 10.55 Km from Ch. 22.40 Km to 23.00 Km including restoration of 2 Nos, bed just up stream of Gobra Hat ferry Ghat and raising strengthening of damaged bundh near Khopakati Primary School in Block, Harischandrapur-II, PS-Harischandrapur, Dist-Malda	191.45	Under tender process
6	Reclamation of berm for a length of 300 m in connection with the restoration of breached embankment on the left bank of rier fulahar (Phase-I) in Vill-Surjapur, Block Ratua-I, PS-Ratua, Malda	240.55	On going

7	Bank protection work to the left bank of river Fulahar for a length of 200 m in between Ch. 14.945 Km to 15.175 Km including strengthening nose of earthen spur no 4 & length of 50.00 m from Ch 15.850 km to 15.900 Km under mouza, Doulatnagar in Block Harischandrapur-II, PS Harischandrapur, Malda	320.48	Under tender process
8	Bank protection work on the right bank of river mahananda for a length of 150.00 mtr at Ellahabad 450.00 mtr at rajapur and 300.00 mtr at Msaharajpur in Block-Ratua-II, PS-Pukhuria and for a length of 750.00 mtr at Islampur in Block Chanchal-I, PS-Chanchal, Dist Malda	472.19	Under tender process

DISASTER MANAGEMENT PLAN OF
DISTRICT CONTROLLER, FOOD & SUPPLIES, MALDA
(FOR THE YEAR 2020-2021)

Action Plan :-

1. Each Godown used for storage of procured rice shall have a rolling reserve of 100 MT rice.
2. Each Rice Mill will maintain a rolling reserve of 100 MT Rice.
3. Every MR Distributor shall keep a rolling reserve stock of 50 MT of Rice.
4. Every SK Oil Agent shall maintain a rolling reserve of 5 (five) KL of SK Oil.
5. Each SK Oil Dealer shall maintain a rolling reserve of 200 litres of SK Oil.
6. Sufficient stock of PDS commodities shall be kept in the fair Price shops to meet any eventuality.
7. Every fuel refilling station shall maintain a rolling reserve of MS/H5D equivalent to their two week's sales volume.
8. Every LPG dealer shall maintain a rolling reserve of LPG equivalent to their one week's sales volume which will be issued to affected people, if necessary.

CONTINGENCY PLAN WBSEDCL (SOUTH MALDA)

Preface

South Malda Division under Malda Region, WBSEDCL playing important role in power distribution in the entire area of southern part of Malda District. Power supply in the entire area is being done through 14 nos. 33/11 KV Sub-Station namely Englishbazar s/s, Kalindi Power Station, Rabindrabhavan s/s, Narayanpur s/s, Muchia s/s, Habibpur s/s, Mothabari s/s, Sujapur s/s, Kaliachak s/s, Baishnabnagar s/s, Manikchak s/s, Mobarakpur s/s, Balia s/s & Golapganj s/s. The Sub-Stations feed power to a widespread area of Englishbazar Block, Old Malda Block, Habibpur Block, all three blocks of Kaliachak and Manikchak block. The Sub-stations receives power at 33 KV level from the 132/33 KV Ghorapir Sub- Station and Khejuria 132/33 KV Sub-station & Gazole 220/132 KV Sub-Station of WBSETCL. Presently it evacuates around 160 Mega Watt of power at peak hours. It is connected to Khejuria 132 KV sub-station by 4 nos. 33 kV circuits, Ghorapir 132/33 KV sub-station by 10 nos. 33 KV circuit & Gazole GSS by 2 nos 33 kV circuits. Total 85 nos. 11 KV feeder evacuating power from those sub-stations. Keeping in view of the importance of the substation any kind of the Disaster within the premises of 33/11 KV substation as well as outside of sub-stations needs to be dealt with effectively and efficiently to ensure smooth flow of electricity in above mentioned 7 blocks.

Executive Summary

This report is a Disaster Management Plan for different 33/11 KV substations. The report has dealt with the aim and objective of the Disaster Management plan in the first chapter. It has been followed by detailed floor wise and building wise risk analysis and the resources both in-house and outside the premises which are available at our end to meet any type of emergent situation. The report also analyzed the worst case scenario in case of any Disaster, the response of the employees present at that moment and the roles and responsibilities of the stakeholders. Emphasizing the need of conducting mock exercises the present status of the mock drills and the future plans have also been analyzed.

Chapter 1 – Introduction

(A) Introduction

Disaster" means a catastrophe, mishap, calamity or grave occurrence in any area, arising from natural or manmade causes, or by accident or negligence which results in substantial loss of life or human suffering or damage to, and destruction of, property, or damage to, or degradation of, environment, and is of such a nature or magnitude as to be beyond the coping capacity of the community of the affected area. "Disaster management" means a continuous and integrated process of planning,

organizing, coordinating and implementing measures which are necessary or expedient for-

- (i) Prevention of danger or threat of any disaster;
- (ii) Mitigation or reduction of risk of any disaster or its severity or consequences;
- (iii) Capacity-building;
- (iv) Preparedness to deal with any disaster;
- (v) Prompt response to any threatening disaster situation or disaster;
- (vi) Assessing the severity or magnitude of effects of any disaster;
- (vii) Evacuation, rescue and relief;

(B) Aim

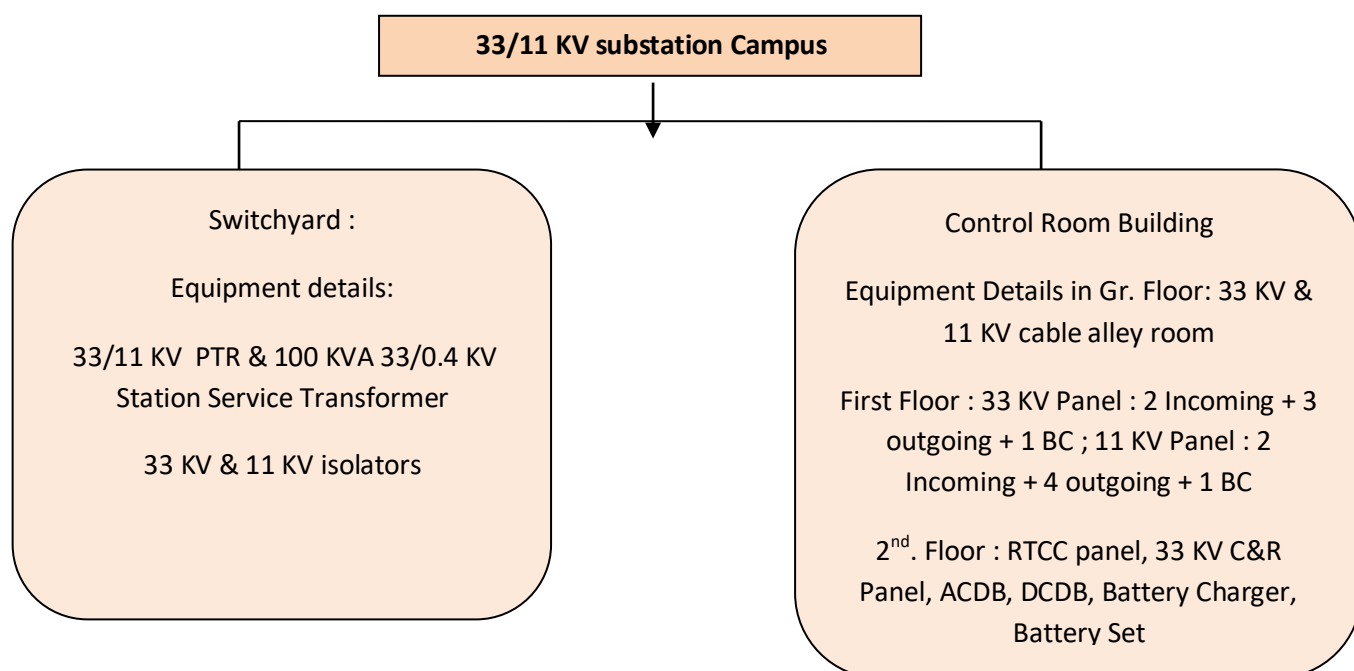

Evolving a process to manage various types of perceived natural and man made disasters.

(C) Objective

The objective of the report is to delineate the roles and responsibilities of various stake holders, clarify command, control and co-ordinate structure for managing disaster and to formulate evacuation plan without causing panic.

Chapter 2 -Hazard, Risks & Vulnerability Analysis

The 33/11 KV substation premises can be largely divided into two parts as below: -

The detailed building wise and floor wise risk analysis and the selected assembly areas are as below: -

Switchyard

SI No	Area	Installations present	Probable Hazards	Assembly Area
1	33kv Switchyard	Equipment details: 33/11 KV PTR & 100 KVA 33/0.4 KV Station Service Transformer 33 KV & 11 KV Isolators; Lightning Arrestors; Insulators	Fire; Earth Quake; Flood; Man Made Disaster	Open area between Switchyard & Main Gate

Control Room Building

1. Ground Floor

SI No	Area	Occupier of room	Materials stored	Probable Hazards	Assembly Area
1	80 sq. Mtr.	Cable Room	33 KV & 11 KV cable alley room	Fire; Earth Quake; Flood; Man Made Disaster	Open area between Switchyard & Main Gate

2. First Floor

SI No	Area	Occupier of room	Materials stored	Probable Hazards	Assembly Area
1	80 sq. Mtr.	Control Room	33 KV Panel : 2 Incoming + 3 outgoing + 1 BC		Open area between Control Room & Main Gate

			; 11 KV Panel : 2 Incoming + 4 outgoing + 1 BC, Tools; spares; Documents; Almirah; Chair ; Table	Fire; Earth Quake; Flood; Man Made Disaster	
--	--	--	-----------------------------------------------------------------------------------------------------------------------	------------------------------------------------------	--

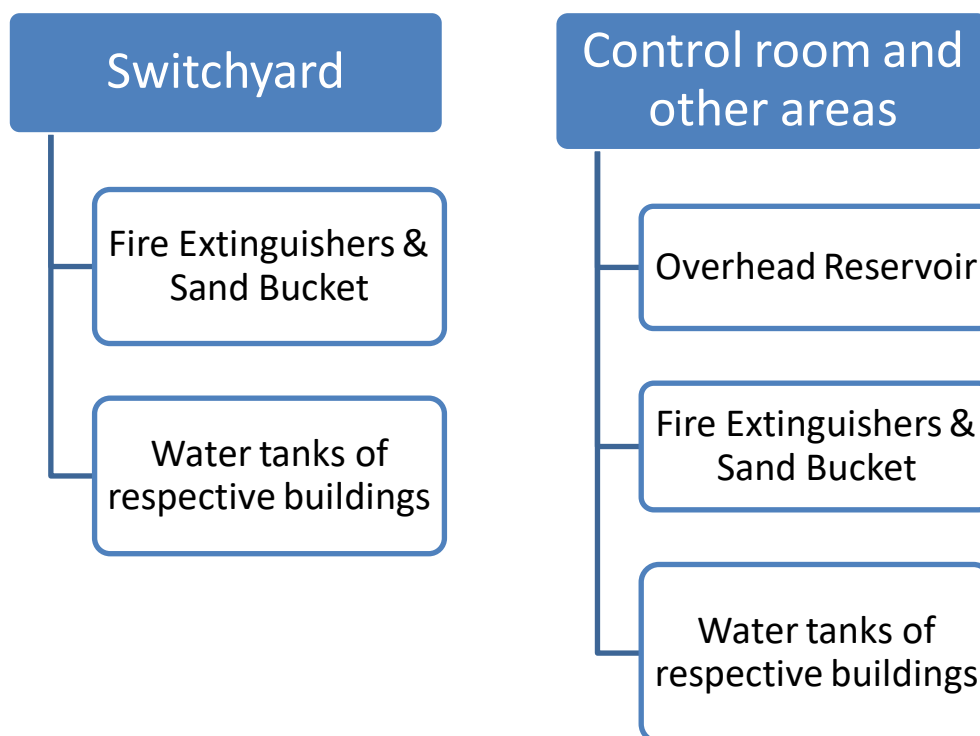

3. Second Floor

SI No	Area	Occupier of room	Materials stored	Probable Hazards	Assembly Area
1	10 sq. mtr.	30 volt Battery Room	30 volt Battery Set 2 nos.	Fire; Earth Quake; Flood; Man Made Disaster	Open area between Control Room & Main Gate
2	30 sq. Mtr.	Control Room	33 KV C&R Panel , RTCC Panel, Batery Charger, ACDB, DCDB	Fire; Earth Quake; Flood; Man Made Disaster	
3	10 sq. Mtr.	Maintenance Room	Maintenance equipment	Fire; Earth Quake; Flood; Man Made Disaster	

There is no record of flood at the different 33/11 KV Sub-Station, so probable disaster of flooding has not been considered.

Fire Fighting Equipments

In respect of Fire hazards in different 33/11 KV sub-station the following Fire Fighting Equipments can be used to deal with the crisis situation.

Fire Extinguishers

All 33/11 KV substation has sufficient number of fire extinguishers of all types i.e. A; B & C type located in major locations to deal with fire hazards. The Fire extinguishers are being regularly refilled. A details schematic diagram showcasing the location of fire extinguishers is displayed in control room building so that all the employees are aware of their locations and can readily use them in case of emergency. Apart from that, sand buckets are also maintained in the premises of the substation for use in case of fire exigencies. The detailed list of fire extinguishers is as follows:-

SI No	Type of Extinguisher	Number	Location
1	Co ₂ ; 3 kg	1	Control Room Battery Charger room
2	Co ₂ ; 4.5 kg	1	
3	Dry Chemical Powder; 5 Kg	2	
4	Water Type; 9 Liter	1	
5	Mechanical foam	1	
6	Fire Bucket	4	

Water Storage Capacity

The premises of the substation have water storage of sufficient quantity which may be used for extinguishing and dealing with fire exigencies. The detailed capacity of water storage is as follows:-

SI No	Water Storage	Location	Capacity
1	Overhead Reservoir	Roof of Control room	500 litres

Illumination

To protect the substation premises from manmade disaster and to deal with any form of natural disaster at night illumination plays a major role. Keeping that in view for switchyard high pressure mercury vapour lamps/ metal halide lamps are used and for the control room, and other areas fluorescent & energy saving lamps are used at different 33/11 KV sub-station.

Electrical Safety Measures

The following are used as electrical safety measures:-

- Insulated mats
- Hand gloves
- Safety Shoes
- Discharge rods
- Personal Protective Equipments like Safety belts, Safety helmets, Torch lights and safety ladder.

Entry Exit of Buildings

The control room building has two numbers of entry and exit which can be used simultaneously.

Available Manpower

The details of the available manpower at each 33/11 KV substation are as follows: -

Manpower Details			
Operation Staff : 7 nos.	Maintenance Staff (with vehicle driver): 12 nos.	Part time worker : 2	Security Guard : 4 nos.

A total number of 25 employees (working in different shift) both Departmental & outsourced posted at each 33/11 KV substation have been trained in First aid. First Aid

boxes, ready with all needful items, are maintained at Control room, Maintenance room and Security posts to enable immediate first aid treatment. Moreover, the detailed first aid treatment chart is displayed within control room building for further guidance of the employees in case of emergencies.

Communication System

Communication plays an important part in case of any natural and manmade disaster. In view of this, apart from BSNL landline and mobile connections, at each 33/11 KV substation, are maintained as important communication channels.

Security & Checking

In the interest of Safety and security, it is necessary that special precaution should be taken to prevent the entry of unauthorized persons into the premises of Mothabari 33 KV substation. The security personnel having army and paramilitary background regularly checks the entry and exit of persons and vehicles. One Supervisor (security) has also been posted at Mothabari 33 KV substation to oversee the security aspects of the premises. Moreover, proposal for declaring Mothabari 33 KV substation as "Protected Place" has also been forwarded to the authority to strengthen the security of the premises. The detailed shift wise deployment of security personnel in the premises is as follows: -

	Location	Morning	Evening	Night
Guards	Main Gate	1	1	2
Supervisor	General Shift (rounds)	0		

(B) Outside Building

Hospitals

The nearest hospitals in each 33/11 KV s/s has been displayed in the control room.

Fire Stations

The nearest fire stations and their contact numbers has been displayed in each 33/11 KV Sub-Station control room.

Ambulance Service

The nearest Ambulance Service and their contact numbers has been displayed in each 33/11 KV Sub-Station control room.

District Civil Administration Authority

The contact details of the concerned civil administration authority has been displayed in each 33/11 KV sub-Station.

Chapter 8 – Likely Perceived Scenario

Natural or manmade disaster in large scale can led to massive in the form of total destruction of building and adjacent areas and loss of major installation of the switchyard.

Chapter 9 – Suggested Response

The response in case of any kind of natural or manmade disaster is as follows:-

Chapter 10- Roles & Responsibilities

The area wise roles and responsibility of officers in case of any disaster is as follows:-

SI No	Area of Disaster	Period of Time	Incident Commander
1	Inside Control Room	Day & Night	Operator On Duty
2	Switchyard	Day & Night	
3	Staff Quarter & Allied Area	Day	Supervisor (Security)

Chaper 11 – Conduct of Mock Exercise

Safety Training

A safety Training was conducted in all 33/11 KV substation to make everyone conversant with safety regulations and processes. Regular monthly Safety Committee meetings are held at Mothabari 33 KV substation as per norms.

Mock Drill- Fire

Mock drills for fire are being regularly held at Mothabari 33 KV substation. All the operation, Maintenance, security personnel and staff of other department are involved in these trainings so that the Fire Extinguishers can be effectively used in case of any emergency.

First Aid Training

The personnel posted at different 33/11 KV substation have been trained to provide the necessary First Aid to the affected in case of emergency. A total number of 25 employees both departmental & outsourced posted at different 33/11 KV substation have been trained in First Aid.

Chapter 12 – Point of Contact

Official contact no of different sub-stations are as follows :

SI	Name of 33/11 kV Sub-Station	Contact No of Sub-Station	Blocks to Which Supplies Power
1	Rabindrabhaban	7449302668	English Bazar
2	Habibpur	7449302675	Habibpur
3	Kalindi	7449302667	English Bazar
4	Manikchak	7449302676	Manikchak
5	Narayanpur	7449302670	Old Malda
6	Kaliachak	7449302673	Kaliachak-I
7	Baishnabnagar	7449302674	Kaliachak-III
8	English Bazar	7449302669	English Bazar
9	Mothabari	7449302672	Kaliachak-II
10	Sujapur	7449302671	Kaliachak-I
11	Mobarakpur	8327095785	Old Malda
12	Milky	8927298862	English Bazar
13	Golapganj	9734682612	Kaliachak-III
14	Balia	8597055703	Old Malda

Contact no Officials for communication to be done by District Administration in case of Disaster

SI	Name of Blocks	Official Contact Points		
		Name	Designation	Contact No
1	English Bazar	Anirban Saha	Divisional Manager	7449302650
2	Habibpur	Rajesh Kumar	Assistant Manager(HR&A)	7449302651
3	Manikchak	Ganesh Chowdhury	Assistant Engineer(E)	7449302654
4	Old Malda	Imtiaz Ahammad	Assistant Engineer(E)	7449302655
5	Kaliachak-I			
6	Kaliachak-III			
7	Kaliachak-II			
8	Old Malda			

Chapter 12 – Disaster in 11 kV Line. 33 kV Line& LT line

In case due to disaster, any hazard such as breaking pole, conductor snapping etc. happens, requisite Poles are stacked in outside of Sub-Station & other materials are issued from Divisional Store at Nimaisarai. Also, there are more than 40 agencies working at under South Malda Division as well as different CCCs and each agency had approx. 12 nos manpower in their firm. In case any hazard, LOI will be issued to agencies considering the work involved and the agencies will take up the restoration work by utilizing the iron materials issued from Divisional Store and the poles from nearby Sub-Stations.

CONTINGENCY PLAN : PHE, MALDA

Disaster Management Plan of PHE Dte.

If any Disaster situation arises in Malda District, drinking water logistics will be provided by PHE. One Mobile Treatment Unit (MTU) under Malda Mechanical Division is in ready condition at Daulatpur, P.H.E. Campus for facing emergency situation.

1) Pre Disaster:-

Always ready with available manpower, equipments & machineries to face the untoward situation in consultation with the District Administration.

2) During Disaster :-

Apart from the MTU which is placed at PHE campus under Malda Mechanical Division, there are also two nos additional MTU units are present in Uttar Dinajpur & Dakshin Dinajpur district. We can also bring these MTUs from these districts on emergency basis.

Salient features of MTU :-

- a) Production: - It can produce 3500-4000 nos pouches per hour. Meanwhile it can produce 50,000 nos drinking water pouches per day.
- b) Water pouch capacity: - 350 ml, 500 ml.
- c) Operation:- It mainly runs on Electricity. If Electricity lines are being damaged due to disaster, in that case it can run with the DG set. Generator is always attached with the MTU.
Generator Details:-
 - a) It consumes 4 – 5 Litre diesel per hour.
 - b) Generator Capacity – 20 HP
 - c) Diesel storage capacity – 20 Litre.
- d) Time required: - After getting the information, only travel time is required to place the MTU at that disaster affected location.

3) Post Disaster: -

We will ensure replacing / repairing the PWSS pipe line along with SSP if required under the situation. If flood like situation arises, disinfection of tube wells & PWSS will be done immediately after divergence of flood water.

CIVIL DEFENCE PLAN 2020-2021

INTRODUCTION

Main Objectives Responsibilities and Activities Civil Defence includes any measures, not amounting to actual combat, for affording protection to any person, property, place or thing in India or any part of the territory thereof against any hostile attack, whether from air, land sea or other places or for depriving any such attack of the whole or part of its effect, whether such measures are taken before, during or after the time of such attack or any measures taken for the purpose of disaster Management, before, during, at, or after any disaster.

Aims :

- a. To save life.
- b. To minimize damage to property .
- c. To maintain continuity of production.

Scope: Civil Defence is the defence of the people, by the people and for the people. It is not the defence by the military as some may understand. Civil Defence is the measures adopted by the civilian population, Government, Local self-bodies, voluntary agencies, NGOs etc. during the war to minimize the effect of enemy action on men and its armed force to win the war in battle fields. In fact the scope has touched such a magnitude that Civil Defence is regarded as the fourth arm besides, Army, Navy and Air Force.

The West Bengal Civil Defence Organisation covers the following 12(twelve) services:

1. Headquarter Service.
2. Communication Service.
3. Warden service.
4. Casualty Service.
5. Firefighting Service
6. Training Service.
7. Rescue Service
8. Depot and Transport Service.
9. Supply Service.
- 10 Salvage Service.
- 11 Welfare Service
- 12 Corpse disposal Service.

Civil Defence Organisation: The West Bengal Civil Defence organisation is headed by an IPS officer of Director General rank, it has four wings, Civil Defence, West Bengal Civil Emergency Force, Water Wing Civil Defence and Casualty Section. Every District has a Civil Defence corps and the District Magistrate is also Controller of Civil Defence for the district and every Sub-Divisional Officer is the Dy. Controller of Civil Defence for the Sub-division for Kolkata area, there is a separate controller of Civil Defence. For administrative purposes, Kolkata area is subdivided into three sub-areas Kolkata North, Kolkata Central and Kolkata South, each headed by a Dy. Controller of Civil Defence. West Bengal is one of the limited number of states having a Central Civil Defence Training Institute, located at 199, NSC Bose Road, Kolkata- 700040.

Water Wings Civil Defence Personnel:- As per order of Director of Civil Defence of West Bengal, every year Water Wings Civil Defence personnel posted in this District for Flood relief and rescue operational purpose, and they may be posted to the different flood prone block, i.e. Kaliachak-I, Kaliachak- II, Kaliachak- III, Manikchak, Ratua- I, Harischandrapur-I & they are rendering the service the local people and stay in this District July to October CD Volunteers engaged for the above purpose as no boats, OBMs and other accessories kept at Itahargotlu store. We may collect the boats and OBMs from ItaharGotlu, Uttar Dinajpur during emergency period. The Water Wing of Civil Defence assists in rescue and relief operations through use of speed boats ,floating aids and trained manpower and volunteers. West Bengal Civil Emergency Force attends to any emergency and disaster with Quick Response Teams, rescue equipment ,speed boats and trained manpower and volunteers. The entire state of West Bengal has been declared as Civil Defence area .Each district has a large number of Civil Defence Volunteers who work continuously in the community towards fulfilling the 12 services of Civil Defence. Each district has at least two Civil Defence Rescue vehicles, fully equipped with modern rescue equipment, to respond immediately to any emergency.

Multy Disciplinary Centres :West Bengal Civil Defence has two Multy Disciplinary Centres, at Siliguri and Asansol.

Rescue Centres : West Bengal Civil Defence has three Rescue Centres at Mohanpur (PaschimMedinipur), Pursura (Hooghly) and Basirhat(North 24 Pgs).

Training:- Apart from carrying out training and rehearse/demonstration of Civil Defence measures during peace time, Civil Defence volunteers are also deployed, on a voluntary basis, in various constructive and nation building activities, which include providing assistance to the administration in undertaking social and welfare services and in the prevention/mitigation of natural/manmade disasters as well as in post disaster response and relief operations.As per order of Joint Secretary Department of Civil Defence has decided that all District and Sub- Divisional establishment shall arrange Different types of imparted types of Training for 5 (five) days , at least 8 (eight) batches per year comprising of 30 (thirty) volunteers per batch. And also be taken impart training club and other organization is under go sub Civil Defence Training like Basic C.D, First Aid, Fire Fighter, Disaster etc. The local people participated in the different types of training.

Camp:- As per order of District Magistrate & Controller of Civil Defence Malda, we may arrange yearly 1 (one) Camp in this District at different school for Disaster Camp, and the students attend the said training course.

Volunteers Service:- 100(one hundred) Civil Defence regular volunteers (boys & girls) are attend weekly parade every Sunday we are organize different types of training as per order of Civil Defence department and apart from that we are rendering service during flood relief, immersion, election, enforcement checking, crowd control, traffic duty, as and when District Administrative desires at in work.

Following are some of the major activities of West Bengal Civil Defence:

1. Monsoon deployment in flood prone districts.
2. Ganga SagarMela deployment.
3. Deployment during major festivals and celebrations.
4. Deployment for emergencies and Disaster.
5. Mock Exercises for emergencies and Disaster.
6. Relief, Rescue and First Aid.
7. Disaster and Emergency monitoring.
