## FOREWORD

Disaster management is a process or strategy that is implemented when any type of catastrophic event takes place. A truly comprehensive disaster management action plan will encompass a wide range of possibilities that can easily be adopted in the event of one disaster that sets off a chain reaction of other types of disasters in its wake.

Paschim Medinipur district in the past has experienced disasters like flood, drought, cyclone etc. In the year 2013 the district experienced five successive spells of flood due to heavy rainfall in upper catchment areas and huge discharge from dams. We have also faced flood during the year 2015. A havoc flood in 2017 caused enormous loss to human lives and properties. We can minimize the suffering of the affected people by providing assistance to them in case of emergency. Preparation of Disaster Management Plan-2018 is viewed as a part of preparedness with a view to take appropriate action to save human lives and properties in the face of disaster.

The Disaster Management Action Plan-2018 is a co-ordinated effort of Disaster Management Section of Paschim Medinipur Collectorate and other line departments. These departments actively engage themselves during the period of disasters like flood, cyclone etc. The action plan and contingency plan of these departments have been incorporated in this Plan.

I hope that this plan will be immensely helpful to the Government officers of Paschim Medinipur and will be an important source of information and document in the event of disasters. This plan will also prove to be helpful in serving the purpose of saving affected people and mitigating their sufferings with the efforts and dedication of all the persons associated with Disaster Management.

# 1. Introduction

The District Disaster Management Plan (DDMP) aims to make the District Disaster resilient and reduce loss of lives, infrastructure and economical assets during calamities.

The DDMP provides a framework to deal with all phases of disaster management cycle -prevention, mitigation, response and recovery—and lays down duties and also works simultaneously with various government departments at all levels such as Sub-Division, Blocks and Gram Panchayat level.

It identifies 18 broad activities to be served as a ready reckoner. These include early warning, maps, satellite inputs, information dissemination, evacuation of people, livestock's and animals, medical care, drinking water, essential supplies like food, communication, power, fuel, transportation, disposal of animal carcasses, relief employment, data collection and management.

The most important part of the plan is the horizontal and vertical matrices that we have worked out which clearly states who has to do what right from Panchayat, Block, Sub-Division or local body to district level.

The DDMP also identifies short, medium and long term measures to deal with disasters to be completed within five, 10 and 15 years respectively. Besides humans it also suggests ways to protect animals. For instance, it stressed that, “agencies specializing in animal care should provide necessary advisory and support for the care and protection of animals”.

In Heat wave conditions, animal and livestock owners must feed adequately with appropriate feed to avoid animal deaths. They must stock suitable feed or forage before Heat wave to feed the livestock. They must avoid exposure of animals to extreme heat  
The plan also focuses on human-induced disasters.

The human-induced category includes CBRN (chemical, biological, radiological and nuclear) disasters. Besides, with the natural factors discussed earlier, various human induced activities are also responsible for accelerated impact and increase in frequency of disasters in the district. The DDMP covers disaster management cycle for all types of hazards faced in District, both natural and human-induced. Its mitigation measures and at end the Relief and rehabilitation measures.

## **1.1 Changing Context of Disaster Management and Enactment of DM Act in India and West Bengal**

A profound change in governmental disaster management has occurred during the last decades. Gone are the days of “hunkering down” and riding out the hazard event with a command and control mentality that only focused on clean-up and the rescue of survivors. In its place is an emphasis on the reduction of loss of life and property through mitigation, preparedness, response, and recovery.

The Government of India, in recognition of the importance of Disaster Management (DM) as a national priority, on 23 December 2005 took a defining step by enacting the Disaster Management Act. This is a unique legislation which provides for requisite institutional mechanism for drawing up and monitoring the implementation of the disaster management plans, ensuring measures by various wings of the Government for prevention and mitigating effects of disaster and for undertaking a holistic, coordinate and prompt response to any disaster situation.

The state of West Bengal has already adopted National Disaster Management Act, 2005. Chapter IV of DM Act, 2005 mandates every district in the country to constitute a District Disaster Management Authorities. Articles 31 of DM Act, section of the DM Act, 2005 provides that “there shall be a plan for disaster management for every district of the state. The district plan shall be prepared by the District Authority, after consultation with the local authorities, covering HRVA measures to be taken for prevention with the local authorities, covering HRVA measures to be taken for prevention and mitigation of disaster, capacity building and preparedness measures and response plan. The response plan includes allocation of responsibilities to the depth at local to district level; prompt response and relief, procurement of essential resources; establishment of communication link, and public awareness”. Subsection of Article 31 says that the district plan shall be received and update annually.

## **1.2. Aims and Objectives of the DDMP**

### **Aims:**

The District Disaster Management Plan (DDMP) aims at identifying the disasters and threats that are prevalent in the district, and at the same time addressing the processes that would be involved in addressing the disasters in the district. It is a consolidated guidelines and plans of the district disaster management department in collaboration with the line department in addressing disaster situations.

Meaning of Disaster Management: “Disaster Management” means a continuous and integrated process of planning, organizing, coordinating and implementing measures which are necessary or expedient for-

- Prevention of danger or threat of any disaster;
- Mitigation or reduction of risk of any disaster or its severity or consequences;
- Capacity building;
- Preparedness to deal with any disaster;
- Prompt response to any threatening disaster situation or disaster;
- Assessing the severity or magnitude of effects of any disaster;
- Evacuation, rescue and relief;
- Rehabilitation and reconstruction.

The District Disaster Management Plan (DDMP) is a consolidated format of the plans and actions of the various government departments in the district and the roles and responsibilities they would take up in the time of disaster.

### **Objectives:**

The major objective of the disaster management plan is to minimize the impact of any disaster and increase the capacity of the administration to have coordinate effort to reduce the impact of any disaster and minimize the human and capital loss.

- To find out the type of risks the district is vulnerable to.
- To measure the vulnerability of life and livelihood and infrastructures to different type of risks.
- To develop a multihazard preparedness plan for effective management of different type of disasters the district is vulnerable to.
- Institutionalization of the disaster management in district administration
- To develop strategy for mass awareness on do's and don'ts on different type of disasters.
- To find out the resources of the district.
- To create a cadre of skilled volunteers to respond to different type of disasters.
- To make inter-departmental coordination more effective at the time of emergency.
- Encouraging and empowering the local community to know the disaster management
- Regular update of the resource available in and around the district.
- To strengthen the capacities and resilience of vulnerable community with special emphasis on empowerment of women and establish community level systems for pre, during and post disaster interventions through awareness generation and capacity building.

		Area irrigated	18719 Hec.

## 2.2 Location and boundaries:

Paschim Medinipur, located in the southern part of West Bengal, has been carved from the erstwhile Medinipur district, the then largest district of India, and came into existence in the present form from 1<sup>st</sup> January 2002. Subsequently the district has been bifurcated on 04.04.2017 creating a new District Jhargram. Paschim Medinipur is bounded by Bankura district from the northern side and Purba Medinipur district from the south-eastern side the southern and western boundary of the district is merged with Jhargram District.

**The present** population of the district is 47 lakh (approx.) with 18.9%SC and 11.55% ST population. Geographical area of the district is 3307.76 Sq. Km.

**Multifarious Regional Diversity:** Paschim Medinipur district represents regional diversity in terms of physiographic, agro-climatic characteristics, economic development, social composition etc. It has low basins in the south-east and east. It has drought-affected dry areas in the west but highly wet flood-affected in the east. Dense dry deciduous forest in the west is replaced by semi-aquatic vegetations of marsh lands in the east. It has barren lateritic, non-arable lands in the west and north-west, which gradually changes with highly productive alluvial soil areas in the central and eastern part of the district. It is the abode of tribes and primitive tribes in the western blocks while most of the other areas are inhabited by all castes of the mass society. It represents cultural diversity across blocks.

**2.3 Topography:** The area of the district is 3307.76 Sq.Km. The general appearance of the district is that of a large and well-cultivated plain, but towards the north and west gently undulations appear, with ridges covered by a thick growth of sal trees and other scrub jungle, while the intervening depression produces rich crops of rice. Partly from the poor fertility of the soil, and also from the ruthless way forest have been cut down in past, large forest trees are scares, but still in the neighborhood of some of the villages, a few fine tamarind, sal and mahua trees still do remain.

**2.4 Natural Division:** Broadly speaking, there are two natural divisions of the district. The metalled road from Raniganj and Bankura, which traverses the district from north to south, passing through the station of Medinipur and onwards to Balasore and Cuttack, may be generally taken as a dividing line between them. To the east of this road, the soil is purely alluvial, the country is flat, and the land is fertile and fully cultivable. To the west, the country is undulating, the high lands of Central India here terminating in long rolling waves of laterite rock. The characteristic formation of the district is laterite in the north and west, but in the south and the east it gradually gives way to the ordinary alluvium of the Gangetic delta.

The alluvial portion may be subdivided into two divisions; first, there is a strip of purely deltaic country bordering Hooghly, intersected by numerous river and water-courses, which are subject to tidal influence. These water-streams are usually connected with one another, thereby rendering it to travel by water. This low-lying tract extends for about 20 miles inland from the Rupnarayan and Hooghly. The alluvial deposits seem to cover the final swells of the laterite formation. None of this formation as yet appeared on the surface, but the watersheds between the streams are distinct, and the general elevation of the country is higher. The second division consists of the alluvial tract constituting the remainder of the eastern half of the district. This is monotonous rice plain intersected by numerous waterways and tidal creeks, which are lined with embankments to protect the fields from flood water. Much of the area is waterlogged, and this is particularly the case with the tract bounded by the Kasai River on the south and the Silai River on the north. This latter tract is a low lying depression formed

of the combined details of the Kasai and Silai rivers and intersected by numerous Khals. The river beds have been raised by the constant deposit of silt above the level of the surrounding country; the latter has to be protected from inundation by a complicated system of embankments. Many of these unfortunately obstruct the natural drainage of the country with the result that the soil being deprived of its increment of deposit is permanently depressed, while the waterways have become choked with silt and the land below them is waterlogged.

**2.5 River System:** The river system of Paschim Medinipur district consists of the Rupnarayan, the Kansai and the Subarnarekha which enters this district from Jhargram and passes into the Balasore district, where it falls into the Bay of Bengal. The principal tributary of the Rupnarayan is the Silai or Silabati. This river enters this district from the Bankura district on the north, and follows a tortuous course. It runs first in an easterly direction through the north of the Medinipur (Sadar) Sub-division, and then turns to the south east and south through the Ghatal Sub-division. Near Narajole it takes a sharp turn to the north, and eventually it falls into the Rupnarayan at Bhandar, 4 miles below Ghatal. The Silai is navigable throughout the year for a short distance in its lower reaches, which are within tidal influence. It is fed by two small streams from Bankura district on the north, the Purandar and Gopa, and by the Chandur and Kubai from this district which rise in the north-west of the district and flows east till it empties itself into the Silai near Narajole.

The Kasai enters the district in the north-west from Jhargram. It flows an exceedingly tortuous course, running first south-west and then eastwards, passed the town of Medinipur, which is situated on its north bank. Below Medinipur the channel contracts rapidly, till at Kapas-tikri, 13 miles lower down, it bifurcates, one small branch going north and eventually into the Rupnarayan, while the main channel runs south-east. The Subarnarekha is the only other river of Paschim Midnapore requiring notice. It enters the district on the north-west from Jhargram district and pass through the south-west of Kharagpur sub-division. To the South of Dantan it enters Balasore district and finally falls into the Bay of Bengal. The Subarnarekha has a rapid stream with a sandy bed, and its banks are generally high and well defined. In seasons of high flood the river overflows its left bank about 4 miles above the point where it leaves Paschim Medinipur district to enter Balasore district.

### **3. Past disaster Scenario in the district**

#### **3.1 Past disasters in the district and loss thereof**

1. "AILA" also hit an extensive area of this district in May; 2009. Heavy rainfall added with release of water from the dams during 1<sup>st</sup> quarter of September, 2009 affected some areas of this district especially in Ghatal Sub-Division.
2. In the year 2007 severe flood occurred in four successive rounds causing large scale devastating damage of dwelling houses, standing crops and public properties. The death toll was 97. Army and Air Force authority had to be deployed for rescue and relief of the marooned people.
3. The District had to face severe flood in the year 2005 in which more than 5 lakh people were affected.
4. The district had to face a severe drought in 2002 and it affected major blocks of the district.
5. The district had to face a flood in 1999. Total 56131 numbers of houses were damaged and 45 lakhs (approx.) population was affected.
6. The district had to face a drought in 1998 where crop damage had been more than fifty percent.

7. A severe cyclone with a tornado-like effect hit 3 blocks of this district on 24.03.1998 at around 2.00 to 3.00 P.M. The number of people affected by that tornado was around 26400. The number of affected mouzas was 18 with the total area affected being 3854 hectares.
8. A devastating flood occurred in September 1978 September. A huge number of persons and cattle died. A large number of persons had to stay in the flood shelter; many of them had to take shelter in big trees. Government NGO's and many philanthropic organizations rushed and rescued the unfortunate flood victims.

### 3.2 Drought & Cyclone Susceptibility:

The experiences of drought and flood are common in the district. The flood prone area is about 142647 ha. (Ghatal & part of Kharagpur sub-divisions). A major part of this district is also prone to drought. Ghatal and the Southern parts of Kharagpur sub-divisions are affected by water logging during the rainy season. As a result, there is frequent loss of crop. Sabang, Pingla, Dantan-I and Narayangarh block in Kharagpur sub-division often suffer from such losses. Drought affects the population here frequently and causes damage to the limited agriculture in the area, affecting food security of the people living here. Though the district does not have a coastline, it is affected frequently by the cyclones during the months of October and November and untimely rains during April and May.

## 4. Precipitation & temperature:

Normal rainfall in the district is around 1400 – 1500 mm. However, for the last few years, it has been highly erratic in nature.

Average temperature of the district varies widely across seasons, varying between maximum of 40.3 degree Celsius and minimum 10.3 degree Celsius in 2014. The climate is characterized by hot summer, cold winter, abundant rainfall and humidity. Rainfall fluctuates widely over years and concentrates over a few months of a year under monsoon.

Temperature (Degree Celsius)		Rainfall Normal (m.m.)	Rainfall Actual (m.m.)	Rainfall Actual (m.m.)
Maxi-mum	Mini-mum		2016	2017
40.3	10.3	1537	1371.5	1544.8

**Table-1: Geographical Location and Climate of Paschim Medinipur District**

**4.1 Natural Resources:** Paschim Medinipur is rich in a variety of environmental resources like land, forest and human resources. As per Census of India, total geographical area of Paschim Medinipur district in 2011 (6330.36 sq. km.). Total forest area of the district was 171.93 thousand hector.

Similarly, percentage shares of the district to all West Bengal area under orchard, permanent pasture and grazing land, barren and unculturable waste, culturable waste, fallow land other than current fallow were above its percentage share to its geographical area.

## 4.2 Land Use Pattern, Cropping Intensity and Irrigation

- Distribution of geographical area of the district and land use pattern across shows that Salboni block has the largest geographical area and the smallest block being Mohanpur.
- Narayangarh block records the largest net cropped area, the smallest being again Mohanpur.
- Area under pasture and orchard is largest in Salboni, the smallest being observed again in Mohanpur.
- It is revealed that Pingla block recorded in 2005-06 the highest cropping intensity (199 per cent) followed by Daspur-I, Sabang and Garbeta-I registering the lowest.

The Kangsabati Dam located on the Kumari and Kangsabati River at Mukutmonipur in Bankura District is the main irrigation scheme which provides water in agrarian fields for both Kharif and Rabi crops.

Ground water supports by dint of deep tubewells and shallow tubewells serve as supplementary irrigation.

## 5. Hazard profile of the district

A Hazard, Risk and Vulnerability Assessment (HRVA) examine the **hazards** that may impact a community and the risk that each hazard event poses to the community as a whole and to vulnerable elements of the community. The objective of the Hazard, Vulnerability and Risk Analysis is to:

1. Investigate prominent natural and human caused events.
2. Identity any threat that may require timely response to protect lives, property and reduce economic loss.
3. Identity vulnerable groups who need more concern during any calamity.

### 5.1 IDENTIFICATION OF CYCLONE PRONE AREAS OF THIS DISTRICT

Dantan-I & II, Mohanpur, Narayangarh, Sabong, Keshiary Blocks are the most vulnerable blocks which are prone to cyclonic storm. Other parts of this district may also be affected.

## 5.2 STATUS OF CYCLONE WARNING CENTRES IN PASCHIM MEDINIPUR.

There is no permanent cyclone warning dissemination centre at Paschim Medinipur. On receipt of any cyclone message from IMD or Disaster Management Department it is disseminated to the concerned SDOs and BDOs.

Usually, all SDOs / BDOs are instructed to arrange for transmission of Cyclone message if any, at respective areas through announcement as and when required / instructed. All other concerned departments are instructed to arrange for emergent relief accordingly.

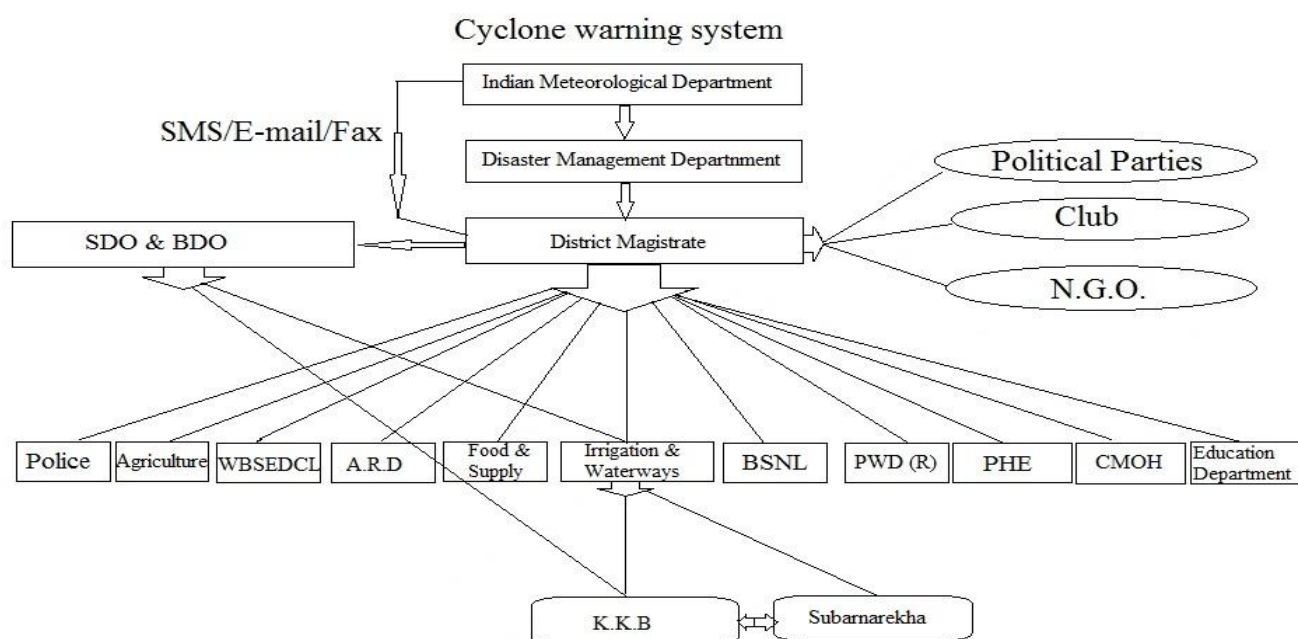

## 5.3 FOUR STAGE CYCLONE WARNING SYSTEM:

**Stage I:** With the formation of Depression over Bay of Bengal, the Chief Secretary, Govt. of West Bengal is informed by the Director General of Meteorology, IMD about its formation, location and potential danger.

**Stage II :** When the depression is likely to intensify into a cyclone storm or of higher intensity and likely to hit West Bengal coast within next 48 hours the numbered cyclone alert messages are issued at regular intervals and the message is passed to the Govt. of West Bengal over fax also to AIR/TV for repeated broadcast. All the concerned officials are advised to remain in touch with IMD for latest development. Fishermen warnings are also issued regularly.

**Stage III:** When the CS/SCS/VSCS/Super Cyclone is likely to hit West Bengal coast within 24 hours, numbered cyclone warning bulletins are issued six times a day to Govt. of West Bengal and also to AIR/TV for repeated broadcast.

**Stage IV:** After crossing the coast a de-warning message is issued.

## 5.4 RISK ANALYSIS

### ➤ Flood

The main reasons for flood in the district are as following-

1. A dam at the confluence of river Kangsabati and river Kumari at Ambikanagar in the district of Bankura was constructed for providing irrigation as well as insurance against drought and moderate floods in the area. Before construction of Dam, there was free flow through the river and the river was capable to carry adequate floodwater. After construction of Dam, water carrying capacity of the river has been reduced gradually due to siltation of the river bed and non-release of flushing dose from the dam time to time.
2. The down stream of the river gets silted up constantly due to tidal effect.
3. Besides, this lower part of the river has been jacketed by putting up and raising of ex-zamindary bundhs.
4. Due to the gentle longitudinal slope of the river bed it has lost drainage efficiency.
5. Construction of boro-bundhs across the river for Rabi and Boro irrigation are also causing siltation of the river-bed.
6. The major cause of flood in Kangsabati basin is not the local rainfall, but the spill way discharge of water from Kangsabati Dam. If the release of water from Kangsabati Dam can be regulated in a proper way, intensity of flood can be reduced.
7. Other rivers of the district such as Keleghai, Subarnarekha, Silabati, Rupnarayan are also causing floods due to the same reasons.

Year	Total rainfall
2016	1371.5 mm
2015	1449.7 mm
2014	1157.163 mm
2013	2331.26mm
2012	1113.3 mm.
2011	1717.9 mm.
2010	1001.1 mm.
2009	1270.1 mm.
2008	1780.44 mm.
2007	2106.0 mm.
2006	1298.8 mm.

## 5.4. A Risk Assessment:

Risk Level	Extent of damage
<b>Damage risk level for earthquake</b>	
High Damage Risk (H)	Gaps in walls; parts of buildings may collapse; separate parts of the building lose their cohesion; and inner walls collapse
Moderate Damage Risk (M)	Large and deep cracks on walls fall of chimneys on roofs.
Low damage Risk (L)	Small Cracks in walls; fall of fairly large pieces of plaster, pantiles slip off; cracks in chimneys, part may fall down.
<b>Damage Risk levels for Wind Storms</b>	
Very High Damage Risk (VH)	Generally similar to: High Risk” but damage is expected to be more widespread as in the case of cyclonic storms.
High Damage Risk (H)	Boundary walls overturn, walls in house and industrial structures fail; roofing sheets, and tiles or whole roofs fly; large scale destruction of life-line structures such as lighting and telephone poles, a few transmission line towers / communication towers <i>may</i> suffer damage; and non engineered / semi constructions suffer heavy damage.
Moderate Damage Risk (M)	Loose tiles of clay fly, roofs sheets fixed to battens fly; moderate damage to telephone and lighting poles; moderate damage to non-engineered/semi-engineered buildings.
Very Low damage Risk (VL)	Loose metal or fibre cement sheets fly; a few lighting and telephone poles go out of alignment; sign boards hoardings partially damaged; well detailed non-engineered/semi-engineered buildings suffer very little damage.
<b>Damage Risk levels for Flood</b>	
Very High Damage Risk (VH)	Total collapse of buildings; roof and some walls collapse; floating away of sheets, thatch etc; erosion of foundation; severe damage to life line structures and systems.
High Damage Risk (H)	Gaps in wall; punching of holes through wall by flowing water; parts of buildings may collapse; light roofs float away; erosion of foundation, sinking or tilting; undercutting of floors, partial roof collapse.
Moderate Damage Risk (M)	Large and deep cracks in walls; loss of belongings; damage to electric fittings.
Low damage Risk (L)	Small cracks in walls; fall of fairly large pieces of plaster
Very Low damage Risk (VL)	Fine cracks in plaster; fall of small pieces of plaster.

**Table 7: Damage Risk Level for Earthquake, Wind Storms & Flood**

## **5.5 DROUGHT**

Drought has been described as a “creeping disaster” in the United Nations Publications. Thus emphasizing that a situation of drought develops gradually given sufficient warning of its coverage extents and intensity unlike a flood, cyclone or earthquake which offers little or no time and little opportunity for immediate planning and preparedness.

One of the essential preparatory measures is to keep a close watch on the behaviors of Monsoon and to initiate advance action to remove or minimize the unfavourable impact of weather conditions.

### **Action Plan for Drought:**

A large portion of Paschim Medinipur District is a drought-prone area. This is due to undulating topography, laterite and porous soil having a little water holding capacity. Almost the whole western side of the district faces drought every year. The district had to face a severe drought in 2002 and it affected 24 blocks. As a result, cultivation of Aman paddy hampered tremendously and cattle lives were also affected. People of those affected blocks suffered a lot due to prevailing drought situation.

### **Objectives:**

1. Focus on employment generation;
2. Speed up the pace of development creating employment and productive assets which would trigger the overall development;
3. Provide income generation activities to the affected population through SHGs for creating productive assets in affected areas e.g. water tanks, desilting of drainage canals, etc.

### **Suggestive areas of intervention:**

1. Excavation / re-excavation of ponds and tanks for harvesting rain water;
2. Construction of field channels of RLI / DTW,
3. Construction of water harvesting structures and cross-bundhs on the rivulets / perennial water sources for cultivation of Rabi crops;
4. Development of waste lands;
5. Intensification of development activities in afforestation;
6. Repair / reconstruction of village roads;
7. Special wage employment programme for women/SC/ST population;
8. Regular monitoring of foodgrains supplies – prioritization on availability of foodgrains for wage employment programmes;
9. Activating self-help groups for income generation.

### **Action points for the Block / Gram Panchayat:**

1. Changes in annual action plan already prepared under NREGS, if necessary, to combat the prevailing situation;
2. Fill up the ponds with water by connecting this with canals in advance;
3. Dove tailing of various schemes towards drought management in close coordination with all departments functioning at the district level;
4. Enhance the water harvesting structures;
5. Identify lands for eligible works;
6. Employment generation in suitable schemes in consultation with the Agriculture, I &W, Fishery, Forestry, Animal Resource and PW Deptts.

7. Activate SHGs for income generating activities;
8. Labour intensive works should be given top priority;
9. Awareness generation among the people for water harvesting and water recharging / preventing moisture evaporation.

## **6. SOME VALUABLE INFORMATION AND DISASTER SPECIFIC ACTION PLAN / STANDARD OPERATION PROCEDURE FOR PASCHIM MEDINIPUR DISTRICT ADMINISTRATION**

### **6.1 FLOOD PRONE AREAS**

The topography of the district is such that eastern part of the district is affected more than the western part of the district. The list of affected blocks and municipalities is as follows:

<b>Name of the Sub-Division</b>	<b>Vulnerable Blocks / Municipality</b>	<b>Partly affected Blocks / Municipality</b>	<b>Water logging Blocks / Municipality</b>
Ghatal	1. Ghatal	1. Chandrakona-I	1. Chandrakona-II
	2. Daspur-I	2. Kharar Municipality	2. Khirpai Municipality
	3. Daspur-II	3. Ramjibanpur Municipality	3. Chandrakona Municipality
	4. Chandrakona-I		4. Ghatal Municipality
	5. Chandrakona-II		
Kharagpur	6. Sabong	4. Dantan-I	5. Kharagpur-I
	7. Pingla	5. Dantan-II	6. Kharagpur-II
	8. Narayangarh	6. Debra	7. Keshiary
		7. Mohanpur	
Medinipur Sadar	9. Medinipur Sadar	8. Garhbeta-I	8. Midnapur Municipality
	10. Keshpur		
	11. Garhbeta-II		
	12. Garhbeta-III		

## 6.2 RESERVE STOCK OF RELIEF MATERIALS

The present stock position of Relief Material and foodgrains at the District Hqrs. is as follows:

Items	Available	Further Requirement
Polysheet	32,837 (N.C.)	50,000 Pcs.
Saree	1952 Pcs.	10,000 Pcs.
Dhuti	2762 Pcs.	10,000 Pcs.
Lungi	2990 Pcs.	50,000 Pcs.
Children Garments	412 Pcs.	20,000 Pcs.
Blankets	2728 Pcs.	10,000 Pcs.
Male Wrapper	1237 Pcs.	10,000 Pcs.
Salwar Kamij	1800 Sets.	10,000 Sets.
Punjabi & Pajama	1500 Sets	10,000 Sets.
Spl. GR (Rice)	233.10 MT	500 MT

**Availability of search and rescue equipments:**

### Portable Inflatable Emergency Lightning System

SDO, Ghatal	1
SDO, Kharagpur	2
District Headquarter	1

**PRESENT POSITION AND FURTHER REQUIREMENT OF RELIEF CONTINGENCY FUND, CASH G.R AND STARVATION GR FOR THE YEAR 2018-2019**

Name of item	Total amount received	Expenditure incurred / disbursement / sub-allotment made in this month	Balance in hand	Further requirement
Contingency fund U/H “2245”	Nil	Nil	Nil	Rs.50.00 Lakh
Cash G.R.	Nil	Nil	Nil	Rs.5.00 Lakh
Starvation GR	Nil	Nil	Nil	Rs.5.00 Lakh

## 7. Earthquake Prone Zone: West Bengal

Bureau of Indian Standards, based on the past seismic history, grouped the country into four seismic zones, viz. Zone-II, -III, -IV and -V. Of these, Zone V is the most seismically active region, while zone II is the least. The Modified Mercalli (MM) intensity, which measures the impact of the earthquakes on the surface of the earth, broadly associated with various zones, is as follows:

## 7.1 Seismic Zone Intensity on MM scale

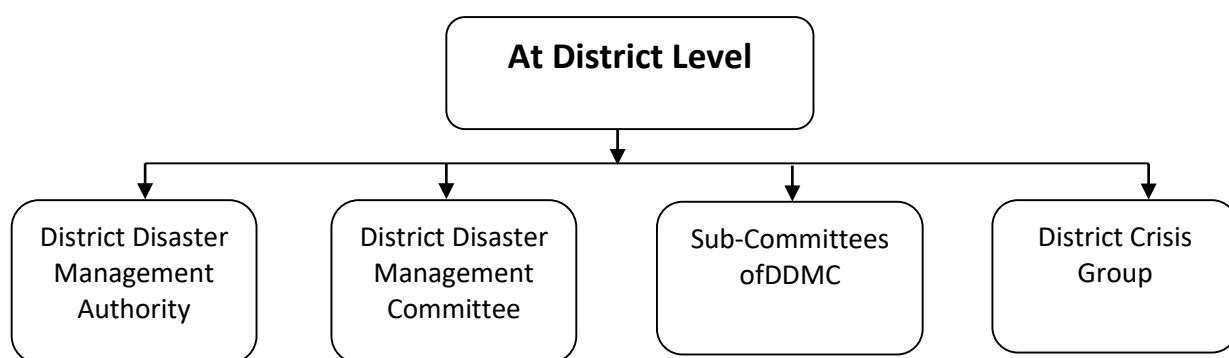

II (Low intensity zone)	VI (or less)
III (Moderate intensity zone)	VII
IV (Severe intensity zone)	VIII
V (Very severe intensity zone)	IX (and above)

Table 1 Earthquake Zonation of District of West Bengal

## 8. DISASTER MANAGEMENT: FUNCTIONAL STRUCTURE IN THE DISTRICT

The disaster management will be more effective and sustainable if it is institutionalized. For this purpose Government of India has already passed the Disaster Management Act, 2005 Act No.53 of 2005, on 23<sup>rd</sup> December, 2005, which has already been adopted by Government of West Bengal. The Government of West Bengal, in exercise of powers conferred by the Act, has established the West Bengal State Disaster Management Authority vide Notification No.1281-FR-1<sup>st</sup> August, 2007 and also established District Disaster Management Authority vide Notification No.1291-FR-1<sup>st</sup> August 2007. The District Magistrate is overall in charge for the entire disaster management activities in the District. As per Section 28 of the Disaster Management Act, 2005, the District Authority may constitute one or more Advisory Committee and District Disaster Management Committee for better implementation of disaster management activities in the district.

## 8.1 District Disaster Management Authority

As per Notification No.1291-FR-1<sup>st</sup> August, 2007 the District Disaster Management authority consisting Chairperson and six members having Head Quarter at District level has been established. It acts as the district planning; coordinating and implementing body for disaster management and takes all measures for the purpose of Disaster Management in accordance with the guidelines laid down by the National and the state Authority

### District Disaster Management Authority (D.D.M.A.) (GO No.1308-FR dated 01.08.2007)

1. Collector of the District: **CHAIRPERSON**
2. Sabhadhipati of Zillah Parishad: **CO-CHAIRPERSON**
3. Addl. District Magistrate (Disaster Management) : **CEO, Ex-officio Member**
4. Superintendent of Police: Ex-officio Member
5. Chief Medical Officer of Health: Ex-officio Member
6. Executive Engineer, Irrigation : Ex-officio Member
7. All Sub-Divisional Officers : Ex-officio Member

At the District Level, there should be a District Disaster Management committee, at Block Level, there should be a Block Disaster Management Committee and at village level there should be village level there should be village Disaster Management Committee.

Apart from these disaster management committees, at each level there should be a disaster management plan as per vulnerability to disaster of that particular area along with the various task forces like search and rescue, first aid, early warning system, food management, shelter management, dead body disposal force etc.

**At the Village (Gram Panchayat) Level:** Panchayat are the decision making bodies of all development activities in the villages. Therefore, every Panchayat should have a Village level Disaster Management Committee (VDMC) headed by the Pradhan which is responsible for carrying out activities from Planning to Execution in Disaster Management. There should be a separate village disaster management plan for every village as per vulnerability to disaster of the particular village. The plan encompasses prevention, mitigation and preparedness measures. The VDMC chaired by Pradhan includes, ward members, gramsevak, local Government functionaries including doctors/paramedics of primary health centers located in the village, primary school teachers etc. also a search and rescue team as well as first aid team have to be set up and trained at every village. The Disaster Management Teams at the village level will consist of members of youth organizations like Nehru Yuva Kendra and other non-governmental organizations as well as able bodied volunteers from the village. The teams are to be provided basic training in evacuation, search and rescue, first aid trauma counseling etc.

**At Sansad Level:**the village where Sansad members are members of VDMC they should get involved in taking all sort of major decisions related to Disaster Management, whether it is the Disaster Management Preparedness Plan or preparation to respond during the disaster. They are important identities in the village representing the community. **The Disaster Management Committee will review the disaster management plan at least once in a year.** It would also generated awareness among the people in the village about do's and do not do's for specific hazards depending on the vulnerability of the village.

**At Block Level:** every Block in the district should have a Block Disaster Management Committee headed by Chairperson Panchayat Samiti and all line departments at block level are its members.

**At District Level:** the District Disaster Management Authority and district disaster management committee should be constituted under the chairmanship of District Magistrate and Sabhadhipati respectively.

The District Disaster Management Authority shall act as the District Planning; coordinating and implementing body for disaster management and take all measures for the purpose of disaster management in the district in accordance with the guidelines laid down by the National Authority and the State Authority.

## **8.2 The role of District Disaster Management Authority**

- I. Prepare a disaster management plan including district response plan for the district;
- II. Coordinate and monitor the implementation of the National Policy, West Bengal State Disaster Management Policy, national Disaster Management plan, West Bengal Disaster Management Plan and District Disaster Management Plan;
- III. Ensure that the areas in the district vulnerable to disasters are identified and measures for the prevention of disasters and the mitigation of its effects are undertaken by the departments of the Government at the district level as well as by the local authorities.
- IV. Ensure that the guidelines for prevention of disasters, mitigation of its effects, preparedness and response measures as laid down by the National Authority and the West Bengal State Authority are followed by all departments of the Government at the district level and the local authorities in the district;
- V. Give directions to different authorities at the district level and local authorities to take such other measures for the prevention or mitigation of disasters as may be necessary.
- VI. Lay down guidelines for prevention of disaster management plans by the departments of the Government at the districts level and local authorities in the district;
- VII. Monitor the implementation of disaster management plans prepared by the departments of the Government at the district level.
- VIII. Lay down guidelines to be followed by the Departments of the West Bengal Government at the district level for purpose of integration of measures for prevention of disasters and mitigation in their developmental plans and projects and provide necessary technical assistance therefore;
- IX. Monitor the implementation of measures referred to in Item N.
- X. Review the state capabilities for responding to any disaster or threatening disaster situation in the district and give directions to the relevant departments or authorities at the district level for their up-gradation as may be necessary.
- XI. Review the preparation measures and give directions to the concerned departments at the district level or other concerned authorities where necessary for bringing the preparedness measures to the levels required for responding effectively to any disaster or threatening disaster situation;
- XII. Organize and coordinate specialized training programmes for different levels of officers, employees and voluntary rescue workers in the district;

- XIII. Facilitate community training and awareness programmes for prevention of disaster or mitigation with the support local authorities, government and non-governmental organisations;
- XIV. Set up, maintain, review and upgrade the mechanism for early warnings and dissemination of proper information to public;
- XV. Prepare, review and update district level response plan and guidelines;
- XVI. Coordinate response to any threatening disaster situation or disaster;
- XVII. Ensure that the departments of the Government at the district level and the local authorities prepare their response plans in accordance with the district response plan;
- XVIII. Lay down guidelines for, or give direction to, the concerned department of the Government at the district level or any other authorities within the local limits of the district to take measures to respond effectively to any threatening disaster situation or disaster;
- XIX. Advise, assist and coordinate the activities of the Departments of the Government at the district level, statutory bodies and other governmental and nongovernmental organisations in the district engaged in the disaster management;
- XX. Coordinate with, and give guidelines to, local authorities in the district to ensure that measures for the prevention or mitigation of threatening disaster situation or disaster in the district are carried out promptly and effectively;
- XXI. Provide necessary technical assistance or give advice to the local authorities in the district for carrying out their functions;
- XXII. Review development plans prepared by the Departments of the Government at the district level, statutory authorities or local authorities with a view to make necessary provisions therein for prevention of disaster or mitigation.
- XXIII. Examine the construction in any area in the district and, if it is of the opinion that the standards for the prevention of disaster or mitigation laid down for such construction is not being or has not been followed, may direct the concerned authority to take such action as may be necessary to secure compliance of such standards;
- XXIV. Identify buildings and places which could, in the event of any threatening disaster situation or disaster, be used as relief centres or camps and make arrangements for water supply and sanitation in such buildings or places;
- XXV. Establish stockpiles of relief and rescue materials or ensure preparedness to make such materials available at a short notice;
- XXVI. Provide information to the State Authority relative to different aspects of disaster management;
- XXVII. Encourage the involvement of non-governmental organisations and voluntary social-welfare institutions working at the grassroots level in the district for disaster management;
- XXVIII. Ensure communication systems are in order, and disaster management drills are carried out periodically;
- XXIX. Perform such other functions as the West Bengal Government or the West Bengal Disaster Management authority may assign to it or it deems necessary for disaster management in the district.

### 8.3 Authority for DDMP

#### **DISTRICT DISASTER MANAGEMENT COMMITTEE, PASCHIM MEDINIPUR**

1. The Sabhadhipati, Zilla Parishad, Paschim Medinipur	Chairman
2. The District Magistrate, Paschim Medinipur	Vice-chairman
3. The Additional District Magistrate (Gen), Paschim Medinipur	Member Secretary
4. The Superintendent of Police, Paschim Medinipur	Member
5. The Karmadhakshya, Tran Sthayee Samity, Zilla Parishad, Paschim Medinipur.	Member
6. The Chief Medical Officer of Health., Paschim Medinipur	Member
7. The Executive Engineer, P.W.D., Paschim Medinipur	Member
8. The Executive Engineer, P.H.E., Paschim Medinipur	Member
9. The Executive Engineer, I.&W.Deptt., Paschim Medinipur	Member
10. The Principal Agriculture Officer, Paschim Medinipur	Member
11. The District Animal Resources Dev. Officer, Paschim Medinipur	Member
12. The District Disaster Management Officer, Paschim Medinipur	Member
13. The District Inspector of Schools (Primary), Paschim Medinipur	Member
14. The District Inspector of Schools (Secondary), Paschim Medinipur	Member
15. Hon'ble Members of Legislative Assembly (All MLAs of Paschim Medinipur District)	Member

### 8.4 Evolution of DDMP

The Disaster Management Act, 2005, (23 December 2005) No. 53 of 2005, was passed by the Rajya Sabha, the upper house of the Parliament of India on 28 November, and by the Lok Sabha, the lower house of the Parliament, on 12 December 2005. It received the assent of The President of India on 9 January 2006. The Disaster Management Act, 2005 has 11 chapters and 79 sections.

It clearly indicates all states and all District of India has to create a Disaster Management Plan.

### 8.5 Nodal ministries related to various disasters

- Earthquakes and Tsunami- MHA/Ministry of Earth Sciences/IMD
- Floods- MHA/Ministry of Water Resources/CWC
- Cyclones- MHA/Ministry of Earth Sciences/IMD
- Drought- Ministry of Agriculture
- Biological Disasters- Ministry of Health and Family Welfare
- Chemical Disasters- Ministry of Environment & Forests
- Nuclear Disasters- Department of Atomic Energy
- Air Accidents- Ministry of Civil Aviation
- Railway Accidents- Ministry of Railways
- Terrorism, bombblast, Riots-Ministry of Home Affairs

## **8.6 District Crisis Management Group (GO No.401 (35)-RL/O/I/7M-37/08 dated 03.03.2016)**

- 1) The District Magistrate will head the District Crisis Management Group. It will have the following members:
  - a) Commissioner of Police / Superintendent of Police
  - b) A representative of IB
  - c) Dy. Development Commissioner / Additional District Magistrate

Any other district officer, as appropriate may be co-opted as a member, senior most officer of the Armed Forces and CAPFs posted in the district be also included in the Group. Where the NSG have been requisitioned for assistance, the NSG Task Force Commander may be co-opted as a member. Where NDRF is deployed or stationed, their representative may be co-opted as a member.

- 2) This Group will be responsible for on-scene management of the incident / emergency in the district level. All agencies will provide resources to this Group as required. Where a specialist Response team is deputed by the State / Central Group, this Group will normally abide by the advice of the said specialist Response team; but the ultimate decision will be that of the District / State Crisis Management Group.
- 3) There is a Control Room at the State level and there will be at district level during the monsoon season. The Control Room will be linked to the Control of the Ministry of Home Affairs by telephones, fax, internet and satellite phones.
- 4) Regular communication exercise shall be conducted with all stakeholders.
- 5) District Crisis Management Group will also meet periodically at least once in three months and as and when a crisis is at hand.
- 6) The District Magistrate will brief the media suitably from time to time regarding the progress in handling the contingency / emergency.

## **9. Departmental Action Plan**

### **9.1 Action Plan for IRRIGATION & WATERWAYS DIRECTORATE WEST MIDNAPORE DIVISION**

**A) The following River Gauge & Rain Gauge Station has been maintained by this Division**

Sl. No.	Stations	River	P.D.L.(M) M.G.T.S.	D.L.(M) M.G.T.S.	E.D.L.(M) M.G.T.S.	HFL (M)	Remarks
1	Midnapore						Rain Gauge
2	Mohanpur	Kangsaboti/ Cossye	25.45	25.75	26.36		River Gauge
3	Saldahari	Old Cossye	15.39	16	16.61		Do
4	Gadhhat	Silabati	8.38	8.99	9.60	11.12	Rain Gauge & River Gauge
5	Banka	Silabati	14.47	15.08	15.69	16.34	River Gauge
6	Bandar	Rupnarayan	6.24	6.85	7.46	9.47	Do
7	Ranichak	Rupnarayan	4.72	5.33	5.94	9.14	Do
8	Gopigang	Rupnarayan	4.42	5.03	5.65	8.41	Do
9	Old Cossye	Kalmijole	8.68	9.29	9.90	11.12	Do

## B. Reporting of River Gauges & Rain Gauges at different Authorities.

Rain gauge stations are maintaining under this Division at i) Midnapore. (ii) Gopiballavpur, (iii) Gadghat. Daily river gauge reports are to be collected from C.W.C. in connection with Kangsaboti Project. River & Rain gauge data will be prepared as per approved format and weekly format as per G.F.C.C. Proforma and sent to the following authorities :-

- i) District Magistrate, Paschim Medinipur.
- ii) Chief Engineer's flood cell

## C) Weekly flood inspection report:

Weekly flood report is to be submitted by the concerned Sub-Divisional Officer as usual following last year's procedure.

## D) As reported by the Sub- Divisional Officers & Sub Assistant Engineers (regarding stock):-

1) The stock position of empty cement poly bags at different stations are as follows:-

Sl.No	Name of Sub-Division	Name of Section	No. of empty poly bag	No. of nylon crates
<b>1</b>	<b>a) Lacchmapore Irrigation Subdivision:-</b>			
	i) Lacchmapore Section		2000	Nil
	ii) Khanamohan Section		49000	1000
	iii) Anicut (Hd. Qtr.) Section		16400	1848
	iv) Balichak Section		5000	Nil
	v) Anicut Section		0	Nil
	vi) Simlageria Section		240	Nil
	<b>Total</b>		76640	2848
<b>2</b>	<b>B) Ghatal (I) Sub-Division</b>			
	i) Dushaspur-I		2000	Nil
	ii) Dushaspur-II		1195	Nil
	iii) Ghatal		2340	Nil
	iv) Ajouria		13900	Nil
	<b>Total</b>		19435	Nil

## E) Hiring of boats & operating, regulating gates and fall boards

- i. Quotation for hiring of boat will be invited and sent to the Division Office within 1<sup>st</sup> June-2018. Work order may be issued as and when situation arises (1 No. boat will be hired at Khanamohan).

## F) Sealing of sluices, unauthorised pipes

Work order for sealing of sluices and unauthorised pipes will be given by the concerned authority within 15.06.2017, (6 Nos. of sluices required to be sealed in TE2H2 embankment).

## G) Flood fighting works

Flood fighting works will be undertaken as and when necessary under prior intimation to The District Magistrate and obtaining permission from higher official of I&W Dte.

In the event of any breach, report will be at once transmitted to Sabhadhipati & Karmadakshya, Paschim Medinipur Zilla Parishad, Block Development Officer of concerned Block & Sub Divisional Officer of concerned Sub Division & Higher officer of I&W Dte. Repair of breach can only be taken with prior permission of Government with written requisition from The District Magistrate and Sabhadhipati to take up such work. UC in connection with issued poly bags to GPs in required from concerned BDOs.

## H) Flood embankments:-

1. Under Lachmapur sub-division:
  - a. TE1H1- 14.50km
  - b. TE2H2- 14km
  - c. TE3H2- 15km
  - d. Kalichandi- 37.52km

## LATEST POSITION OF EMBANKMENTS

The restoration works on the embankments of river Cossye which were severely damaged on flood-2017 has been mostly completed. Some further works are to be taken up & completed before onset of monsoon to bring the whole matter at affordable stage if necessary funds are available.

At Ghatal (I) Sub-Division breached portion of MC & DC embankment has been repaired. Further FPM work will be taken up soon.

I) Name of Embankments under West Midnapore Division:-

### a) Lachmapore Irrigation Sub-Division:-

Sl.No.	Name of River	Name of Embankment	Chain age From .... To	Length
1	Cossye	Phase-I Cossye Left	0.00 Km. to 7.10Km.	7.10Km.
2	Cossye	Phase-II Cossye Left	0.00m. To 17.00km.	17.00km.
3	Cossey	Schedule "D" Cossey Left	0.00m to 1.22 km	1.22 km.
4	Kalaichandi Khal	Kalaichandi Marginal	0.00Km. to 6.10 Km.	12.20Km.
5	New/Old Cossye & New Cossye	TE1H1	0.00Km. to 41.50Km.	41.50Km.
6	Old Cossye	TE2H2	0.00Km. to 14.00Km.	14.00Km.
7	New Cossye	TE3H2	14.00Km. to 29.00Km.	15.00Km.

**Un-Protected Char land adjoining bank of rivers likely to be inundated during ensuing flood season of 2018 (which are not protected by embankments)**

Major Rivers/Channels		Name of G.P. likely to be inundated	Name of Blocks	Approx. Quantum of Vulnerable area (in Hectare)	Remarks if any
Sl no	1	2	3	4	5
1	Kaliaghai	Khursi (270 Ha), Kushbasab (410 Ha), Bakhrabad (80 Ha), Narayangarh (30 Ha)	Narayangarh	790.00	No right embkt between Rajpur to Bakhrabad and above. NO left embkt between Duria to paharpur and beyond Gobindopur
2	Deuli-Kaliaghai	Dashagram (40 Ha), Sarta (80Ha)	Sabang	120.00	No left embkt of Deuli beyond 1.0km and no right embkt beyond 5.0km
3	Kapaleswari – Kaliaghai	Bishnupur	Sabang	575.00	In between Kapaleswari & Kaliaghai No right embkt of Kapaleswari and No left Embkt of Kaliaghai. Popularly known as Salmarar jala

**b) Ghatal Irrigation Subdivision:-**

1	Old Cossye / Kanki / Silabati / Rupnarayan / Palashpai Khal	Chetua Circuit	0.00 Km. to 72.00 Km.	72.00Km.
2	Durbachati (L/S)/Rupnarayan (R/S)/Palashpai Khal(R/S)	Mohankhali Circuit	0.00 Km. to 51.00 Km.	51.00Km.
3	Old Cossye/Durbachati/Bhasra Khal	Dushaspur Circuit	0.00 Km. to 30.00 Km.	30.00Km.

**c) Asui- Dharampur(R/B of river Subarnarekha) - 2.70 km.**

Sizua, Gopiballavpur - 2.70 km.

Kapasias - Mohanala - 0.90 km.

**d) Name of the Sluices:-**

**Under Khanamohan Section:-**

- i) Talbandi Sluice, Ch12.00Km. Of TE2H2,L/B of Cossye.
- ii) Mokarimpur Sluice Ch. 16.00Km of TE3H2.
- iii) Gopalpur Sluice Ch 21.60Km of TE3H2
- iv) Guapat Sluice Ch.23.00 kM. of TE3H2
- iv) Baikunthapur Sluice Ch.2.00 kM of TE2H2 L/B of old Cossye.

**e) Under Anicut Section:-**

- i) Bisripat Sluice.
- ii) Kulda Sluice. (up & down)
- iii) Cherua Sluice (up).
- iv) Cherua Sluice (down) 2 vent.
- v) Birsingpur Sluice.
- vi) Jamkunda Sluice.
- vii) Pathra Sluice.
- viii) Hanshpur Sluice.
- ix) Paikarapur Sluice.

**f) Ghatal Irrigation Sub-Division:-**

- i) One No. Sluice at Goura.
- ii) Total 52 Nos. Sluice at Ghatal Sub-Division.

**g) Borrow Bundh:**

**Ghatal Irrigation Sub-Division:**

There are three nos borrow bundh Kalmijole borrow bundh & Temohani borrow bundh should be removed before onset of monsoon is extremely urgent.

**L) Drainage Channel:-**

- a) Lachmapore Irrigation Sub-Division:-

**Under Khanamohan Section:-**

- a) Rambhadrapur Ch. 12.90 of TE1H1.
- b) Tabageria ch.28.90 of TE1H1
- c) Bhudhas Ch.30.00 of TE1H1
- d) Ghunghuni Ch.30.00 of TE1H1

## **9.2 Action Plan for KALIAGHAI-KAPALESWARI-BAGHAI Project Division under Western Circle -II, I&W DTE. Temathani, Sabong, paschim Medinipur**

The following arrangements have been programmed as **Disaster Management Plan 2018** under Kaliaghai-Kapaleswari-Baghahi Project Division, I & W Dte., Midanapore, Paschim Medinipur. :-

### **1. PREVENTION:**

#### **a) PRE FLOOD INSPECTION REPORT:-**

Pre-Flood Inspection Report prepared by the concerned Sub Divisional Officers under this Division prior to pre-monsoon rainfall and according to that report Pre-Monsoon Works will be taken up and monitored so as to reduce vulnerability first and complete the works in time. Based on this report as well as previous year's experience, vulnerability mapping has been done as follows:-

Name of Embankment	Total Embkt Length (Km)	Weak / Vulnerable Zones (Length/Ch)	Location (Mouza /Block)	Reason of its vulnerability (Slip/Ghoge/ Depression etc.)	Area/population likely to be affected (GP/Block)	Remarks
Kaliaghai Left	33.50	Nil	-	-	-	strengthening & widening has been done from Chaulkuri to Gobindapur
Kaleswari Left	20.00	Nil	-	-	-	
Kapaleswari Right	14.00	Nil	-	-	-	
Ex-Jamindari Embankments						
Deuli Right	5.00	0.10 Km	Chak Safi, Ramchak	Minor Slip, Narrow & week embkt	Dashagram GP/ Sabang	22° 6'15.66"N, 87°32'19.43"E to 22° 6'17.79"N, 87°32'5.60"E work at 2 spot taken up
Deuli Left	1.00	Nil	-	-	-	
Choulkuri Circuit	6.50	1.00Km	Chaulkuri, Eral	Narrow & week embkt	Chaulkuri GP/ Sabang	22° 6'34.29"N, 87°35'34.09"E to 22° 8'8.98"N, 87°34'31.84"E
Kharika Circuit	9.00	0.75 Km	-	Narrow & week embkt	Chaulkuri GP/ Sabang	22° 7'47.26"N, 87°34'35.30"E to 22° 6'24.21"N, 87°35'33.62"E
Kharika Right	2.50	0.25Km	-	Narrow & week embkt	Chaulkuri GP/ Sabang	22° 6'19.42"N, 87°35'18.06"E to 22° 6'55.39"N, 87°34'46.06"E
Amrakhali Right	12.00	Nil	-	-	-	
Amrakhali Left	7.50	Nil	-	-	-	
Kalchiti Right	3.00	2.50Km	-	Minor Slip, Narrow & week embkt	Narayanbar GP/ Sabang	22°10'6.86"N, 87°38'14.38"E to 22° 8'36.18"N, 87°38'23.41"E, work at 4 spot taken up
Kalchiti Left	3.00	3.00Km	Bural	Minor Slip, Narrow & week embkt	Bural GP/ Sabang	
Mirjapur Khal Right	2.50	Nil	-	-	-	
Mirjapur Khal Left	2.50	Nil	-	-	-	
Kalimondap Right	6.70	Nil	-	-	-	
Kalimondap Left	7.00	Nil	-	-	-	
Ganapath Right	8.00	Nil	-	-	-	
Ganapath Left	8.00	Nil	-	-	-	
Banskona Right	5.50	Nil	-	-	-	
Banskona Left	5.50	Nil	-	-	-	
	166.70					

Besides above embankments, two sluice Gates at kamarpota (Bishnupur/Sabang – work cant be done previously due to technically unfeasible demand of local people), Rajpur (Rajpur/Narayangarh – Tender not matured two times) are primarily considered as vulnerable and are to be sealed during high flood.

Apart from the above **Un-protected ‘Char’ land adjoining bank of rivers likely to be inundated during ongoing flood season of 2018 (which are not protected by embankments)** are identified as follows

Major Rivers / Channels		Name of Gram Panchayets likely to be inundated	Name of Blocks	Approximate quantum of vulnerable area (in hectare)	Remarks (if any)
1		2	3	4	5
1	Kapaleswari-Kaliaghai	Bishnupur	Sabang of Paschim Medinipur	575.00	In between Kapaleswari & Kaliaghai. No right embankment of Kapaleswari and no left embankment of Kaliaghai. Popularly known as Salmarar Jala
2	Deuli-Kaliaghai	Dashagram (40 Ha), Sarta (80 Ha)	Sabang of Paschim Medinipur	120.00	No Left Embkt of Deuli beyond 1.0Km and No right embankment beyond 5.0Km
3	Kaliaghai	Khursi (270 Ha) , Kushbasan (410 Ha), Bakhrabad (80 Ha), Narayangarh (30 Ha)	Narayangarh of Paschim Medinipur	790.00	No Right Embkt between Rajpur to Bakhrabad and above, No Left Embkt between Duria to Paharpur and beyond Gobindapur

There is no case of *habitation on ‘Char’ land protected by embankments and likely to be inundated during high discharge through rivers* under the jurisdiction of this Division.

#### **b) REMOVAL OF CROSS BUNDHS & FISHING PATTAS:-**

Cross Bundhs & Fishing Pattas on river bed are a vital part to create obstruction on drainage congestion of the rivers and channels mainly over river Kapaleswari & Kaliaghai at Sabang, Narayanbarh, Dasagram & Gokulpur areas which should be removed within 15<sup>th</sup> June -2017 with the help of Administration and the Department by a joint programme by canvassing the local people and removing those obstruction. Kind Co-operations will be solicited from the local public representatives, B.D.O. of concerned block and administration to overcome the obstruction for the public interest and to avoid the flood situation on flood prone areas.

#### **c) WORKS ON VULNERABLE ZONES:-**

The Embankments under this Division was severely damaged by heavy rainfall during 2017 on the river Kaliaghai, Kapaleswari & other Khals. Most of the repair/protection works taken up during 2017-18 have already been completed. Part of works has to be done after stabilization of deposited soil, like catch water drain and will be completed before monsoon.

Since 2011 i.e. inception of this Division, repair to damages of Ex-Zamindary embankments are not undertaken by the concerned Panchayet authorities. Works of some portions were taken up by the Department in the previous years as per availability of fund considering its vulnerability in Kalchiti, Jarua, Kharika, Chaulkuri Circuit & Deuli Embankments. This year also some slip-repair works undertaken and a few under tender process. All works are likely to be completed before monsoon.

Most of the Sluice gates, about 90 Nos sluices out of total 102, have already been repaired during last 3 years. Couple of sluice gates is yet to be repaired and oiling-greasing of all sluices will be done before monsoon.

14 Nos wooden bridge are to be repaired/reconstructed out of total 62. Other wooden bridges are either reconstructed or repaired within last 2-3 years and in workable condition. To reduce the frequency of repair of wooden bridge, composite bridge technology (i.e. wooden Pile & decking with steel beams) has been introduced since September, 2015.

## 2. Preparedness:

### a) RIVER GAUGE & RAIN GAUGH STATIONS:-

Salient data of River Gauges/Rain Gauge maintained under this Division is as follows

SI No.	Stations	River	P.D.L.(M) G.T.S	D.L.(M) G.T.S	E.D.L.(M) G.T.S
1	Bhakrabad (on Belda Road : 22.129039°N, 87.378866°E)	Kaliaghai	7.95	8.40	8.85
2	Dehati (on Patashpur Road : 22.090389°N, 87.494952°E)	Kaliaghai	5.95	6.55	7.00
3	Narayanbarh (Near Mohinibazar Bridge : 22.131670°N, 87.601270°E)	Kapaleswari	4.72	5.33	5.94
4	Kalimondop (22.160883°N, 87.703484°E)	Kaliaghai	4.40	5.00	5.33

River Gauge Stations are to be maintained by the K.K.B.Project Sub-Division No.- I (Bhakrabad & Dehati ) and K.K.B.Project Sub-Division No.III (Kalimondop & Narayanbarh). Rain Gauge Stations is to be maintained by the K.K.B.Project Sub-Division No. - III under this Division at Sabang.

River & rain Gauge Data will be prepared as per approved format of G.F.C.C. proforma and sent to the Higher Authority daily/weekly.

Weekly flood report is to be submitted by the concerned Sub Divisional Officer (K.K.B.Project Sub-Division No.III) as usual following last year's procedure.

### b) CONTROL ROOM:-

Control Room will be opened on & from 15.06.2017 like every year in the following offices as usual

- K.K.B. Project Division & K.K.B. Project Sub Division No.-I, at Temathani, Sabang (22°13'16.90"N, 87°33'55.22"E), ph. 03222-248005/248114/7602602180
- K.K.B. Project Sub Division No.-II, at Sabang (22°10'36.85"N, 87°35'42.56"E), ph. 03222-249066 /9732874916
- K.K.B. Project Sub Division No.III at Sabang (22°10'48.05"N, 87°35'38.79"E) ph. 03222-249329/9679141434
- 

All the Sub-Divisional Officers will prepare the Roster Duty Chart for control room duty.

### **c) STOCK POSITION OF EMPTY POLY BAGS & NYLON CRATES:**

#### **A. The Stock Position of Poly bags at different stations are as follows:**

- (i) K.K.B. Project Sub Division No.-I, at Temathani office complex (22°13'31.49"N, 87°33'38.73"E)= 15725 nos,
- (ii) K.K.B. Project Sub Division No.-III at Sabang Office Complex (22°10'36.85"N, 87°35'42.56"E) = 22346 nos.

#### **B. The Stock Position of Nylon Crates at different stations as follows:**

- (i) K.K.B. Project Sub Division No.- I at Temathani office complex = 945 nos.
- (ii) K.K.B. Project Sub Division No.-III Sabang Office Complex = 490 nos.

### **d) HIRING OF BOATS & OPERATING REGULATOR GATES AND FALL BOARDS:-**

Decision for Hiring of boat will be taken as and when situation demands.

Generally sluice gates are operated by the local farmers / Panchayet functionaries as per their requirement throughout the year. So, decision for engagement for operating regulator gates and guarding & operation of Fall Boards will be taken as and when situation arises.

### **e) Collection of Information of event and response:-**

People of the locality and Panchayet Functionaries are generally main source of information during crisis period for the vast jurisdiction consisting of 166Km embankment, 102 Nos Sluice & 62 Nos Wooden Bridge. Communication Nos of control room for the respective area are available to the concern people of the locality. Besides, frequent visit of vulnerable zones are also been made by concerned Sub-Divisional staffs. As soon as information received it was attended for evaluation of its severity and taken up remedial reassures accordingly. Basically two types of events are to attend, firstly leakage through sluice gate and other is slip/slide/ghoge in embankment. **But main problem in time of crisis is found to be false or truly speaking exaggerated report of happening.**

## **3. Relief**

### **a) FLOOD FIGHTING WORKS:-**

Flood fighting works will be undertaken as and when necessary under prior intimation to District Magistrate after obtaining permission from the Higher Authority of the I & W Dte.

In the event of any breach, report will be at once transmitted to Sabhaddhipati & Karmadakshya, Paschim Medinipur Zilla Parishad & Purba Medinipur Zilla Parishad, Block Development Officer of concerned Block & Sub Divisional Officer of concerned Sub Division & Higher Authority of I & W Dte. Repair works will only be taken up with prior permission of the Higher Authority of the I. & W. Dte. and with written requisition from District Magistrate and Sabhaddhipati of concerned Area to take up such work.

Materials for Flood Fighting works i.e. Poly bags, Nylone Crate will be supplied from Stock kept in two vital position of entire jurisdiction i.e. at Sabang Godown & at Dehati Camp Office and if situation arises, further procurement will also initiated.

#### 4. Recovery

The restoration works on the embankments, Inspection Path, Sluice, Bridge of river Kaliaghai, Kapaleswari and other Khals which will be damaged will be taken up case basis either during monsoon or after monsoon.

### 9.3 Action Plan for FOOD & SUPPLIES DEPARTMENT

Rolling reserve the stock of Rice will be build up at the Godowns of MR Distributors in the flood prone areas of the District.

#### Rolling reserve a stock of Rice:-

To build up rolling reserved stock of Rice (Procured Rice-Common boiled) at the Godowns of M.R. Distributors in the flood prone areas of the District.

The said Rice will be handed over to the S.D.O.s / B.D.O.s as and when necessary subject to its replenishment forthwith by special G.R. Rice of the same variety.

#### Reserve a stock of K. Oil: -

To build rolling reserve stock of K. Oil @ 5 K.L. / K. Oil Agent in the vulnerable pockets of this District.

The said reserved stock will be made available out of normal monthly quota by adjusting scale of distribution if necessary in consultation with the S.D.O.s. Necessary instruction to this effect will be issued to the Sub-Divisional Controllers.

#### Kharagpur Sub-Division

Sl. No.	Name of the Agent	Address
1.	M/s. C.R. Das	Vill. + P.O. - Lutunia, P.S. Sabang.
2.	National Oil Agency	Vill. + P.O. - Balichak, P.S. - Debra.
3.	Maa Saradamoyee Kerosene Agency	Vill. - Barisha, P.O.- Bhonabarh.
4.	Keshiary Oil Agency	Vill. + P.O. - Keshiary.
5.	Bharat Oil Agency	Vill. - Chaulia, P.O.- Dantan.
6.	Sweshi Highway Centre	Vill. - Rupnarayanpur, P.O.-Kharagpur.
7.	Jitendra Oil Company	P.O. - Inda, Kharagpur.
8.	Master Engineering Works	At - Golebazar, Kharagpur.
9.	Popular Trading Company	Vill. - Daulatchak, P.O.-Mathbishnupur, P.S.-Debra.
10.	Jain Traders	At - Golebazar, Kharagpur.
<b>Midnapur Sadar Sub-Division</b>		
11.	M.S. G.C. Kundu	At - Tanteheria, P.O.-Midnapur, P.S.-Kotwali.
12.	Jitendra Oil Company	At- Rangamati, P.O.- Midnapur.
13.	Master Engineering Works	At - Tanteheria, P.O.-Midnapur, P.S.-Kotwali.
14.	United Service Station	At- Chandrakona Road, P.O.- Satbankua, P.S.-Garbeta.
15.	Debjani Kerosin Oil Company	At + P.O. - Keshpur, P.S.- Keshpur.
16.	M.N. Kar	Vill. + P.O. - Amlagora, P.S.-Garbeta.
17.	Master Engineering Works	At - Baradabcha, P.O. Satbankura, P.S.-Garbeta.
<b>Ghatal Sub-Division</b>		
18.	Central Trading Co.	At + P.O. - Ghatal, P.S.-Ghatal

19.	Master Engineering Works	At. + P.O.- Khirpai, P.S.-Chandrakona.
20.	Annapurna Oil Co.	At. + P.O.- Khirpai, P.S.-Chandrakona.
21.	Sangita Oil Co.	At + P.O. - Chandrakona, P.S.-Chandrakona.
22.	Satyanarayan Stores	P.O.-Doodhkomrahat, P.S.-Daspur.
23.	Daspur Co-operative A.M.S. Ltd.	Vill.- Chenchura-Govindanagar, P.O.-Sekendari.
24.	B.T. Hazra	Vill. + P.O. – Ghatal, P.S. - Ghatal.

### **Stock of foodgrains (Rice) in Govt. Godowns (Own and Hired):-**

Government Food Depots at Balichak, Belda, C.K. Road & Midnapur will have enough stock for providing in case of necessity.

Present stock position of procured Rice (common-boiled) in the said Godowns including 1 (one) Hired Private Godowns at Amrakuchi, Midnapur is about 9161 M.T. as shown below.

Sl. No.	Name of the Godown	Stock Position (in M.T.)
1.	Midnapur GFD	1504
2.	M.B. Agrovet Firm Hired Godown	2204
3.	Balichak GFD	551
4.	Belda GFD-1	20
5.	Belda GFD-2	151
6.	Belda CWC	729
7.	C.K. Road GFD	235
8.	C.K. Road CWC (PEG)	2090
9.	Garhbeta-I Krishak Bazar, Dhobaberia	762
10.	Pingla Krishak Bazar	915
<b>Total:</b>		<b>9161</b>

### **9.4 Action Plan for SUPERINTENDENT OF POLICE, Paschim Medinipur**

A) A District Police Disaster Management Group may be formed comprising :

- i) Addl. Supdt. of Police (HQ), Paschim Medinipur as Nodal Officer
  - ii) All Zonal Dy.SsP, Paschim Medinipur
  - iii) All CIs of Paschim Medinipur
  - iv) All ICs/OCs of Paschim Medinipur
  - v) OC Control Room, Paschim Medinipur
  - vi) RI, Paschim Medinipur
  - vii) MTO, Paschim Medinipur
- B) ICs and OCs in co-ordination with BDMO, BDO will collect prior intelligence on probable disaster and cater the same to all zonal superiors and OC Control Room.
- C) After commission of disaster ICs/OCs of PSs shall take part in rescue operation in consultation with respective BDOs with available force and officers.
- D) ICs/OCs after consulting with zonal superiors and examining the gravity of disaster shall open a Control Room in the disaster affected places.
- E) Such Control Room shall have all facilities as per standard rule.
- F) Control Room shall have a GD Book for recording grievance and annals of loss of property of disaster affected people.
- G) Escort for food and other relief materials shall be provided by the respective ICs/OCs whenever sought for.
- H) Security to relief camp shall be provided by ICs/OCs whenever sought for.
- I) RI, Paschim Medinipur shall provide additional force and officer.
- J) MTO, Paschim Medinipur shall provide vehicle for movement of force and officer and escort of vehicle carrying relief materials.
- K) OC Control Room shall cater all information to all concerned.

- L) CIs shall personally supervise all activities of PSs regarding rescue operation, ensure that no untoward incident takes place at the time of distributing relief materials and ensure security of relief camp.
- M) Six (06) Teams to be formed for implementation the Disaster Management Plan of Police in combating against Flood / Cyclone :

**Team One**

To be placed at the PO for conducting of tasks relating to rescuing, shifting of injured persons to the hospitals and safe places.

**Team Two**

Will be placed at the place of shelter for the affected people and will be entrusted with the duty of looking after the servicing of food, drinking water and medicines to the rescued persons.

**Team Three**

To be placed at hospitals/health units etc. where injured to be shifted and ensure proper medical treatment of the injured persons.

**Team Four**

Will be engaged in sharing information through constant communication with the public from Special Control Room and venue.

**Team Five**

Will assist Team One and will ensure smooth and safe evacuation of the trapped flood/ cyclone affected people of the venue of the mass gathering.

**Team Six**

To be placed on District Headquarter to maintain liaison with various agencies. It will also keep liaison with the NGOs willing to provide voluntary service in such emergency situation and issue direction to them to act according to the plan and policy of the District Disaster Management Team of Police.

## **S.O.P ON DROWNING OF VEHICLE**

1. OC of respective police jurisdiction shall inform District Disaster Management Officer (to send diver), District Control Room and Nodal Officer of the District (Addl. SP (HQ) and rush to the PO instantly.
2. OC Control Room shall inform all adjoining PSs to remain alert.
3. OC of respective police unit will cordon the place of occurrence and prevent onlookers, relatives of injured persons, media personnel from entering into place of occurrence and causing hindrance to rescue operation.
4. OC shall conduct operation in search of injured persons and dead bodies.
5. OC Control Room shall alert all nearest hospitals including Midnapore Medical College & Hospital to remain ready with life saving equipments.
6. Crane, Gas Cutter and other equipments to lift the drowning vehicle to be called.
7. Four teams to be formed for
  - a) Team – 1 to be placed at the PO for conducting all tasks relating to rescuing, shifting of injured persons to the hospital, searching etc.
  - b) Team – 2 to be placed at the hospital (where injured were shifted) to look after the injured persons
  - c) Team – 3 to be placed at District Control Room to cater various information
  - d) Team – 4 to be placed at District Headquarters to maintain liaison with various agencies.
8. Injured persons to be shifted to nearest hospital with facilities of caring drowning injuries quickly.

9. Nodal Officer of the district (Addl. SP (HQ), Paschim Medinipur shall inform to Disaster Management Group, 13<sup>th</sup> Bn. Barjora, Bankura for necessary action.
10. OC of respective Police Station shall canvass with the assistance of Public Alert System to prevent spreading rumour.
11. Forensic Team to be called to collect evidence from the place of occurrence.
12. On reaching of Disaster Management Group entire operation shall have to be handed over to them and necessary assistance, support to be provided whenever asked for.

## **S.O.P ON FIRE FIGHTING**

1. OC of respective police jurisdiction shall inform Fire Fighting Agency, District Control Room and Nodal Officer of the District (Addl. SP (HQ) and rush to the PO instantly. He will alert all other members of the Disaster Management Team and will supervise the rescue operation. He will be responsible in sending an expert rescue team along with fire brigade to the place of occurrence and at the same time will activate all the units in sub-divisional and PS level District Management Team.
2. OC Control Room shall inform all adjoining PSs to remain alert.
3. OC of respective police unit will cordon the place of occurrence and prevent onlookers, relatives of injured persons, media personnel from entering into place of occurrence and causing hindrance to rescue operation.
4. OC shall conduct operation in search of injured persons and dead bodies.
5. OC Control Room shall alert all nearest hospitals including Midnapore Medical College & Hospital to remain ready with life saving equipments.
6. Four teams to be formed for
  - i) Team – 1 to be placed at the PO for conducting all tasks relating to rescuing, shifting of injured persons to the hospital, searching etc.
  - ii) Team – 2 to be placed at the hospital (where injured were shifted) to look after the injured persons.
  - iii) Team – 3 to be placed at District Control Room to cater various informations.
  - iv) Team – 4 to be placed at District Headquarters to maintain liaison with various agencies.
7. Injured persons to be shifted to nearest hospital with facilities of caring burnt injuries quickly.
8. Nodal Officer of the district (Addl. SP (HQ), Paschim Medinipur shall inform to Disaster Management Group, 13<sup>th</sup> Bn. Barjora, Bankura for necessary action.
9. OC of respective Police Station shall canvass with the assistance of Public Alert System to prevent spreading rumour.
10. Dog Squad to be called for rescue of injured persons and dead bodies.
11. Forensic Team to be called to collect evidence from the place of occurrence.
12. On reaching of Disaster Management Group entire operation shall have to be handed over to them and necessary assistance, support to be provided whenever asked for.

## **S.O.P ON COMBATING DISASTER IN THE VENUE OF MASS GATHERING**

1. OC/IC of respective PS under which jurisdiction the disaster took place shall immediately inform the Disaster Management Officer of Police as well as alert District Control Room and Nodal Officer of the district and seek for necessary reinforcement.

2. The Chief Supervisory Officer, who is in-charge of the venue will at once sensitize all the other subordinate officers in all ranks under him to pass on the necessary information to the ground level officers so that communication should reach to the top of the District Police Administration and at the same time all the field level officers and police personnel deployed in the venue. All of them should be well aware of the disaster and take necessary action according to the 'Master Plan' which will be evolved by the District Disaster Management Team of Police considering the emergency of the situation. The officers and police personnel in the venue of disaster should implement the 'Action Plan' so far as the work of the crowd choked up in a place of mass gathering is concerned.
3. The trespassed crowd should be channelized through ongoing ways only and at the same time emergency 'Entry & Exit' points should be made open for easy dispersion of crowd.
4. District Disaster Management Team of Police should communicate Health Department, Fire Department and other emergency services for their additional reinforcement in the disaster affected venue as early as possible.
5. The District Disaster Management Team of Police should contact with the Civil Defence Team and ask them to rush to the spot on emergency basis.
6. The Nodal Officer of Traffic, i.e. Dy. Supdt. of Police (Traffic), Paschim Medinipur will take initiative in making adequate traffic management in an around the vicinity of the disaster affected venue for smooth and early evacuation of the dispersed crowd from venue to safe place.
7. Dy. Supdt. of Police (Traffic), Paschim Medinipur in consultation with concerned RTA will also arrange for additional public conveyance adjacent to the venue.
8. District Disaster Management Team of Police will immediately contact with the top level District Civil Administration and ensure the safe shelter of the dispersed crowd in the place of evacuation which should be kept ready with food, drinking water and medical facilities.
9. Nodal Officer of the district i.e. Addl. Supdt. of Police (HQ), Paschim Medinipur will direct all the senior supervisory officers in the rank of Dy. Supdts. of Police and Inspectors to move to the place along with adequate officers and force under their administrative jurisdiction.
10. A Sub-Control Room should be opened on 24 hours basis with the facilities of public address system for making constant communication with the panicked members of the crowd in the venue. This group will also ascertain so that unnecessarily no rumour can be spread to arouse panic among the masses.
11. OC/IC of the concerned PS will take the responsibility to display the Bus/Train Time Table at important locations of the town/city nearby the venue.
12. Up-to-date train running, specially the trains running late, can be displayed at appropriate locations to avoid crowd of the railway stations.
13. Senior officers deployed in the venue should ensure that 'Entry & Exit' points should not be blocked in any way as sometimes information seekers often use to assemble the 'Entry/Exit' points and eventually block the movement of the other visitors.
14. RI, Paschim Medinipur will mobilize adequate officers and force to the affected place from District Police Lines as well as from other units of the district.
15. MTO, Paschim Medinipur will provide adequate number of vehicles required for mobilization of the officers and force.
16. Forensic Team to be called to collect evidence from the place of occurrence.
17. Nodal Officer of the district, i.e. Addl. Supdt. of Police (HQ), Paschim Medinipur shall inform to Disaster Management Group, 13<sup>th</sup> Bn. Barjora, Bankura for necessary action.
18. Four teams to be formed for
  - e) Team – 1 to be placed at the PO for conducting all tasks relating to rescuing, shifting of injured persons to the hospital, searching etc.
  - f) Team – 2 to be placed at the hospital (where injured were shifted) to look after the injured persons.
  - g) Team – 3 to be placed at District Control Room to cater various information
  - h) Team – 4 to be placed at District Headquarters to maintain liaison with various agencies.

## 9.5 Action Plan for FPI & HORTICULTURE DEPARTMENT

Paschim Medinipur District is rich in Horticultural crops. All types of Horticultural crop are grown in this district. Product of Horticulture is prime source of our food chain and this district produces most of the crops like-Vegetables mainly grown in Garghbeta-I, II & III, Daspur-I & II, Kharagpur-I, Salboni, Keshpur & Keshiary Block, Flowers- mainly grown in Debra, Daspur-I & II, Khargpur-I & II, Sabang, Pingla, Narayangarh, Fruits- mainly grown in Garhbeta-I, Garhbeta-II, Garhbeta-III, Kharagpur-II etc. Spices- most of the block of this district, Cashewnut in Garghbeta-I, II & III, Salboni etc.

Paschim Medinipur District ranks 1<sup>st</sup> position in Cashewnut Production in this state. Betel vine is another economical crop in this district.

Vegetables and Flowers are remunerative crop and cultivation of these crops helps up-liftment of economic status in a short period. So, Horticultural planning is made in such a way by which the adverse situation affected by flood and drought can be combated.

### **To overcome the adverse effect of Flood:**

1. Seed showing of leafy vegetable for immediate harvesting like- Amaranthus, Palak, Radish, coriander, Methi etc.
2. Other short duration direct showing crops like Cowpea, Ridge Gourd, Pumpkin, Cucumber, Bottle Gourd etc. are suitable after flood.
3. In heavy flood affected saline area Beet Root, Ridge Gourd and Beans crops are suitable for cultivation.
4. After flood clay deposited soil are suitable for vegetable cultivation and deposited sand will be removed by means of manually or mechanically.

### **To overcome the adverse effect of Drought:**

1. Digging of water Harvesting Structure like Ponds, Tube well and other irrigation sources.
2. Inspiring for installation of drip irrigation for all horticultural crops.
3. Plantation of Dry land Horticultural Crop like-Cashew, Ber etc.
4. Providing mulching to the base of the crop by means of organic or inorganic.

### **Action to be taken by the farmers in Flood:**

1. Crops are grown in furrow and ridge bed method.
2. Well drainage system throughout the plot.
3. Seedling production in raise bed protected by polythene for rain water.
4. After flood immediate application of fungicide to the crop.
5. Seeds are sowing in line in nursery and maintain proper spacing to avoid rotting of the crop.
6. In saline belt only use saline resistant crop like-Beet Root, Ridge gourd, Beans, Cowpea etc.

### **Action to be taken by the farmers in Drought:**

1. Planning for less water requirement crop.
2. Planting of crop with enough organic matter with poly mulching.
3. Sprinkler or Drip irrigation method is most suitable for drought prone area.
4. In drought prone area shade nets are beneficial for vegetable and flower production.

**Measure to be taken by F.P.I. & Horticulture Department in Flood:****1. Distribution of Vegetable Seed Kit:****KIT-I:**

SL No.	Name of the Vegetable Seeds	Quantity
1	Amaranthus	100g
2	Beans	500 g
3	Brinjal	10 g
4	Beet	250g
5	Knolkhol	50 g
6	Carbendazim	250 g
7	Neem based Insecticide	250 ml

**KIT-II:**

SL No.	Name of the Vegetable Seeds	Quantity
1	Coriander	100g
2	Carrot	50 g
3	Brinjal	10 g
4	Radish	50g
5	Okra	100 g
6	Carbendazim	250 g
7	Neem based Insecticide	250 g

**2. Distribution of Flower Kit:****KIT-III:**

SL No.	Name of the Ingredient	Quantity
1	Neem Cake	10 kg
2	Difenokonazole+ Azoxystrobin	100 ml
3	Biological Insecticide	1 kit

**3. Distribution of Betel vine Kit:****KIT-IV:**

SL No.	Name of the Ingredient	Quantity
1	Neem Cake	10 kg
2	Carbendazim + Mancozeb	250 g
3	Neem based Insecticide	250 ml

**Total nos. kit:**

SL No.	Name of crop	Quantity
1	Vegetable	40,000 nos. kit
2	Flower	10,000 nos. kit
3	Betel vine	3,000 nos. kit

## 9.6 ACTION PLAN OF HEALTH DEPARTMENT

## 9.7 Action Plan for PUBLIC HEALTH ENGINEERING (CIVIL & MECHANICAL DIVISION)

The following measures are used to be taken by p.h.e.d. (civil & mechanical) in the district of paschim medinipur in the light of disaster management for the ensuing flood if required.

1) There is a mobile treatment unit (m.t.u.) (having capacity to produce 350 ml. And 500 ml. Water pouches @ 4000 nos. Per hour) under control of the executive engineer, midnapore mechanical division, phe dte. Where from water pouches can be supplied as per requirement throughout this district at flood affected areas in consultation with district administration.

2) Sinking of new India mark-ii tube wells at different flood affected areas are to taken up.

3) Repairing of tube wells in flood affected areas are to be taken up in exigency case as because usually it is taken up from block concerned.

4) Disinfection of tube wells in flood affected areas after receding of flood water in consultation with the concerned b.d.o. and the s.d.o. is to be made.

5) Restoration work of damaged / washed out pipelines of existing pipe water supply schemes (in case of flood) is to be taken up.

6) Supply of water by truck / vehicle mounted water tank at different vulnerable areas as desired by district Administration is to be taken up.

7) Opening of control room at divisional headquarter as per direction of departmental higher authority is to be taken up.

In this regard, active participation is followed by these liaison officers in this district as well as sub-divisional headquarters. The name of officials along with mobile no. Are as under:

Name & address of office	Name of liaison officials
A) district headquarter / midnapore sadar sub-division Narampur phe complex (ground floor), saratpally, midnapore, paschim medinipur, pin. – 721101.	I) sri sib sundar chakraborty, assistant engineer, Midnapore sadar sub-division, phe dte. mobile no. 9007707299
	Ii) sri chandan sharma, assistant engineer, Headquarter, midnapore division, phe dte. mobile no. 8967328632
	Iii) Md. Abid, junior engineer, Midnapore sadar sub-division, phe dte. mobile no. 9434119345
B) ghatal sub-division konnagarh, ghatal, paschim medinipur.	Sri ashutosh das, assistant engineer, Ghatal sub-division, phe dte. mobile no. 9433487686
	Ii) sri sujit kumar maity, junior engineer, Ghatal sub-division, phe dte. mobile no. 9732597683
C) kharagpur sub-division Inda, kharagpur, paschim medinipur.	Sri shyamal kumar barik, assistant engineer, kharagpur sub-division, phe dte. mobile no. 9800809163
	Ii) sri biswadip bhattacharya, junior engineer, Kharagpur sub-division, phe dte. mobile no. 9434128453

## 9.8 Action Plan for ANIMAL RESOURCE DEVELOPMENT DEPARTMENT

### A) IDENTIFICATION OF AREA.

On the basis of past experience and geographical location as many as 21 nos block, in four Sectors have been identified as flood prone areas and 8 blocks as draught prone area in Paschim Medinipur.

#### FLOOD PRONE AREA:

##### Midnapur (Sub-Division)

Midnapur Sector : 1) Midnapur (Sadar), 2) Keshpur, 3) Garhbeta-I, 4) Salboni, 5) Garheta-II, 6) Garhbeta-III.

##### Kharagpur (Sub Division)

Debra Sector: 1) Debra, 2) Pingla, 3) Sabong, 4) Kharagpur-II

Narayangarh Sector: 1) Narayangarh, 2) Dantan-I, 3) Keshiary, 4) Kharagpur-I, 5) Mohanpur, 6) Dantan-II

##### Ghatal (Sub Division)

Ghatal Sector : 1) Ghatal, 2) Chandrakona-I, 3) Chandrakona-II 4) Daspur-I, 5) Daspur-II.

### B) CONTROL ROOM

Like previous year, disaster control room will be set up in different levels, the District Head Quarter, Sector and Block Head Quarters. The control room will be opened when required/as per instruction of district authority.

The following officers will remain In-Charge of the control room at different levels.

<b><u>DISTRICT CONTROL ROOM</u></b>	
IN-CHARGE	Dr. Tushar Kanti Samanta, Deputy Director, ARD & PO, Paschim Medinipur Phone No. 275729/275951(03222)/9331275535/9433117020
DISTRICT CONTROL TEAM	1) Dr. Debrup Roy, District Veterinary Officer, Paschim Medinipur Mob: 8101914575/9474634087
	2) Dr. Bidhan Ch. Bala, Asst. Director, ARD (DI), Paschim Medinipur. Mob: 8101914574/8617417798
	3) Dr. Susanta Kr. Manna, Asst. Director, ARD(Vety) Central Medical Store Mob: 9434209258
	4) Dr. Kushal Das, DEO, PBGSBS, Midnapur Mob: 9331275553 / 9434507331
	5) Sri Amitava Chakraborty AD(Admin) 9477177875
	6) Dr Tarani Kanta Bera, ASL (HQ), Mob: 9732418110
	7) Sri Mukul Tudu, Peon, Mob -9679801234
	8) Sri Sudip Barui, Peon Mob-9933975571

<b><u>SECTOR CONTROL MIDNAPUR SECTOR</u></b>	
IN-CHARGE	Dr. Sahadeb Sahoo Veterinary Officer, SAHC, Midnapur, Mob: 9474179367
Sector Team At. S.A.H.C. Midnapur Paschim Medinipur	1) Sri Kamal Bera, Vety. Pharmacist ,SAHC, Midnapur, Mob: 9932547711
	2) Sri Tarak nath Das, Gr-D, at SAHC, Midnapur Sadar
	3) Sri Kishore Kr. Ghosh, Lab. Attendant AD(DI)Midnapur Mob 9674620625
<b><u>SECTOR CONTROL DEBRA SECTOR</u></b>	
IN-CHARGE	Dr. Santidev Bishyai, Veterinary Officer, SAHC, Kharagpur, Mob: 9434241898

Sector Team At. Office of the BLDO, Debra Paschim Medinipur	1) Mr Narayan Chandra Mukherjee, Asst. Director, ARD (Small Animal), Paschim Medinipur. Mob: 9434691328
	2) Sri Ranjit Kr. Kanthal, Vety. Pharmacist, BAHC, Debra Mob: 9434156601
	3) Sri Durbadal Jana, Peon, BLDO, Debra, Mob-9735375220
<b>SECTOR CONTROL NARAYANGARH SECTOR</b>	
IN-CHARGE	Dr. Satyendranath Das, Asst. Director, RD (VR&I), P.D.D.Lab. Garhbeta Mob: 9733034233
Sector Team At. Office of the BLDO, Narayangarh Paschim Medinipur	1) Dr. Susmita Gon, Veterinary Officer, SAHC Belda Mob: 9474406183
	2) Sri Punyabrata Bal, Vety. Pharmacist, SAHC, Belda, Mob: 8436828434
	3) Sri Santosh Gon, Veterinary Officer, SAHC Belda, Mob: 8436828434
<b>SECTOR CONTROL GHATAL SECTOR</b>	
IN-CHARGE	Dr. Sujit Kumar Patra, Veterinary Officer, SAHC, Ghatal, Paschim Medinipur. Mob: 9932235047
Sector Team At. Office of the SAHC Ghatal Paschim Medinipur	1) Dr. Dulal Ch. Ghosh, Veterinary Officer, SAHC, Gopiganj. Mob: 9434976038
	2) Sri Tushar Ranjan Adhikary, Vety. Pharmacist, Mob: 9474424125
	3) Sri Krishna Chandra Singha Roy Group D, SAHC Ghatal Mob-8967097382
<b>BLOCK CONTROL ROOM (OFFICE OF THE RESPECTIVE BLDO)</b>	
IN-CHARGE	Respective BLDO
Block Team At. Office of the Respective BLDOs of Paschim Medinipur	Respective Veterinary Officer of BAHC and ABAHC, LDA & Prani Bandhu and Prani Mitra at Gram Panchayet level will Assist the Block Livestock Dev. Officer.

The District level control team will keep an adequate stock of vaccines and medicines and effect supply of those materials to the flood/draught prone Block immediately after declaration. Advance vaccination will be done in the endemic zone only of flood prone area. The team will arrange for quick diagnosis and effecting control measures against epidemic in affected areas. The team will be responsible for collection compilation and submission of daily/weekly report of the flood affected area to the District Head Qtrs.

The officer-in-Charge of respective sector will supervise the Vety. Relief work and maintain liaison with the sub-Divisional Officer and District Control Room.

The Block Control Team under the supervision of BLDO will render Vety. Aid and Relief measures to the affected areas with the consultation with the Panchayet Authorities and submit daily/weekly report to the sector-in-Charge for onwards transmission to the District Control room through the sector-in-charge. They will assess the actual loss of Livestock and requirement of Feed and fodder, medicines and vaccines and personnel if required and incorporate the sum the daily/weekly report for arranging supply from District Head Quarters.

Above mentioned Officers and staff attached to the Units directly, related to the Vet. Reliefs like SAHC/CMS/Laboratory are requested not to leave their Head quarters without prior permission of the undersigned at the onset of any natural calamities.

Necessary paddy straw will be procured from Block Seed Farms of Agril. Directorate. Green Fodder will be available from composite State Animal Husbandry Farm, Salboni. Required concentrate feed will be procured from EPIC Feed Plant, Salboni after getting fund from this Directorate and necessary approval from District Magistrate, Paschim Medinipur. Sufficient vaccines and medicines are in the stock of the District.

## INFORMATION REGARDING PREPAREDNESS FOR FLOOD, CYCLONE ETC 2018 OF ANIMAL RESOURCES DEVELOPMENT DEPARTMENT OF PASCHIM MEDINIPUR

### 1. Animal Population with categories (As per 19 th Livestock Census )

Cattle	Buffalo	Sheep	Goat	Pig	Backyard & Organized Poultry	Duck
1779591	38992	33585	894473	84894	4376193	387634

### 2. Dealer of Feeds/Fodder

**Feeds:** EPIC West Bengal Dairy, & Poultry Dev. Corp., Salboni Feed Plant, Salboni, Paschim Medinipur.

**Fodder:** Composite State Animal Husbandry Farm, Salboni, Paschim Medinipur. Ph. No. 03227-285257

- |                                    |   |
|------------------------------------|---|
| 3) List of Cow Sheds :             | Not available   |
| 4) Site camps with volunteers:     | There are no volunteers for site camp.  |
| 5) Programme for mass vaccination: | Sufficient vaccine available with the BLDO of the respective blocks.<br>Programmes for vaccination will be taken within short notice. |

- 6) Train the taskforce in respect of : Block Livestock Dev. Officer, Vety Officer, use of Medicine Pharmacist, LDAs & Prani bandhus and Prani. Mitras are there who are trained on use of medicine. So there is no necessity for further training of the taskforce in respect of use of medicine. District level, Sector level and Block level team were already formed in respect of animal health coverage.
- 7) Disposal of carcass : Engagement of team of Civil defense/Organization/Panchayat bodies/Doom may be done with the financial support from the general Administration & technical guidance of ARD deptt.
- 8) Possible problems related to different hazards (Bottlenecks)
- i) The Block Livestock Dev. Officer, (the Head of the department of the block/ DDO) has no bank account.
  - ii) The maximum post of Livestock Dev. Assistant (the GP level employee), UDC, LDC, Vety. Field Supervisor & Vety. Pharmacist under Block Livestock Dev. Officer are lying vacant

## 9.9 Action Plan for AGRICULTURE DEPARTMENT

Paschim Medinipur District is located in the southern part of West Bengal between 22°57'10" and 21°36'35" North latitude and between 88°12'40" and 86°33'50" East longitude. The geographical area of the District is 611694 ha. It is bounded by Bankura District in Northern side; Hooghly and Howrah in the North-Eastern side, Purba Medinipur District in the Eastern & South-Eastern side, and newly emerged Jhargram District in the Western and Southern side.

The District comprises of 3 Sub-divisions – Medinipur Sadar (6 Blocks), Kharagpur (10 Blocks), & Ghatal (5 Blocks). More than 75 % of the total population lives in rural areas of the District & Economy depends on Integrated Agriculture & small scale industries.

The District possesses diversified ecosystem having different vegetation, Soil types, Climatology & Geomorphology. The important rivers like the Kangsabati, the Silabati, the Subarnarekha, the Dulang, the Tamal, the Darakeswar the Keleghai & their tributaries flow through the District & enrich the cropping system by depositing fertile loam or sandy loam Soil during rainy season.

The major crops grown in the District are Aus, Aman & Boro paddy, Wheat, Potato, Mustard, Til, Groundnut, Vegetables, Pulses, Watermelon, Maize, Sugarcane, Jute, Betel leaves & Matstick etc.

Net cropped area of the District is about 426760 ha. Gross cropped area 825871 ha having 193.52 % cropping intensity. The District faces heavy rainfall, hailstorm, both flood & drought and sometimes one is followed by another in a same year. Ghatal and part of Kharagpur sub-division have flood prone areas of about 142647 ha. As well as Medinipur Sadar sub-division and part of Kharagpur sub-division have drought prone area of about 107093 ha. The Long Term Average rainfall of last 31 years is 1525.1 mm but it is the experience of the people that the District faces scattered & uneven distribution of rainfall almost in every year & the monsoon showers come always in late.

Disaster Management is a strategy which is implemented when any types of catastrophic event takes place. The Disaster Management plans in Agricultural sector means the contingent crop planning in Kharif crops during Kharif season to meet the unforeseen contingencies like flood, drought etc. during the growing season of crops.

Agriculture largely depends on nature & contingent crop planning is an integral part of agricultural production planning. The objective of the contingency crop planning is to provide ways & means to tackle the situation due to flood or drought or any other natural calamity.

To combat the situation whatever it may arise due to flood or drought the following action plan is to be adopted:

## **To overcome the adverse effect of Flood**

Actions to be taken by farmers:

1. Staggered sowing of paddy seed in seed bed at 10 days interval.
2. A place of higher elevation to be chosen for raised seed bed.
3. To reduce the detrimental effect of sand deposition in cultivated land, sufficient organic matter is to be applied.
4. If sand deposition is high, it is to be removed manually or mechanically.
5. Where there is no time for rice cultivation-
  - a) Kalai (Variety-Sarada, Goutam, Sulata etc.) may be grown in the post-Kharif season.
  - b) Toria, yellow sarson, lentil, gram, mustard & sunflower etc. may be grown early in the Rabi season.

## **To overcome the adverse effect of Drought**

A. Actions to be taken by the departmental officers –

- a) Joint monitoring by District level officers of the department of Agriculture, Irrigation & Waterways and WRI&D to be done to look into the real situation and to find out the ways for supplying Irrigation water from all Irrigation sources and ensuring it at grass root level in the blocks.
- b) Water harvesting structures like pond, dugwell etc. to be excavated for storing rain water by various departments.

B. Actions to be taken by the farmers:

- a) For harvesting rain or runoff water, earthen bunds are to be constructed around the individual plot.
- b) Application of organic manure to increase the water holding capacity of the soil.
- c) Community nursery seed bed of rice is to be done near a water source at least a month before normal seed bed preparation.
- d) Staggered sowing of rice seed in seed bed at 10 days interval.
- e) Closer spacing with higher number of seedlings per hill are to be practiced.
- f) Direct seeding of rice through zero/minimal tillage machine.
- g) Cultivation of arhar, blackgram, groundnut & maize or mixed cropping of maize & arhar in high lands.
- h) Mechanical weeding in rice field & use the uprooted biomass of weeds as soil mulch or use other mulching materials like straw in rice field.
- i) Not to apply Nitrogenous fertilizer in the soil to restrict weed growth. Foliar spray of Urea or DAP @ 1-2% may be applied at critical growth stages of the crop.

## **Measures to be taken by the Agriculture department through Govt. schemes:**

**A. Paddy minikit – short to medium duration paddy varieties are to be distributed with free of cost.**

1. Aman Paddy minikit – 200000 nos. at 10kg-----4000 ha area under seed bed/ 40000 ha area under transplanting.
2. Boro paddy minikit – 200000 nos at 10kg-----4000 ha area under seed bed/ 40000 ha area under transplanting.

**B. Fertiliser minikit:**

1. For Aman paddy minikit – 200000 nos. at 10kg NPK 10:26:26
2. For Boro paddy minikit - 200000 nos. at 10kg NPK 10:26:26

**C. Seed treating chemical(Like Bavistin/Tricyclazole/Mancozeb etc. fungicide)**

1. For Aman Season – 200000 nos. chemical kit at 100gm.
2. For Boroseason - 200000 nos.chemical kit at 100gm.

**D. Insecticide to control pest:**

1. For Aman Season – 200000 nos. chemical kit at 100gm. Or 100ml
2. For Boro season - 200000 nos.chemical kit at 100gm. Or 100ml

**E. Growth regulator:**

200000 unit - n-Tricentanol at 100ml. each. - 40000ha

**F. Paddy Seed bed to be grown in Govt. Farms (Kharif) that are to be distributed free of cost in case of natural disaster.**

Sl. No.	Name of Farm	Area under seed bed(acre)
1	DSF, Midnapore	1
2	JSMF, Goaltore	1
3	SARF, Garhbeta-II	1
4	BSF, Garhbeta-I	1
5	BSF, Keshpur	1
6	SARF, Khirpai	1
7	SARF, Pingla	1
8	BSF, Sabang	1
9	JMF, Keshiary	1
10	BSF, Narayangarh	1
<b>District Total</b>		<b>10</b>

**G. Motivation of growing additional seed bed in different blocks ( if needed for weather abnormalities)**

Sl. No	Name of Blocks	Number of farmers to be motivated	Additional area under seedbed (dec.) at 10dec. per farmer	Transplanted area to be covered (ha.)
1	Medinipur Sadar	500	5000	200
2	Salboni	500	5000	200
3	Keshpur	500	5000	200
4	Garhbet -I	500	5000	200
5	Garhbeta-II	500	5000	200
6	Garhbeta-III	500	5000	200
7	Kharagpur-I	500	5000	200
8	Kharagpur-II	500	5000	200
9	Sabang	500	5000	200
10	Pingla	500	5000	200
11	Debra	500	5000	200
12	Narayangarh	500	5000	200
13	Dantan-I	500	5000	200
14	Dantan-II	500	5000	200

15	Mohanpur	500	5000	200
16	Keshiary	500	5000	200
17	Ghatal	500	5000	200
18	Chandrakona-I	500	5000	200
19	Chandrakona-II	500	5000	200
20	Daspur-I	500	5000	200
21	Daspur-II	500	5000	200
District Total		10500	10500	4200

#### H. Storing of paddy straw in different Govt. Farms for cattlefeed

Sl. No.	Name of Farm	Total quantity of paddy straw (Qtl.)
1	DSF, Midnapore	10
2	JSMF, Goaltore	10
3	SARF, Garhbeta-II	10
4	BSF, Garhbeta-I	10
5	BSF, Keshpur	10
6	SARF, Khirpai	10
7	SARF, Pingla	10
8	BSF, Sabang	10
9	JMF, Keshiary	10
10	BSF, Narayangarh	10
District Total		100

#### I. Other seed kits to be distributed under natural disaster

Sl. No.	Name of seed kit	Nos.	Area covered (ha.)
1	Mustard	100000 at 1kg each	14000
2	Khesari	50000 at 4kg each	6500
3	Lentil	3000 at 4kg each	1200
4	Wheat	30000 at 4kg each	4000
5	Ground nut	30000 at 15kg each	4500
6	Potato	200000 at 50kg each	4000
7	Maize	30000 at 4kg each	6000
8	Moong	30000 at 4kg each	4000
9	Kalai	30000 at 4kg each	4000
10	Til	100000 at 1kg each	14000

This is in short the contingency crop planning which will be adopted during the year 2018

We do expect that the department of Agriculture, Govt. of West Bengal will be in a position to tackle the situation arises due to natural disaster in the District.

## 9.10 Action Plan for AGRI-MECHANICAL DIVISION:

Midnapore (Agri- Mech) division, Paschim Medinipur is looking after the running and maintenance of 284 nos. Govt. owned and operated River Lift Irrigation Schemes and 169 nos. of Handed over River Lift Irrigation (RLI) Schemes. Out of these 284nos. R.L.I Schemes, 84nos. are electrically operated and the remaining 200 nos. R.L.I Schemes are diesel operated. The Total cultivable command area of all these R.L.I Schemes is to the tune of 26,000 Ha (approximately) and the potential created due to installation of these schemes is approximately 60,000 Ha yearly.

As the discharge capacity of the diesel pump sets is reduced from the rated capacity due to their (20-25 years) ages resulting in less coverage of irrigation by the old and inefficient diesel pumping sets, the WRID Department started to convert all the diesel operated RLI Schemes to the electrically operated one. The proposed conversion/renovation of 1 no such diesel operated R.L.I Schemes will create an opportunity to bring back nearly 100-120% of the cultivable command area under assured irrigation. the conversion will facilitate easier operation and maintenance of the pumping sets, and will have beneficial effect on the environment besides avoidance of the hazards involved in the carriage & storage of highly inflammable H.S.D and lube oil required for the operation of diesel engine pumping sets.

**Existing Structures: -** RLI Structures (Govt Owned) are as follows:-

Sl. No.	Type of structure	Nos.	Name of Block	CCA in Ha	Remarks

Assistant Engineer(AE) KharagpurI(AE) Sub Division	03221 275579
Executive Engineer(AM) Midnapore (AM) Division	03222 275765 / (M) 9830220128

**9.11 Action Plan for AGRI-IRRIGATION**

Minor Irrigation plays a vital role in the agricultural development of the state. Both surfaces as well as ground water are being harnessed for implementation of M.I.Schemes in various parts of state. However, surface water is more significant in those parts where ground water availability is less favourable.

A considerable number of Tube Well and surface flow irrigation schemes are in operation under Midnapore (A-I) division of water Resources Development Directorate. There are three sub-divisions under the division covering 16 (Sixteen) no. of blocks of Paschim Medinipur District. The Sub-divisional offices are located in Midnapore and Belda.

**Location of sub-Division offices:**

- Office of the Assistant Engineer (A-I) Midnapore (A-I) sub-division, Narampur (Near District Jugges' Court), Post- Midnapore and Distt. Paschim Medinipur ph. No. 275465.
- Office of the Assistant Engineer (A-I) Belda (A-I) Sub-division, Belda, Post- Belda, Dist. – Paschim Medinipur. Ph. No.03229-255264.

Designation	Contact details
Excutive Engineer, Agri-Irrigation, Paschim Medinipur	8584807922, 9434455373 03222-275465
Asstt. Engineer, Belda (A-I) Sub-division	03229-255264
Asstt. Engineer Midnapore (A-I) sub-division (officiating)	03222-275465

**Measures to be taken for prevention of damages in Minor Irrigation Installations:-**

- Since most of the schemes are electrically operated, during pre-monsoon cyclone etc. necessary alertness to be ensured for causing temporary disconnection of power supply to the schemes to prevent loss of life by electrical short circuit etc.

2. Pre-Monsoon cyclonic damages of command area should also be prevented which may ultimately cause damages to different spout chamber, Distribution chamber, existing Pipe line etc.

## Annexure-A

### Vulnerable Zones under Irrigation and Waterways Department of

#### Paschim Medinipur

The embankments under this Division have been severely damaged on flood 2017 on the river Cossye for left and right embankments. Left embankment of Cossye near Balipata, (Ch. 14.45 to 16.988) Km. raising and strengthening work required. Estimate has been done and submitted. One sluice at Balipata is required to control the flow water from land field area. Resection of Kalichandi Khal from Alahiganj to Cossye River is required to discharge heavy flood water. A detailed report for the above will be sent shortly for your information and alarming the peoples from administration levels. Several numbers of rain cuts, vertical slips and damage of inspection path has been observed over the embankments of TE1H1 from 15.20 Km. to 40.00 Km. & TE2H2 from 0.00 Km. to 14.00 Km. and TH3H2 from 14.00 Km. to 26.00 Km. All repairing works are taken up and will be completed before monsoon.

Under Ghatal Sub-Division, some portion of the embankment of C.C., D.C & M.C have been damaged during flood during 2017 as per available fund repair work have been taken up on emergency basis. Vulnerable points in Ghatal (I) Sub-Division are Harisipur, Ajuria, Kalmijore, and Khukrdaha-Majipara.

#### VULNERABLE ZONES UNDER GHATAL (I) SUB-DIVISION UNDER WEST MIDNAPORE DIVISION

### SCALES OF COMPENSATION/ASSISTANCE PROVIDED TO THE ELIGIBLE PERSONS UNDER DIFFERENT SCHEMES OF DISASTER MANAGEMENT DEPARTMENT

SL. NO	NAME OF SCHEME	SCALE OF ASSISTANCE	REMARKS
1	NGR (IN KIND)	12 KGS / HEAD / MONTH	FOR ADULT
		6 KGS / HEAD / MONTH	FOR MINOR( 12 YEARS)
2	Spl. GR ( in kind )	12 KGS / HEAD / MONTH	FOR ADULT
		6 KGS / HEAD / MONTH	FOR MINOR( 12 YEARS)
3	SPL. GR ( in cash)	Rs. 120/- / head / month	FOR ADULT
		Rs. 60/- / head / month	FOR MINOR( 12 YEARS)
4	WHILE AT RESCUE CAMP/ GRUEL KITCHEN	Per day/ head	Ratio
	CHIRA	200 Grams.	4:1
	GUR	50 Grams.	
	RICE	400 Grams. (A)/200 grams(M) P.day	18:1( No.78/SDM/2013 dt17.10.13)
	DAL	25 Grams.	
	SALT	10 Grams.	
	K.OIL	50 ml	
	Milk powder		Milk: water :: 1:9
	HALOGEN TABS.	7 tabs/head/ week	
	BLEACHING POWDER	50grms/head/week	Mixed with lime in 9:1 ratio i.e. lime : bleaching powder
	For Cattle (p. day /p. cattle)	250grms (Concentrated feed)	
	-do-	2 kg Paddy Straw	
6	Water supply→Key indicator	Requirement –at least 15ltr. p/head /day	
	a. No. of water point	1 point for 250 people	
	b. Max. distance	500 mtrs. from shelter	
	c. Water flow	At least 0.125 ltr./second /point	
7	a. Excreta Disposal→Size	Max. 20 people/toilet	
	b. Distance	50mtr.or 1min.walk from shelter	
	c. arrangement	Separate toilet for male & female	

## Brief Description of Flood- 2017

Date	Description
20.7.2017	The weather was gloomy and cloudy on and from 20.7.2017 and rain started in the afternoon of 21.7.2017
22.7.2017	Heavy rain continued from the morning. Report came in from BDO Keshpur that low lying areas of Keshpur Block are being inundated including Keshpur Bazar. Alarming messages were sent to all the G.P. level agencies by block authority for taking preparatory measure as well as to keep ready the volunteers for shifting the people of water logged area to a safer place.
23.07.2017	Area of Krishnanagar, Mugbasan and 14 other villages of 3 G.P.s like Mugbasan, Golarand & Kalagram inundated rapidly due to incessant rainfall over the night. Embankments of river Tamal, Parang, Kansaboti and Kubai were vulnerable and in some places it was overtopping. Gunny bags with sand were filled up on the embankments for protecting the embankment by the villagers. In spite of several attempts embankment of river Tamal, Parang and Kubai breached in different points with a span of 60' to 115'. Some persons were shifted and sheltered in different schools. Necessity of boat was urgently felt at the midnight.
24.7.2017	After getting information from the block administration, Civil Defence volunteers alongwith mechanised boat reached Keshpur Block at the late night and started rescue operation in the morning. On the day about 600 people were rescued and sheltered in relief camps. Rescue operation continued for another 3 days. at the same time
25.7.2017	Beside Keshpur Block, huge rainfall occurred at the catchment area of Silaboti, Kansaboty and Darakeshwar river under Ghatal Sub- Division since 24.7.2017. A vast area of Dewanchak, Monoharpur and many other G.P.s of Ghatal Block became inundated gradually.
26.7.2017	Release of flood water from different dams and rush of water from catchment area of the rivers Silaboti, and Darakeshwar made the situation bad to worse in Ghatal block crossing the EDL of the rivers . I&W Dte. Tried their best to protect the embankments of the rivers but in vain. Left embankment of Jhumi(bifurcated canal of Darakeshwar)at samantapara, Janapara, right embankment of Ketia Canal at Iswarpur, Masarpur and several spots of river Silaboti breached. A major breach about 45' to 700' occurred at Pratapur village under Monoharpur -I G.P. A huge rush of flood water entered into the villages of Ghatal block. Water level of Keshpur Block started lowering.
27.7.2017	NDRF & Civil Defence [water wings]started rescue operation of marooned people . Thirty country boats were deployed for rescue & relief operation of people. Food, water & medical assistance were provided to the people sheltered in relief camps of Ghatal.
28.7.2017	In spite of several attempts,NDRF team with their equipments could not reach the interior places of Pratappur beside the river Silaboti due to havoc intensity of flood water to rescue the people marooned in their houses at that area. District Magistrate, Paschim Medinipur decided for air lifting to those marooned people of Pratappur. Immediately matter was brought to the notice of State Authority who in turn has taken promptaction for air lifting. In the afternoon one helicopter arrived over the spot [Pratappur] and tried their best for lifting the people. But due to some barrier matter was not taken positive shape.

Date	Description
29.7.2017	This day Indian Air Force rescued 33 persons from the inundated area of Pratapur with their helicopter .These people were shifted to nearby Kushpata Anukul Ashram. All sorts of assistance in the form of medical check-up, food, water & clothing were provided to the rescued persons. On the same day Hon'ble Minister of I&W Dte. & Hon'ble Minister of water resources came to inspect the flood situation at Daspur -2 block & instructed for immediate repairing of breached embankment at Pratappur. But flood water rushed towards Daspur- 2 block. Block Office premises & G.Ps like Khanjapur, Ranichak, Chaipat & other 8 G.Ps were flooded. Block office has been shifted to Sonakhali Girls' High School & then to Goura Sonamoyee High School.
30.7.2017	Flood situation slightly developed at Ghatal block because accumulated flood water rushed towards Daspur-2 block and scattered paddy fields due to breach of embankment there. Two Civil Defence & 1(one) NDRF team were deployed at Daspur-2 block for rescue & relief operation. But devastation was so wide spread that only these NDRF & C.D. team were not sufficient. Another 2 teams of C.D. with boats were also deployed. But misery of people was much grave because inundated people of these G.Ps had never faced such type of flood. A huge no. of country boats & mechanised boats were requisitioned & deployed from outside the block jurisdiction & even from Kolaghat. PHE department has supplied a huge quantum of drinking water pouch by installing 2(two) machines at this block & continued supply of drinking water.
31.7.2017	All related line departments, PRI body members & Dist. & Sub divisional administration including NDRF & C.D. provided their best efforts for rescue & relief operation. It is a fact that due to intensity of flood, rescue team could not reach the interior part of villages immediately. Gruel kitchen & relief camps were opened in sufficient numbers to facilitate the distressed people.
01.8.2017	Irrigation & water ways Dte. had set up 35 ( thirty Five ) no. of pump machines for draining out the accumulated water from the area of Daspur -II Block

Gruel kitchen and camps were continued in some places of Daspur-II Block up to 08.8.2017. Other related data are attached herewith. Flood water began to recede from 11.8.2017 and after that situation of this block turned towards its normalcy.

With all out effort of administration, PRI body members, all line departments, NDRF, Civil Defence , Police & medical team this district ultimately combated a devastated flood -2017.

## Success Story 2017:-

It was 26<sup>th</sup> July 2017. Incessant rainfall for last few days make the people anxious regarding flood panic at Ghatal Sub Division.

Pratappur, a small village of Monoharpur –I Gram Pahchayat of Ghatal block is situated on the bank of river Silaboti with its approximate population of 3000. Occupation of most of the villagers are agriculture & agricultural labour. Some people are engaged as gold smith worker and works out side of this state leaving their family in this village.

As most of the people are engaged in agriculture related activities so there is a vast area of paddy field on the both embankment of river Silaboti. A huge rush of accumulated water for such incessant rainfall of these paddy field added with discharged water from dams, river Silaboti crossed its EDL and began over topping. Embankment of the river was vulnerable. I& W Dte. tried their best for its protection. In the evening breaches detected in four spots and which are beyond control of I & W Dte. Alarming message communicated to all pockets. By the huge pressure of river water the embankment breached with a length extended up to 700' approx.

All the low lying areas of Pratappur inundated and a large number of population were flood affected. NDRF and C.D team started their rescue operation from different parts of the village. But a few pucca houses were still standing in the flood water with their family members. Due to erosion of soil, plinth of the pucca buildings decayed and the building could not resist the force of flood water and broken slanted. People of those houses were in trap. External assistance was a must.

On 28.7.2017 in the early morning NDRF & Civil Defence teams were deployed at Pratappur for rescuing the marooned persons. Several attempts were taken by the said rescue teams but in vain.

Considering the gravity of the situation district authority decided for air lifting to avoid any casualty. Matter was brought to the notice of higher authority asking helicopter. On 28.7.2017, in the afternoon, one Helicopter of IAF reached over the vulnerable spot of Pratappur where the people of such Pucca buildings are lying trapped. Rescue operation started by IAF, the helicopter was flying over the destroyed houses for rescue. A lot of anxiety was playing in the minds of the other people, media viewing this operation whether the operation will be successful. But due to shortage of sunlight, presence of tall trees operation kept abeyance for the day.

On 29.7.2017, IAF started their 2<sup>nd</sup> day's operation at about mid day. With their all out effort IAF rescued all the 33 persons including lactating mother 7 other children from the trapped buildings and landed them on main land . Thanks to IAF. A medical team was present there for medical check up of the rescued people of Pratappur. The recued persons expressed their blessing to the commandos for saving of their lives.

Some were crying after getting their 2<sup>nd</sup> life. Children were also cheerful. All the rescued persons were shifted to Kushpata Anukul Ashram. There they were assisted with all sorts of primary relief. Without any casualty and injury we were succeeded to rescue all the marooned persons.

Subsequently the damaged embankment has duly been repaired and restored almost in previous shape.
